

LOT 450

50C 1877 J-1515. PCGS PR66 BN CAC

A true prize for any collector—a GEM Morgan pattern half dollar. These very rare patterns have an appeal outside of the specialty, sometimes collected alongside advanced sets of Morgan dollars. Morgan's Liberty facing left is framed by a beaded border and E PLURIBUS UNUM and stars around. The reverse shows a standing eagle, wings outstretched a cartouche with IN GOD WE TRUST and arrows and olive branch in his talons. Struck in copper with a reeded edge, this exceptionally rare pattern is rated as R-7+ (fewer than half a dozen estimated to be known).

Richly toned copper surfaces are deeply reflective and show varying shades of brown, gold, and green hues. The obverse is razor sharp, some of the highest points of the central reverse devices are mostly complete with only slight weakness in the breast feathers. The eye appeal is exceptional.

PCGS 1, NGC 0, CAC 1. There are no records for this coin in auction. An NGC PR65 BN sold in October 2010 for \$23,000 and a coin in ANR's June 2005 auction, graded PR67 BN by NGC sold for a whopping \$80,500, a coin that is now ensconced in the Bob Simpson Collection. This coin is the second finest example. There is a current value of \$37,500 in CU, and the 10th edition of Judd lists a \$42,000 value in PR65. This is a very important issue for any advanced collector and should sell for a strong price. Good luck!

OFFICIAL AUCTIONEER OF THE PCGS MEMBERS ONLY SHOW

THE REGENCY AUCTION

XXII

JULY 13 | LAS VEGAS | THE VENETIAN

Welcome Friends to LRCA's 22nd Regency Auction, held in conjunction with the PCGS Members' Only Show. Featuring 515 lots of the freshest, best quality, collector oriented coins from five named consignments, this sale will have something for everyone.

The first 32 lots represent the Glacier Rams Collection, a top-10 PCGS Basic U.S. Coin Design Type set, 1792-present on the PCGS Registry. Each coin was hand selected, mostly from our sister firm, Legend Numismatics, for quality. Following the Glacier Rams coins, are the highly anticipated coins from the 1994 Collection. Coming back to the market after being put away in 1994, each coin is a highlight, including a 20C 1878 PCGS PR67 CAM, \$1 1846 PCGS MS64+ CAC, \$5 1888 PCGS PR66 DCAM CAC, \$20 1909 PCGS PR66 CAC, and a collection of Matte Proof Lincolns from the 1909 V.D.B. to 1916 which will be first offered individually and then as a complete set.

Further selections from JK's Mirror Collection features high grade Proof Franklin and early JFK half dollars will again be met with strong bidding from more modern specialists. The fifth and final offering of monster toned Morgan dollars from the Northern Lights Collection include the famous Sunnywood-Simpson 1880-S PCGS MS68+ CAC, the ultimate toned dollar. Following the Northern Lights coins, is the A.W. Collection of Morgan dollars, a complete set, assembled over many years, until earlier this year when the collector passed away.

Consigned along these wonderful collections are the coins from other important numismatists. Highlights abound in all areas, and include the following rarities: 1C 1857 Flying Eagle. PCGS PR65 CAM CAC, 5C 1867 NO RAYS. PCGS PR66 DCAM CAC, 25C 1918/7-S PCGS MS64, 50C 1797 PCGS XF45 CAC, \$1 1798 SMALL EAGLE. 15 STARS. PCGS AU58+ CAC, \$1 1891-CC PCGS MS65 DMPL CAC, \$1 1892-S PCGS MS64 CAC, 50C 1915 J-1792/1962. PCGS PR67 RB, 25C 1888 HAWAII. PCGS PR67 CAM CAC, 1858 PROOF SET. PCGS PR65-67 EX SIMPSON, \$5 1823 PCGS MS63+ CAC, \$5 1929 PCGS MS64+ CAC, \$10 1908 MOTTO. MATTE. PCGS PR66 CAC, and \$20 1878 PCGS MS64 CAC.

If you come out to Las Vegas, please know that if you register to bid in person, and view lots, Legend Rare Coin Auctions will give you a voucher good for grading one coin walkthrough at the show. In cooperation with our partner, Bruce Morelan, PCGS will be displaying the Dexter-Dunham-Pogue 1804 dollar.

Happy collecting!

Terms and Conditions

This is a public auction, conducted in accordance with these Terms and Conditions of Sale, by Legend Rare Coin Auctions (hereinafter referred to as "LRCA"). By bidding on any lot offered by LRCA, the bidder indicates acceptance of the following Terms and Conditions of Sale. Bidders are to comply with the Terms and Conditions of Sale, posted on LegendAuctions.com, at the time of the auction in which they are participating.

Buyer's Premium

A 17.5% buyer's premium will be added to all successful bids, and is payable by the winning bidder as part of the total purchase cost.

Sales Tax

All sales are subject to applicable state and local taxes. Any lots that are picked up and/or delivered in the state of Louisiana are subject to applicable state and local taxes.

Payment

All merchandise must be paid for within TEN (10) days of the date of sale. We reserve the right to cancel any unpaid order after that time and to ban the bidder from future sales. Credit cards (Visa, MasterCard and Discover) are accepted for auction payments up to \$2,500.00 per invoice. Invoices and/or balances over \$2,500.00 must be paid via personal or certified check, money order, or wired funds. Personal checks, money orders and cashier's checks may be held for up to 10 business days in order to allow time for them to clear appropriate banking channels. Please email info@legendauctions.com for bank-wiring instructions and/or to provide numismatic references.

Return Policy

All lots are sold "as is." Lots graded by PCGS, NGC or other third-party grading services, or any lot viewed by the buyer or anyone on buyer's behalf prior to the auction, may not be returned. This is not an approval sale. All sales of lots to the highest bidder are final. Bidders are strongly advised and encouraged to research any lots upon which they plan to bid, and to determine bids, based upon their own evaluation. Bidders assume all risks concerning and related to the grade, quality, appearance, condition, history and origin of any lot. Bidders acknowledge that coin grading is not an exact science, that it can be subjective and inconsistent and that it is possible that two parties might assess or grade the same coin differently. LRCA makes every effort to accurately describe all items offered in its sales. All items will be available for preview prior to the auction.

Shipping

Shipping costs will be billed separately and are non-refundable. Items will usually ship within 5-10 business days after payment has been received and/or funds have cleared. Coins will be shipped via Fed Ex or USPS or transported via armored carrier.

The shipping charge includes fees for our third-party insurance coverage, as well as any costs incurred through the USPS or Federal Express. Any shipments made via armored carrier (Brinks, Dunbar, etc.) will be calculated and assessed at the time of shipment.

International Shipping

It is not possible for LRCA to ship to some countries. Please email questions to info@legendauctions.com. Payment for all international orders is required in US funds. Please contact julie@legendauctions.com for bank wiring instructions.

Customs requirements for each country are the responsibility of the buyer. All packages shipped outside of the United States will include the required customs declaration and full value of the invoice.

Bids Via Telephone

An absentee bidder may also participate live, during the auction, via telephone. Requests for phone bidding must be received at least three days prior to the auction date. Please fill out our phone bidding request form online or call 732-935-1168 to request a call from one of our representatives during the live auction. LRCA cannot guarantee phone lines, but will make every effort to accommodate those who wish to participate via this method.

Rights & Responsibilities

The auctioneer will determine the highest bidder. The auctioneer, alone, has the right to reopen the bidding for an item, if deemed necessary. LRCA and its representatives reserve the right to remove any attendees who impede the preview and/or the auction. Title to all merchandise shall pass to the winning bidder after receipt of good funds by LRCA. Bidders will be held responsible for their bids, including those bids placed incorrectly. PLEASE VERIFY BIDS BEFORE SUBMITTING THEM. In order to have a bid removed or corrected, bidder must contact LRCA prior to start of the auction. Bidder waives auctioneer's responsibility and holds LRCA harmless for failure to recognize, accept, receive or execute any lost or missing bids by internet, telephone, email, floor bid, fax, mail or other means. LRCA reserves the right to postpone or cancel an auction without notice. Lots may be withdrawn at LRCA's discretion, without prior notice. Lots may carry a reserve. A reserve is a price below which the auctioneer will not sell an item, or will re-purchase the item on behalf of the consignor or for LRCA. LRCA permits bids to be placed by the auctioneer, or an employee of the auctioneer, up to the pre-determined reserve set by the consignor. Legend Rare Coin Auctions' partner, Legend Numismatics, reserves the right to bid on items, for its own account and for the accounts of its clients.

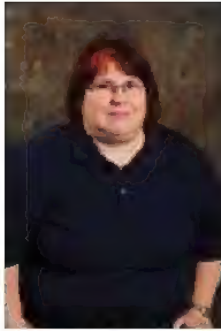

Listed Bid Increments

Bid increments are to serve as a general guideline. Actual increments are at the auctioneer's discretion.

The L at the end of the description indicates that the lot is owned by Legend Numismatics.

PRINCIPALS

Laura Sperber
Partner

Laura was raised in Highland Park, NJ. During high school, the coin bug hit her hard. Her trip to the 1976 NYC ANA left a lasting mark and huge desire for her to own and handle the greatest rarities. While attending Monmouth University, Laura attended coin shows more than classes. After college, she started LSS RCI, a wholesale coin company. In 1986, she realized the need for a "better" coin retailer and teamed up in 1986 with George Huang to form Legend Numismatics.

In 1996 Bruce Morelan became a partner and since then Legend has exclusively built or assisted in assembling this generation's greatest collections. In 2012 Laura saw the need for a smaller, boutique auction firm, and created Legend-Morphy with Dan Morphy, whom she split with in 2014. Today, Laura is also a leading consumer advocate for coins. The passion has never subsided, and she keeps a beautiful Proof Walker on her desk to this day.

Bruce Morelan
Partner

Bruce started collecting coins when he was only six years old and by the time he was in high school his dream was to be a coin dealer. But life intervened and instead, Bruce went into business. By chance, he became Legend Numismatics' financial backer in 1996. His great grandmother had given him three coins when he was young, one of which being a Trade Dollar, so he set out to build the finest Trade Dollar set. After a few years with ultra rarities, Bruce returned to his love of dollars and completed both a set of Gobrechts and a set of Seated Dollars.

After selling those sets, Bruce recently returned to dollars with a new Gobrecht set and a spectacular early dollar set capped by his dream coin, the Amon Carter 1794 Dollar. Not many collector's can say they have completed not only the finest 1794-1885 Dollar Sets and have over the years owned such coins as two 1913 Liberty Head Nickels, an 1894-S Dime, 1876-CC Twenty Cent piece, 1827 Original and Restrike Quarters, 1838-O Half Dollar, two 1885 Trade Dollars and four 1884 Trade Dollars!

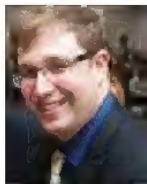

Julie Abrams
President

Julie Abrams started in numismatics in 1986 when she joined up with Bernard Rome and launched Teletrade, the first computerized auction company. Teletrade developed a unique coin trading method, utilizing state-of-the-art digitized voice board technology to run live auctions before the advent of the internet. As President of Teletrade, Julie helped expand the company, increasing the frequency of auctions and expanding annual sales to \$24 million within a few years. In 1999, GMAI, a publicly traded company, purchased Teletrade and Ms. Abrams became Executive Vice President of Sales for the parent company. Her job responsibilities included continuing her role as CEO for Teletrade as well as marketing to buyers and consignors, with the goal of maintaining a balance between inventory and sales while growing the business.

In 2004 she joined Stacks-Bowers, an old world traditional auction house where she worked to expand their e-commerce presence, including the development of an online bidding platform for the firm. She also marketed Stacks' programs to secure consignments from dealers and institutions such as banks, museums and universities.

Julie is a member of the American Numismatic Association, the Central States Numismatic Association and Florida United Numismatists.

THE GLACIER RAMS COLLECTION

THE GLACIER RAMS COLLECTION

Our consignor is no stranger to building collections and offering them in auction. A collector since boyhood, he has built several collections, starting in his childhood when an aunt left him "penny board" sets of Indian and Lincoln cents. His collecting interest flourished further when his father showed him some gold coins that he had saved in 1934. Inspired by those beat up gold coins, the collector endeavored to build a classic 12-coin gold type set (sold in the Winthrop Collection sale in 1975). This was in the 1970s and while attending various coin shows he began to follow various major dealers of the time. Inspired by publications like Bowers' Rare Coin Review, he built a complete set of proof and mint state three cent nickels, as they were touted as being overlooked and undervalued (a sentiment that forty years later still holds). This collection was also sold in the Winthrop Sale in 1975. Over the years, he built a mint state collection of Morgan and Peace dollars (The Montana Collection was sold in a Bowers Auction in 1989). His collection

of classic commemorative half dollars was sold in Kagin's 1986 ANA auction. In the late 1980s and early 1990s, world coins came into focus, first with a type set of British gold and silver coins (sold in 1994) and world gold types in the size of 20 Francs and Sovereigns which were sold in July 2006.

This latest collection represents a project that began about five years ago. After returning to U.S. coins, our consignor worked on a 1792-present "Basic U.S. Coin Design type set, with or without gold" as designed by the PCGS Registry. Either way, this set now ranks in the top 10 all-time sets. Sourcing the majority of his coins from our sister firm, Legend Numismatics, when the time came to consign this set, only Legend Rare Coin Auctions made sense.

A lifelong resident of Montana, the Bighorn mountain sheep (Rams), and dwindling glaciers (Glacier National Park) are symbolic of his home, and the inspiration for the collection's name.

THE GLACIER RAMS COLLECTION

LOT 1

1/2C 1806 C-1. SMALL 6, NO STEMS. PCGS MS64 BN CAC

A lovely satiny lustrous early half cent. Rich, original golden brown surfaces show accents of olive and steely-brown patina which blend with very subtle hints of faded original mint color. The devices are generally very well struck for an early copper. Close inspection does reveal a few scattered teeny ticks. Overall the eye appeal is very strong.

PCGS 10, NGC 3, CAC 5. This coin last sold in auction in September 2012, where it sold for \$6,900 as part of the Goodrich Collection (earlier ex Bowers' Sale of the Lee Hewitt Collection, November 1984, lot 2781). No other PCGS/CAC coin in this grade has ever sold in auction. There are only three coins finer in the Brown category, the finest is a 65+ BN. The current PCGS Price Guide value is \$5,500 and we think this coin should bring a price more in line with what it brought in 2012.

PCGS # 1093 | EST: \$5,000+

LOT 2

1/2C 1835 PCGS MS65 RB CAC

Brilliant original mint red cartwheel luster sprints across the surfaces on both sides, indeed, this coin is very close to a full RED designation. The central obverse shows some light mellowing, showing a band of iridescent violet. A tiny fleck or two can be seen with effort, but none are singularly distracting. The devices are boldly struck, with each and every detail crisply defined and the eye appeal is superb in every way!

PCGS 27, NGC 23, CAC 17. There is a very wide range of APRs for PCGS/CAC coins, but most fall in the \$4,000-\$5,500; the current Collector's Universe value is an average of recent CAC and non-CAC approved coins. The CAC coins bringing a strong premium. Since the eye appeal is so superb, we would not be surprised if this coin brought a strong price! We do anticipate active bidding on this GEM.

THE 1994 COLLECTION

THE 1994 COLLECTION

Legend Rare Coin Auctions is thrilled and honored to have been consigned the 1994 Collection. It is, in fact, one of our sister company's all-time favorite collections. The collector was handing some "investment" funds and gave Legend Numismatics a free hand to cherry pick from the very best coins of that time that were available on the market. This group of "wonder" coins was hand selected by the principals of Legend Numismatics back in 1993/1994.

The core of this collection are the matte proof Lincoln cents, and immediately you will notice they are wildly high end and are pristine in terms of originality. The Proof 20C pieces are to die for. The 1846 \$1 PCGS MS64+ blows away many MS65 Seated Liberty dollars we have ever seen. While the grand highlight, the \$20 1909 PCGS PR66 CAC, is unlike any that have been on the market since it was purchased by Legend out of an auction in 1994!

Sadiq, the guardian of the 1994 collection passed away unexpectedly earlier this year. His memory will live on with the world knowing about his great collection of coins. Even though these coins have been off the market only 23 years, the quality and freshness are unrivaled. EVERY coin is being sold with NO reserve.

Note: we will be trying something different with the Matte Proof Lincolns. They will be offered individually first. Then we will add up the total and add 5% and offer it as a lot. It is a complete Matte Proof set in GEM-including the 09 VDB and every coin is PCGS CAC. We doubt we could reproduce the quality of this set (these coins are far better than the holders suggest), so if possible we would like to keep it intact.

THE 1994 COLLECTION

LOT 33

1C 1856 SLANTED 5. PCGS PR65 RD CAC EX 1994 COLLECTION

Housed in an old green tag holder. An AMAZING GEM PROOF that has not been offered publicly in at least 23 years.

The Slanted 5, attributed as N-5 is a proof only variety, with an original mintage of 100 pieces considered to be R 5. The presently offered GEM is tied for FINEST graded in the RED category. The mirrors are SUPERB, with full, deep red reflectivity. A few areas of iridescence can be seen as the light dances off the surfaces. The reliefs appear to be sculpted, chiseled out of the metal with extremely bold definition. The design elements appear to float on the surfaces in a stunning 3D effect. A pair of tiny flecks will serve to identify this stunning coin for posterity.

Our sister firm, Legend Numismatics, purchased this coin in December 1992. We are unsure of the prior pedigree, but it does not match the Floyd Starr (Stack's 1984) coin. It was placed into the 1994 Collection by Laura Sperber, and it remained there until its consignment to this sale. We are thrilled to be able to offer it to the current generation of Collectors.

PCGS 3, NGC 0, CAC 1. There are no records for ANY coins in the RED category. The finest graded RB to sell was a PCGS PR66 RB CAC that brought \$25,850. The current PCGS Price Guide value in PR65 RD is \$60,000. This amazing GEM presents a very important and unique opportunity for any advanced collector of Proof Large Cents. We would not be shocked by a "beyond moon-money" realization when it crosses the block.

THE 1994 COLLECTION

LOT 34

2C 1866 PCGS PR66 RB CAC EX 1994 COLLECTION

Great balls of fire-WOW what a SUPERB GEM! Even though PCGS does not, we grade the coin a PR66+.

First, this coin is virtually GEM mint red. Only on the reverse is there a small light patch of pale brown color. The mirrors offer and intense reflection, they are crystal clear, are remarkably clean, and are wicked flashy. There are NO spots or stains. Every detail is frosted and is needle sharp in strike. The eye appeal is tremendous!

ONLY 625 were minted. PCGS 17, NGC 22, CAC 18. The last PCGS PR66 RB CAC to sell in auction brought \$3,525 in August 2016. We'd be shocked if this coin did not bring far more. Everything about this coin is great and you can't beat its freshness (off the market since 1994). Good Luck!

3CS 1869 PCGS MS64 CAC EX 1994 COLLECTION

As you may know, our sister company, Legend Numismatics has built the #1 and MS and PR 3CS sets (see the PCGS Registry). So they know how these do and do not come. They have made it clear to us this date never ever comes looking this sexy!! Plus, this coin is VERY high end.

Immaculate surfaces are clean and smooth. Only with a very strong glass can you find a tiny reeding mark on the reverse. Both sides are fully prooflike and have a strong luster too. Awesome total original colors of royal blue/aqua green/rose/pale gold swirl all over. There are some tiny TONING dots-NOT flecks or spots scattered around. Every detail is sharply struck and does stand out. For a small coin, this piece has HUGE killer eye appeal.

PCGS 17, NGC 12, CAC 6. The last 1869 PCGS MS64 (NO CAC) to sell in auction brought \$4,465 in April 2017. Prior to that a PCGS CAC piece brought \$4,230 in October 2015. This coin is stunning stuff. You can't beat the color, quality, or freshness!

Swizzle! This is a stone GEM original toned 20C Proof

Incredible deep mirrors blaze so strong you can see them from across the room. There are zero imperfections visible even when examining this piece with a strong glass. The bold flash of the mirrors add to the deeper original toning. Totally original shades of navy/purple/magenta/forest green swirl wildly all over. Miss Liberty and every detail not only stand out with strong strikes, but bold frost. The eye appeal is impressive.

PCGS 24, NGC 25, CAC 6. Here is a remarkable fact, NO PCGS CAC piece has been sold via auction since January 2012, that coin brought \$8,050. The current Collector's Universe Value is \$9,750. This is so much better than the typical dull/hazy pieces we see so often. We do expect really strong bidding here.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you.

20C 1877 PCGS PR66 CAC EX 1994 COLLECTION

Without a doubt, this piece ranks among the very finest 1877 20C proofs that exist. Of course, this piece is SUPER HIGH END too!

Out of this world mirrors are so deep and so flashy you can see them from across the street! WOW! Even using a strong glass to look for tiny imperfections-yields ZERO. The mirrors also have great clarity. A wonderful and totally original mix of salty blue/purple/rose/pale olive splash all over both sides. The colors are moderate and are NOT dull in any way. Miss Liberty and every detail are fully struck and do have gentle frost. The eye appeal is super!

PROOF ONLY MINTAGE of just 350 pieces. PCGS 15, NGC 19, CAC 8. PCGS has not graded a single coin higher (note: there is one PR67 Cameo) after 30+ years of operations. The ONLY PCGS PR66 CAC to ever sell at auction brought \$22,325 in a March 2013 auction sale. Everything about this SUPERB GEM offered here is super impressive. Yet again, the quality and freshness are unbeatable!

20C 1878 PCGS PR65+ CAC EX 1994 COLLECTION

As to be expected with all the gems in the 1994 Collection--this coin is high end and FRESH to the market. The capstone to the short-lived series, which only were struck in four years, and in 1877 and 1878 were struck as proofs only for Collector's. Watery reflective mirrors are draped with a rich layer of lilac-slate, teal-blue, and accents of rose-gold toning. Nicely produced and nicely preserved, this GEM has only a few mint made lint marks in the fields.

Only 600 proofs were struck. PCGS 26, NGC 26, CAC 6. This is the sole PR65+ on the PCGS Population Report, with only a dozen coins graded finer in the non-cameo category. Since this coin has been off the market since 1994, there is no record for a PR65+. Only CAC approved PR65 to sell was an NGC coin that realized \$24,725 in March 2011, the most recent PCGS coin sold for \$7,931 in June 2015. The sole CAC PR66 has never sold in auction, the most recent PCGS PR66 sold for \$12,925 in April 2016. The current PCGS Price Guide value is listed at \$12,500, but it could well bring more. This is a great coin to finish off any 20C set.

No question as to why at the very least this coin is tied for finest known 1878 Cameo PR 20C piece! CAC showed no mercy by not buying it (we totally disagree)

Ultra-deep and nearly full high voltage search light type mirrors beam from all over. You just about need Ray Bans to view this monster with. Besides the out of this world flash, the mirrors are as ultra clean, have remarkable clarity, and are as good as you will ever see. When you twirl the coin you are reminded of if the sun gleaming down on a fresh winter pond of ice. Wildly iridescent shades of totally original blue/pale purple/pale russet swirl all over. Miss Liberty and the details are thickly frosted and all have full needle sharp strikes. The eye appeal is total gonzo!

PROOF ONLY MINTAGE of 600 pieces. PCGS 2, NGC 2. This piece is tied for finest graded at PCGS. For sure, this coin will be the absolute highlight of ANY GEM 20C Proof Collection. Even if you don't buy NON-CAC-we suggest you look at this coin it's ridiculous without a bean (we mean it). One thing has not changed in the 23 years this coin has been away from us it is still SUPER HIGH END and it's Mother Nature's baby!

When our sister company-Legend Numismatics is given free rein to assemble a group of coins, the resulting coins are like this (and ALL the 1994 Collection coins offered here). This coin has it all! Super deep mirrors are high voltage and beam from all over—they are extremely clear and clean. When you twirl the coin you see a light rolling watery look and explosion of colors. Mother Nature just loves showing up her flock (especially peacocks) by creating magical scenery like on this coin. All the colors are totally original and are iridescent. Stunning shades of royal blue/violet/ electric tangerine/amber flame from all over. Miss Liberty and every detail is moderately frosted and is of course fully struck. The eye appeal is total WOW, WOW, WOW!

ONLY 470 were minted. PCGS 7, NGC 6, CAC 6. PCGS has only graded one coin higher in PR67. The last PCGS CAC piece to sell in auction brought \$8,813 in April 2017. We assure you, it was NOT Mother Nature's masterpiece like this. If you LOVE color and bold mirrors, this is a "must see" coin. We think there will be really strong bidding here—be prepared! \$1 1846 PCGS MS64+ CAC EX 1994 COLLECTION

As many of you are aware, our sister firm, Legend Numismatics, exclusively helped Bruce Morelan build his all-time greatest Hall of Fame set of MS Seated Dollars. So, we know our MS Seated Dollars as well as anyone. This coin in our opinion is as SUPER HIGH end as you can ever find for a MS64+. We chose this coin 23 years ago for our 1994 Collector because at the time we had never seen such a beautiful MS Seated Dollar. The scary part today that still holds true. We unhesitatingly pronounce this coin the greatest MS64+ and MS64+ in existence!

Out of this world surfaces are ultra clean and super smooth. Only with a really strong glass can you find a few HIDDEN point ticks. We think a tiny cut on the reverse is what keeps this coin from being a GEM and worth \$60,000+. Not only is this coin boldly lustrous, it is also slightly semi-prooflike. Both sides are evenly bathed with an incredible mix of totally original aqua blue/purple/pale aqua green colors. When you twirl the coin they really do sparkle. Miss Liberty and the details are fully struck and thick frost. The eye appeal is incredible and is unlike the vast majority of ALL MS Seated Dollars you will ever see.

PCGS 22, NGC 20, CAC 6. The last MS 64+ to sell in auction brought \$28,200 in April 2014. We are highly confident this will sell for a record price. We promise, if you seek one special Mint State Seated Dollar for a Type or Seated set—here it is. We can't stress enough how SUPER HIGH END and colorful this coin is (on a 1-10 scale we rank this coin an 11). Good luck.

\$5 1888 PCGS PR66 DCAM CAC EX 1994 COLLECTION

This monster piece is more than well deserving of its designation and being the second finest graded for the date! It is also totally FRESH, having been off the market since 1994.

Ultra-deep (and we mean miles deep) mirrors beam from all over, they are so deep you can see an isolated microscopic contact tick and planchet flake or two—otherwise they are clean. You can't beat their clarity or intense reflection, when you twirl the coin, you see nothing but flash. The contrast is incredible; you have the black on brought gold look. Miss Liberty and every detail are fully struck and thick screaming bright frost. The eye appeal is insane!

ONLY 95 were ever minted. PCGS 1, NGC 2, CAC 1. PCGS has graded one PR67 DC (no CAC) finer, and that's it. If you love rarer PR Gold, are building a set, or just love neat coins, then check this piece out. Once you see it, you can NOT forget it. Obviously, this coin has never sold in auction. A non-CAC NGC-certified coin (not this coin) sold for \$40,250 way back in March 2007. One thing we do know, this coin won't go cheap! It's important to know Collector's Universe Value for a PR65 DCAM is \$62,000 while a PR67 DCAM is \$122,500. Good luck.

LOT 43

\$20 1909 PCGS PR66 CAC EX 1994 COLLECTION

Legend Rare Coin Auctions is pleased to present this ultra HIGH-END Roman Finish 1909 Proof \$20. This is the second lowest mintage regular issue Proof Saint Gaudens double eagle with only 67 pieces originally sold to contemporary Collectors, the balance of the 166 examples struck were melted at the mint. This is exactly what a Roman Finish \$20 should look like. Light golden-orange color truly shines in the light. The surfaces are moderately granular in texture, a relatively early die state. Machine doubling can be seen on the date stars, and Capital Dome. What look like minor rim bumps are actually imparted from the edge. Both the doubling and the "bleeding" of the edge stars are artifacts from a die that was a touch loose when this coin was struck and is seen on a number of examples. A forceful blow from the powerful hydraulic media press has rendered every detail to their fullest advantage. The surfaces are highly lustrous and free of any lines or ticks. While under appreciated by Collectors in 1909, today these are HIGHLY prized for their beauty and exceptional rarity.

The era was a whirlwind of activity at the mint with innovative new designs and new techniques that were inspired by what was being done in various European mints. In 1907 the Liberty series, which had been produced with a polished or brilliant finish came to an end and with it came the masterfully artistic and innovative designs of Augustus St. Gaudens (\$10 and \$20) and Bela Lyon Pratt (\$2.50 and \$5). Mint officials reported that the new designs would not lend themselves to the traditional Brilliant finish, and a new process, which had been in use at the Paris and Royal mints was employed. The sandblast, or matte proofs were struck for commercial sale in 1908 to Collectors. The finish, which was created by blasting the struck coins with sand left something to be desired for contemporary Collectors (while today matte proofs with their original olive-gold patina are highly desirable, they were seen as dark and unattractive at the time of issue). A second finish, what we know today as the Roman or Satin finish, have long been subject of debate of how they were produced. There has been much confusion, as unlike the matte process where mint documents state that the coins were subjected to an actual blast of sand, there is no documentary evidence of the process of die and planchet preparation. The cataloger (GC) had an informative conversation with John Dannreuther (who has been studying U.S. Gold Proofs for soon to be published encyclopedia), regarding the process. The original theory was that the dies were treated with an acid solution that would etch the surface. Today experts believe that the Satin Finish dies were produced by sand blasting the dies before striking, and then leaving the finished coins as is, without blasting them again. Due to their somewhat different texture,

Wayne Raymond called them Brilliant Matte Proofs as the color was a brighter, yellow gold with a satiny lustrous surface, and perhaps his term is a fair assessment of what they are. In our discussion, JD explained that in the past, numismatic experts thought multiple finishes were employed, as individual coins do look different from each other, some being quite grainy in appearance to others that have a more vibrant nearly prooflike lustrous surface. Today, however, it is believed that only one die finish was employed, with the finish wearing off with each successive coin struck, explaining these differences. While only 166 coins were struck, you can see clearly distinct die states, from those struck early on with highly granular surfaces to those struck later on display a smooth, PL lustrous look.

PCGS 4, NGC 9, CAC 3. This coin has been off the market since our sister firm, Legend Numismatics, placed it into this collection in a green tag PCGS holder graded PR65 (back in 1994). This is the coin that sold in the July 1994 Heritage auction (the most recent PCGS PR65 to sell (HOW RARE IS THAT?!)). No PCGS coin in PR66 has EVER sold in auction (we believe that the \$99,875 for the non-CAC coin in the August 2015 ANA auction reported by PCGS CoinFacts represents a buy back price). An NGC PR66 CAC sold for \$83,375 over five years ago (2012 FUN auction). A PCGS PR67 (which is not CAC) sold for \$184,000 back in the 2006 FUN auction (11 long years ago!). The current PCGS Price Guide value is listed at \$190,000. We believe this coin will bring a run away price. This is truly a special rare coin, destined for the finest collections of Proof 20th Century gold or Type coins. We offer in advance, a hearty congratulations to the successful bidder! It may be many years before another comes up for sale.

The most recent to sell was in our May 2016 Regency Auction for \$3,405 and the eye appeal is superior to that one. The current PCGS Price Guide is \$3,400 and we think that when this uber gem crosses the block that number will be surpassed.

1C 1910 PCGS PR67+ RD CAC

A mix of heaven meeting earth here. This coin is so wild it does not deserve to even exist!

This coin looks like it was just minted! Phenomenal to the nth degree surfaces are fully satiny and bold matte like in texture. There is not a single imperfection to found anywhere. A bold and glowing unbroken luster flames all over. The color is a stunning rich GEM Mint Red with highlights of pale gold. Lincoln and every detail looks like they were carved out by a doctor's scalpel! The eye appeal is so incredible we doubt you'll ever forget this coin!

PCGS 3, NGC 2, CAC 2. THIS IS THE SINGLE FINEST GRADED 1910 PR 1C! It is MORE than worthy of its designation. The last regular PR 67 RD sold for \$36,800 back in 2003. There are NO accurate pricing guides for this coin. We do believe in auction it would score a "runaway" price. Legend has owned the magnificent 1C 1909 VDB PCGS PR67+ RB CAC piece (universally acknowledged to be the FINEST of any Matte Proof 1C). This coin is the only Matte Proof we have ever seen that ranks #2 to that. If you are an advanced Matte Lincoln collector, or have been searching for an out of this world special coin, this piece represents an opportunity of lifetime.

This is the second finest RB 1911 Matte Proof graded by PCGS.

SUPERB iridescent toning in rainbow shades dance across both sides. Viewing this awe-inspiring GEM in a light, the colors twinkle with the multitude of facets created by the sandblast surfaces. Fifty shades of blue, green, violet, gold, red, magenta, and rose blend together over superb high-end quality surfaces.

The eye appeal of this amazing-looking coin cannot be beat. If original, superb, naturally-toned MPLs are your specialty, you owe it to yourself to view this coin. You will not be disappointed with the quality.

PCGS 25, NGC 16, CAC 17. This is the sole PR66+ RB graded, and only a single PR67 RB has been graded finer. The only comparable example to have sold is a sort of spotty non-CAC PCGS PR66+ RD, which sold for \$12,925. The presently offered kaleidoscope of colors blows that coin out of the water in terms of eye appeal and this one should bring more!

This is a HIGH END example of a tougher matte proof Lincoln date

Terrific matte surfaces are undisturbed and appear smooth all over. A good luster does add to the totally original, golden brown/pale brown/faded red colors. Only with a strong glass can you detect a few tiny toning dots on upper left obverse Lincoln and all of the details are sharply struck. The eye appeal is very bold!

PCGS 20, NGC 11, CAC 10. The last PCGS CAC piece to sell in auction brought \$3,995 in January 2015. Prior to that, these were bringing \$5,500 for a few years. Yet another coin the market has forced "on sale"! We assure you, this is a terrific GEM piece.

1/2C 1800 C-1. PCGS MS64 RB CAC EX MISSOURI CABINET COLLECTION

Amazing quality and eye appeal for an 1800 half cent! The faded Mint red is still quite evident and both sides are even and attractive with their faded Mint color with bluish steel brown. Free of any troubling specks or spots, the color is a wholesome delight. Furthermore the surfaces show only a few tiny nicks and handling marks, far fewer than one would expect for a half cent from this early era. A thin strikethrough line above the bust tip serves to identify this amazing coin. Middle die state. Manley state 30. There was a small hoard of these that came out for the 1980 ANA Convention, but this coin was not from that group as it was in the Col. E. H. R. Green holdings in the 1930s.

The quality of the planchets used to strike most 1800 half cents is high. The planchets were provided by Boulton & Watt, the famous English inventors and suppliers of planchets. Once struck most of the half cents were soon in circulation, so finding a Mint State coin, especially one with original Mint color is quite extraordinary. This particular one is pictured on the CoinFacts website with its extensive provenance noted as well.

Notably from Howard Rounds Newcomb and soon B. Max Mehl in 1935, to Col. E. H. R. Green Collection, appraised by F. C. C. Boyd in the Green Estate for \$5 on August 9, 1937, sold for \$4 in April 1943 to the Eric P. Newman and B.G. Johnson partnership, Eric P. Newman and his Education Foundation, Missouri Cabinet, Missouri Cabinet Collection Auction, Goldbergs, January, 2014, lot 49 at \$46,000.00.

PCGS 3, NGC 0, CAC 1. None are graded finer but there are two reported as MS63RD by PCGS. This is certainly well up in the Condition Census for the date and technically one of the finest to survive, especially so with this much residual Mint red remaining.

This S-294, among the ABSOLUTE FINEST examples, is from the July 2015 sale of the Doug Kaseritz Collection. It brought the record price for the variety, realizing \$55,813

For the date and type, this wonderful GEM retains as much ORIGINAL cartwheel luster as you could ever imagine, especially from a coin with the BN designation. Accents of brick red blend with rich chocolate brown, violet, and tinges of olive and apricot/rose. The devices are knife sharp on both sides; each of the details in the hair, face, stars, dentils, and wreath is very sharp and fully defined. The eye appeal is superb.

The final issue of the "early" large cents, the second to last Sheldon-numbered die variety. These Classic head large cents designed by John Reich were rarely saved at time of issue, and most are lower grade. Even those graded Mint State do not display the type of lustrous surfaces of that this one has.

PCGS 4, NGC 1, CAC 2. As mentioned above this coin realized a record for the issue \$55,183, graded as MS65 PCGS/CAC. This is the first time it is appearing in auction as a MS65+ BN. This issue is so tough to find in nice enough grade that it was missing from the D. Brent Pogue Collection. We are pleased to present this extremely important 1814 large cent, suited for any serious cabinet of early copper or any SUPERB type set.

Sure, we'll be accused of over hyping this coin, but you have to see it to believe it. We have handled original Proof sets and monster singles, but this coin is by far the PRETTIEST of ANY 1857 we have EVER seen and possibly of ANY proof Flying Eagle (the 1857 PR66 CAM we saw the other day is a mind boggling non-colored flashy piece)

There is NO question even using the toughest standards that this piece is a PR65+. You can use the strongest glass and find NO imperfections. Most impressive is how deep, clear, clean and of course, how flashy the mirrors are. Both sides have totally heart pounding ORIGINAL moderate colors of light copper/pinkish red/gold/pale violet. Moving on to the details, everything is FULLY struck and has strong frost. We cannot stress enough how superior this coin is to 99% of all other 1857 FE's. Sure, a small handful may have the quality, but none have the colors this piece displays! This coin is a coin that will make any collection it resides in special.

The rarity of this date in Cameo is unquestioned. ONLY 485 Proofs were minted. PCGS 4, NGC 2, CAC 3. Both have graded one higher. The last one to sell in auction brought \$32,900 in January 2016, during a weaker auction. We have known there have been serious six figure offers (and deservedly so) for the PCGS PR66 CAMEO. Truly rare with such high quality surfaces, many examples of this issue are plagued by carbon, finger prints or some other distraction. This is a coin that will captivate you with its remarkable eye appeal.

PCGS 58, NGC 14, CAC 18. PCGS has graded a mere 4 coins as PR66+ RD, with two coins graded finer, as PR67 RD (the last one of these sold in 2003!). While the last PR66+ RD sold for only \$4,818, it did have several carbon flecks on both sides. This coin, absent those flaws should realize significantly more. The current PCGS Price Guide value is \$6,500 and it would certainly not shock us if this beauty exceeded that level.

1C 1939 PCGS PR67 RD CAC

Watery and rich ORIGINAL RED surfaces blaze in the light. The eye appeal is superb and this one ranks among the finest graded!

PCGS 45, NGC 31, CAC 20. There is a record for one selling in April 2017 for \$1,939. Before that one sold for \$1,410. The current PCGS Price Guide value is listed at \$1,800. There is only a single coin graded finer, a PR67+ RD. So this one is destined for a very high ranking Registry Set. Good luck!

PCGS # 3344 | EST: \$1,400+

LOT 94

1C 1942 PCGS PR66+ RD CAM CAC

WOW! These early brilliant proofs rarely come with full CAMEO contrast! Deep bright red mirror fields shine from across the room, and contrast wonderfully against the frosty devices. Twirling in the light we see some minuscule toning dots and old flecks from storage in the original tissue paper. The wonderfully high quality can scarcely be surpassed in terms of technical quality and eye appeal.

PCGS 19, NGC 19, CAC 13. This is the only PR66+ RD CAM, and surprisingly there are four listed finer as PR67 RD CAM. This coin has not appeared in auction; the most recent regular PR66 RD CAM approved by CAC was an NGC that sold for \$2,233. In PR66+ RD CAM, PCGS suggests a price of \$4,250. Good luck!

2C 1869 PCGS MS66+ RB CAC

The FINEST graded 1869 2C in the RB designation, and among the finest numerically graded regardless of color designation.

Bold original luster brings out strong RED coloration that has mellowed slightly taking on hints of violet patination around the sharply struck devices.

PCGS 17, NGC 9, CAC 6. This is the sole 66+ RB, and none are finer. The last regular MS66 RB graded by PCGS was not CAC approved, and sold for \$3,525 in January 2017. PCGS has not assigned a value in the 66+ RB grade. A great looking coin for any fine set of 2 cents.

2C 1864 LARGE MOTTO. PCGS PR65+ RB CAC

Strong hints of ORIGINAL Mint Red color can be seen all over. This coin is also of VERY high end quality.

Shimmering deep mirrors beam from all over. The mirrors offer cleanliness, bold clarity, and a strong reflection. The totally original colors dance around. Beautiful shades of pale brown/blue/faint green/pale mint red colors swirl all over. There are NO spots. All of the details are frosty and have full, vivid strikes. The eye appeal is tremendous!

PCGS 39, NGC 40, CAC 12. PCGS has graded only this coin PR65+ RB. Obviously this coin has never been sold in auction. It should be noted that a PR65 RB sold for \$4,465 in January 2017. Do not be fooled by the pops, nice 1864's Proofs are hard to find! Good luck!

3CS 1856 PCGS MS66+ CAC

Our sister firm, Legend Numismatics, has a reputation for handling the FINEST and rarest U.S. Coins, but there are certain series in which they have unparalleled expertise, and the 3 cent silvers are one such area. The Legend has built the top sets of 3CS in both Mint State and Proof, so if we say a coin is HIGH END, or beautiful, rest assured that it really is.

This 1856 is tied for second finest graded by PCGS. Bold frosty luster shines on both sides of this nicely struck and lightly toned gem. The quality of the presently offered GEM is superb.

PCGS 4, NGC 2, CAC 7. Clearly coins have been resubmitted to CAC in new holders. The other one sold in a very soft market, January 2016 for \$9,400. The last regular PCGS MS66 CAC sold for \$15,275 in July 2015 and the sole finest MS67 PCGS/CAC sold for \$28,200 in August 2015. The current PCGS Price Guide for a 66+ is listed at \$16,000. This coin should bring somewhere in our estimate range. What a great coin for any advanced collector.

3CS 1863 PCGS PR64 CAM CAC

Very nicely struck and well preserved, this border-line-GEM has a really nice look overall. Deep mirrors reflect the light and the obverse contrast is nearly full DCAM. A light accent of iridescent gold can be seen on both sides. Very clean for the grade assigned, we do not see the normal hairlines that are often seen at this level.

Only 460 proofs were struck. PCGS 12, NGC 8, CAC 6. The last time a PCGS/CAC PR64 CAM sold in auction was in November 2013, realizing \$1,528. Today, the CL value is listed at \$1,350, but with its great eye appeal and CAC approval, this coin could bring more.

LOT 99

3CS 1863 PCGS PR67 CAM CAC

This is a wicked nice SUPERB GEM! It's always amazing to us when we see a 154 year old coin like this in such a remarkable state of preservation.

You heard the term "nothing but net", this is nothing but mirrors! Deep mirrors really boom from all over, and they are crystal clear, clean, and have an intense reflection. When you twirl the coin you see the mirrors have a tremendous "watery" roll. A faint hint of original pale gold is spread all over. Every detail is needed sharp and has thick frost. The eye appeal is phenomenal!

ONLY 460 were minted. PCGS 1, NGC 1, CAC 6 (there are 3 in PR67+, one of which is in the Legend Collection Hall of Fame Registry set). NO PR67 or 67+ has ever been sold in auction-even in NON Cameo! We cannot stress enough the extreme rarity of this Civil War date in all grades. This coin will be a super star in ANY collection! Somehow there is a Collector's Universe Value of \$12,500, however, we strongly feel \$15-\$17,500.00 is more in line. Good luck!

3CS 1866 PCGS PR67 CAM CAC

This is one awesome multi colored Proof 67 Cameo 3Cs. Remember our sister company Legend Numismatics has built the #1 Hall of Fame set of Proof 3CS (see the PCGS Registry). They know their 3CS and helped us catalog this GEM.

Outstanding deep mirrors really do beam from all over (even covered by toning). The mirrors do have remarkable clarity, cleanliness, and they have a surprisingly strong reflection. Both sides enjoy stunning original rings of color. Moderate circles of navy/aqua green/violet/deep gold colors can be seen sparkling from across the room. Every detail is needle sharp in strike and has thick frosting. Everything about this coin is sensational!

ONLY 625 pieces were ever struck. PCGS 4, NGC 3, CAC 9 (obviously there have been resubmissions). The last PCGS CAC piece to sell in auction brought \$12,338 in August 2015. This piece is all there and then some AND has marvelous toning. We expect this coin to have lots of bidding and sell for much more. Good luck!

3CS 1866 PCGS PR66+ DCAM CAC EX LEGEND COLLECTION

A "wonder" GEM that until recently was the star in the Hall of Fame Legend Collect on. We have seen few others like it ever. Even the PR68 that replaced was a tough call.

Incredible beyond deep mirrors explode from all over. For a smaller coin, they have a BIG coin dramatic effect. The mirrors are ultra clean, are remarkably crystal clear, and are of course have a nearly blinding reflection. There's some totally original light russet/gold toning that frames the peripheries all over. Every detail looks like it was sculpted by a sharp surgeon's scalpel. The eye appeal is insane!

ONLY 725 were minted. PCGS 1, NGC 0, CAC 1. This has been off the market for many years in the #1 all-time collection. Years back it cost \$10,000. A coin like this is more than worthy of a record price. Especially since there are NO equals or even close!

3CS 1867 PCGS PR66+ CAM CAC

One area Legend knows better than anyone—Proof 3CS (our President owns the #1 all-time set on the PCGS Registry). We can tell you exactly how every date should be. For an 1867, this coin is great!

Deep mirrors vividly beam from all over. The mirrors have total clarity (ZERO haze), are clean, and have a nearly blinding reflection. A light hint of totally original pale green/golden brown/blue graces both sides. Every detail is pinpoint sharp in strike and has thick frost. The eye appeal is really bold and flashy!

ONLY 725 were minted. PCGS 14, NGC 10, CAC 17 (several were resubmitted). PCGS has only graded 3 coins PR66+ CAM. The last one to sell in auction brought \$4,818 in January 2017. You can complete a PR64-66 set (which we do recommend).

This piece has all the razzie dazzle and quality the strictest buyer would want!

The FINEST DCAM 1870 3CN! Ultra deep mirrors contrast against frosty white and sharply struck devices. Close inspection reveals heavy die polish lines and a few lint marks - artifacts of the process which left the bold contrast behind on this coin. A light pastel iridescent tone can be seen on both sides, but nothing detracts from the bold black and white contrast on both sides of this superb gem.

PCGS 2, NGC 0, CAC 2. The FINEST PCGS coin in the DCAM category; VERY RARE in DCAM ONLY 4 are thus graded by PCGS. There is a record from a February 2017 auction for \$11,163 and the current Collector's Universe value is \$13,500. 5C 1867 RAYS PCGS MS65+ CAC

A bold GEM that ranks toward the top of the PCGS Population Report. Visually appealing with a nice satin bloom with hints of pastel iridescent toning. Both sides show the extensive die cracks that explain why the design was changed to have the reverse rays removed.

PCGS 40, NGC 57, CAC 6. This is the SOLE MS65+ at PCGS, and the highest graded CAC-approved example of the date. This coin has not appeared in auction as an MS65+. The most recent auction comps are a PCGS MS65 CAC that sold for \$2,820 in January 2017 and a PCGS MS66 that realized \$8,225 in July 2014. The current Collector's Universe value is listed at \$4,000 and we think this lovely coin could eclipse that level. A coin bound for a high end set of Sheldons.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collectors can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quantity. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you.

5C 1867 NO RAYS. PCGS PR66 DCAM CAC

If you can create a perfect black and white cameo coin in your mind, this coin is what it would look like in person. The quality is all there and then some!

Deep mirrors boldly beam from all over, they are incredibly clean, clear, and are intensely reflective. If you twirl the coin, it looks like a freshly made sheet of ice. There are no spots or discolorations. Every detail is neede sharp in strike and has bold thick frost. The eye appeal is tremendous!

ONLY 600 were ever minted. PCGS 3, NGC 2, CAC 4. This date should command respect as it is pretty much just as rare as its cousin the With Rays. The last auction record for this date and grade is from back in 2013-where a PCGS CAC piece sold for \$35,250. If you are seeking to build the ultimate Deep Cameo Nickel set, or just want a wicked cool coin, check this piece out!

5C 1907 PCGS PR67+ CAC

This immaculate, SUPERB GEM is tied for finest 1907 nickel certified by PCGS or NGC. Regardless of designation, NONE are numerically finer.

Ultra clean, chrome-like mirrors shine against crisply struck devices. A light dusting of clear powder blue, teal, and periwinkle iridescent toning adds to the visual allure. The eye appeal is simply stunning.

PCGS 35, NGC 8, CAC 14. There are 15 coins graded PR67+, and none are finer. As of the time of this cataloging, only one has sold in auction, realizing \$4,465 in the 2017 FUN auction. With a strong eye appeal this SUPERB coin should bring a strong bid from the collector who demands the BEST!

PCGS # 3905 | EST: \$2,500+

LOT 131

5C 1908 PCGS PR67 CAC

Bold flashing mirrors shine from across the room, with smooth chrome-like reflection! The surfaces are totally problem free, and have deep bold clarity. The devices are sharply struck with razor precision. Among proof Liberty nickels, this superb gem is among the most eye appealing we have handled in quite some time.

PCGS 24, NGC 24, CAC 17. The most recent PCGS/CAC coin to sell in auction realized \$2,115 in February 2017. There are only five coins graded finer, four in PR67+ and one in PR68. This coin is bound for one of the top sets of Liberty Nickel proofs on the PCGS Registry.

PCGS # 3906 | EST: \$1,200+

LOT 132

5C 1913 TYPE 2 PCGS MS67 CAC

An eye appealing and high end superb GEM! Boldly lustrous fields yield to a light pastel iridescent toning when rotated in a light. Hints of peach, gold and rose hues can be seen throughout. Fully struck, this first year Buffalo nickel has a superb eye appeal.

PCGS 25, NGC 12, CAC 12. There has not been a PCGS/CAC MS67 sold in auction since August 2015, where an example sold for \$9,400 in the ANA sale. More recently even a non-CAC coin sold for \$5,875. Only six examples graded MS67+ are finer, including the Ange Dee's coin which we sold in December 2016 for \$10,281. We anticipate lots of bidding action on this one!

PCGS # 3921 | EST: \$4,500+

LOT 133

5C 1914-S PCGS MS66 CAC

Pastel toned in hues of blue and lilac with subtle hints of gold and rose. Lustrous with very well struck devices on both sides. A conditionally rare issue with is VERY rare any finer.

PCGS 33, NGC 30, CAC 19. The most recent PCGS/CAC MS66 to sell in auction realized \$6,463 in the 2016 ANA auction. Before that, these have sold for as much as \$8,813. The current PCGS Price Guide value is listed at \$7,500. Only 8 coins are graded finer, and the last 66+ sold for \$14,100. This coin does have an excellent eye appeal and should see spirited bidding from Buffalo nickel specialists.

PCGS # 3926 | EST: \$5,500+

LOT 134

5C 1917 PCGS MS66 CAC

This 1917 is a masterpiece of a buffalo. Brilliant mint luster with iridescent pastel toning that adds depth and dimension to the razor strike.

PCGS 187, NGC 48, CAC 36. The most recent example to sell in auction sold for \$1,763 in November 2016 and this one does have a bold visual allure worthy of a premium bid from a serious collector!

PCGS # 3934 | EST: \$1,000+

LOT 135

5C 1919-S NGC MS66

Tied for finest graded! A remarkably strong strike for the date, this coin is highly appealing for the advanced buffalo nickel collector. Full and vibrant satin luster does not yield to any scuffs or other distracting marks. Fully brilliant with only a light hint of blue and russet-gold tone on the obverse. As fine an example that any collector could hope to acquire for their advanced set.

PCGS 3, NGC 3. There is a single MS66+ graded finer at NGC. A major condition rarity in this conditionally challenging series. Most of the mint state coins are clustered at the MS63 and M64 levels, in MS65 the date is rare, and in 66 as here, virtually unobtainable. This coin sold previously in April 2008 for \$92,000! A PCGS-graded example sold in November 2016 for \$82,250. This is a major opportunity for the Buffalo nickel collector.

PCGS # 3943 | EST: \$40,000+

LOT 136

5C 1923-S PCGS MS65+ EX ANGEL DEE'S

A glistering mint luster drips from the surfaces on both sides of this lovely gem. Subtle icy-blue and gold blends into the highly flowlined obverse. Both sides are well struck and very pleasing. The obverse was struck from a very advanced state of the dies, with the letters of LIBERTY beginning to run into the rim.

PCGS 5, NGC 0. There are only three coins graded MS66 finer. Our consignor declared, "I love this coin!" He further elaborated that he thought it was an MS66. No MS65+ has ever sold in auction and there is a very substantial spread in value between MS65 and MS66: the last MS65 brought \$5,405 (in April 2017) and the last MS66 brought \$32,200 (September 2013). This coin sold for \$11,456 in our Angel Dee's offering, and the current PCGS Price Guide value is \$18,500 in MS65+. For the advanced collector, this poses a very important opportunity that should not be missed. Good luck.

PCGS # 3950 | EST: \$11,000+

LOT 137

5C 1927-S PCGS MS64+ CAC

A beautifully toned GEM example of this tougher date. Iridescent pastel rainbow hues are vividly brought to life by a seductive luster that seemingly glows around well-struck devices.

PCGS 275, NGC 159, CAC 14. Only 5 are graded MS64+ at PCGS vs. 8 at NGC. The only PCGS example was nicely toned but was lacking in striking detail in comparison to this presently offered coin. The CL value is listed at \$4,750 and keep in mind the last NGC coin sold for nearly \$4,000 and a PCGS MS65 would cost close to five figures!

PCGS # 3962 | EST: \$3,500+

LOT 138

5C 1928-S PCGS MS66 CAC

A wonderful example ranking among the absolute finest certified by PCGS for the date. A glowing mint luster shines around the well struck devices on both sides. Light iridescent pastel toning can be seen as you gracefully rotate in a light. Overall this coin really does have a great look, one that would inspire any advanced collector.

PCGS 12, NGC 10, CAC 7. In the January 2017 FUN auction, one sold for \$11,153 which had a few carbon flecks on both the obverse and reverse. We sold the Angel Dee's Collection coin as a PCGS MS66 CAC for \$15,863 in our December 2016 Regency Auction XIX. The current PCGS value is listed at \$17,000. For any advanced Buffalo nickel collector, this coin would be a very fine addition to any Registry set. Here is another coin that will see strong bidding activity.

PCGS # 3965 | EST: \$10,000+

LOT 139

5C 1934-D PCGS MS66 CAC

Soft, pastel multi-hued toning graces both sides of this GEM. Lovely shades of original rose, pink, gold, lilac, teal, and original nickel silver gray blend together over highly lustrous surfaces for a stunning visual allure.

PCGS 84, NGC 23, CAC 25. The last one to sell in auction realized \$2,585 in February 2017, and the current CU value is listed at \$2,750. There are a mere five coins graded finer at PCGS as MS66+, the last of those to sell in auction was the coin in our December 2016 offering of the Angel Dee's Collection Bound for any high end toned Buffalo nickel set!

PCGS # 3973 | EST: \$2,500+

LOT 140

5C 1937-D 3 LEGGED. PCGS AU58 CAC

Only the slightest hint of high point friction can be seen on this attractive 3-legged Buffalo nickel. Hints of tan-rose-gold can be seen on both sides.

PCGS 937, NGC 1298, CAC 142. The last of these to sell in auction brought \$1,293 in April 2017 and in February 2017, one brought \$1,528. Always in demand from collectors, regardless of condition.

PCGS # 3982 | EST: \$1,200+

LOT 141

5C 1913 TYPE 1. PCGS PR67 CAC

Rich original pastel tones grace both sides of this chiseled and ultra high end superb gem. Light gold, rose, peach, and lilac patina. The details are very sharply struck and the matte surfaces are of the utmost high end eye appeal.

PCGS 52, NGC 36, CAC 32. There are only a dozen finer. The most recent PCGS/CAC PR67 example to sell in auction sold for \$5,170 in our Regency Auction XV and the current CU value is listed at \$9,900. Before that, these were selling for \$8,000-\$10,000 in auction. This one should bring a strong price when the hammer falls.

PCGS # 3988 | EST: \$6,000+

LOT 142

5C 1936 SATIN. PCGS PR68

An awe inspiring, essentially perfect GEM Satin Proof nickel. Pleasing pale, pastel iridescent totally original hues are amplified by the brilliant satin finish.

PCGS 42, NGC 31. The last two PCGS PR68 examples without CAC-approval brought \$6,463 and the current PCGS value is listed at \$9,750. It's amazing to think that there are three coins that grade higher. Are you building a major set of Buffalo nickel proofs then you need to bid on this superb coin.

PCGS # 3994 | EST: \$5,500+

LOT 143

5C 1939 REVERSE OF 1938. PCGS PR68 CAC

Ultra cool watery reflective mirrored surfaces display a pale rainbow iridescent tone that floats on the icy smooth surfaces like an oil slick on water. Rings of pink, green, gold, yellow, and lilac color frame brilliant nickel silver centers.

PCGS 11, NGC 12, CAC 5. The most recent CAC-approved coin realized \$9,400 in our December 2016 Regency Auction and the current PCGS Price Guide value is listed at \$7,000. Even non-CAC coins bring strong prices; the most recent example selling in the 2017 FUN auction realizing \$6,463. None are graded finer and this one is bound for the finest Jefferson nickel set.

PCGS # 4176 | EST: \$4,000+

LOT 144

H10C 1857-O PCGS MS67 CAC

An amazing looking SUPERB GEM 57-O half dime. Vibrant satiny luster swirls on exceptionally clean and smooth surfaces.

The obverse has hints of golden-amber toning that helps provide contrast between the fully defined, crisply struck devices and the silky smooth surfaces. The reverse is more dramatically toned, with broad swaths of rich orange-amber tones. The eye appeal is truly exceptional; no wonder the late, great collector Gene Gardner chose this coin for his cabinet.

PCGS 4, NGC 4, CAC 4. This is the only PCGS MS67 sold at auction in this decade, prior to this one selling in the May 2015 Gardner auction for \$6,189, the last one sold in October 2006 for \$8,625. The current PCGS Price Guide value is listed at \$7,500 and keep in mind if you are building a set of Seated half dimes, this is tied for second finest, behind the magnificent MS68. This is a great looking SUPERB gem and destined for a fine cabinet.

PCGS # 4366 | EST: \$6,000+

LOT 145

H10C 1859 PCGS MS67 CAC

Premium quality to the fore; everything about this coin is high end! A bold lustrous surface belies iridescent blue, lilac, gold, and orange hues. At angles the luster boldly frames the razor sharp devices, struck with expert precision.

PCGS 12, NGC 15, CAC 15. The most recent PCGS MS67 CAC to sell in auction was the Eliasberg-Gardner coin that sold in October 2015 for \$3,290. Before that, examples sold for \$3,819. The current PCGS Price Guide value is \$3,500 and this beauty should command serious bidding activity!

PCGS # 4371 | EST: \$3,300+

LOT 146

H10C 1872-S MINTMARK ABOVE BOW PCGS MS67+ CAC

Tied for FINEST graded by either PCGS or NGC. Ultra smooth and clean problem free surfaces display an abundance of brilliant mint bloom and hints of pleasing light patina. A bold and exacting strike shows full definition on both sides of this pristine, exquisitely preserved uber-gem.

PCGS 6, NGC 0, CAC 4. Only two coins are graded MS67+ at PCGS, none at NGC, and there are no auction price records in our database for any MS67+ having sold. Much scarcer than the Mintmark above bow variety. Bound for a stunning set.

PCGS # 4402 | EST: \$7,000+

LOT 147

H10C 1863 PCGS PR65 CAM CAC

Wow, what a neat looking GEM. Bold mirrors beam from below a layer of totally original pastel iridescent toning that dances in the light. The frosty devices are generally well struck and this little coin packs a big punch eye appeal wise!

PCGS 9, NGC 10, CAC 2. NO CAC PR65 CAM has EVER sold in auction and the most recent PCGS example sold in July 2014 for \$1,763 and the current PCGS Price Guide value is listed at \$1,950. This coin could bring a run away price for the grade!

PCGS # 84446 | EST: \$1,500+

LOT 148

10C 1839-D NO DRAPERY. PCGS MS64 CAC

This cataloger strongly believes this SUPER HIGH END piece was not designated a MS65 because PCGS did not like its "stone bold" ORIGINAL looks. Shame on them. The surfaces are pristine. Even using a strong glass turns up no problems or ANY kind-ANY where. The luster is decent. Both sides are evenly covered by a totally ORIGINAL mix of semi-crusty pewter/gray gold colors. Miss Liberty and the details are sharply struck. The stars are almost 3-D and you do NOT need a glass to see them. The eye appeal is very pleasing.

PCGS 5, NGC 9, CAC 5. This jewel brought \$4,583 in our Regency Auction XVI (February 2016) and before that it brought \$6,463 in June 2014. These really do not appear with real frequency and specialists should take note at how tough this date is to find so fine.

PCGS # 4572 | EST: \$4,500+

LOT 149

10C 1861 PCGS MS65

Lustrous and nicely preserved this is a neat GEM. A pearly, satiny sheen dances delightfully on smooth gem surfaces and well-struck devices.

PCGS 34, NGC 20. The last one to sell in auction brought \$1,293 in June 2014 and the current PCGS price is \$1,300. Only nine are finer, making this a great great for the date collector.

PCGS # 4633 | EST: \$1,000+

LOT 150

10C 1867-S PCGS AU58

This lovely near-mint example of this very scarce date. Only 140,000 were struck and most went straight to circulation. Very few are graded AU or finer. Satiny luster with light pastel green, gold, and teal hues which abound around sharply struck devices.

PCGS 4, NGC 2. The last example to sell in auction did not have the eye appeal of the presently offered coin. That coin sold in a May 2012 auction, realizing \$2,585. This coin has not sold in auction for nearly a decade--that is fresh.

PCGS # 4646 | EST: \$2,200+

LOT 151

10C 1878-CC PCGS MS65 CAC

When was the last time a PCGS MS65 78-CC sold in auction?
January 2002! These are RARE in GEM

A bold eye appeal is imparted by a combination of pearly teal-blue-lac toning with a rich underlying lustrous glow. Devices on both sides are crisply struck and the details are exceptional. The surfaces are clean and free of any serious lines or marks. Really a spectacular example for any serious Seated Liberty dime collector.

PCGS 9, NGC 8, CAC 2. As mentioned above, the last PCGS MS65 to sell in auction was over 15 years ago! Only six coins are graded finer, with MS68 being the highest certified grade. The current PCGS Price Guide value of \$4,250 is just speculation since there are no recorded sales. We think this coin could blow past that level. Good luck!

PCGS # 4686 | EST: \$4,000+

LOT 152

10C 1882 PCGS MS67 CAC

A fantastic SUPERB gem mint state survivor-perfect for any high end type set or date collection of Seated dimes. Brilliant silver luster shines in the satiny smooth fields and across crisply struck devices. Hints of clear gold toning frame both sides. The eye appeal is amazing!

PCGS 17, NGC 26, CAC 11. The last one brought \$2,820 in December 2014 and before that, an example sold for \$4,113 in September 2014. Both of those coins did not have the exceptional eye appeal of this amazing coin! The current Collector's Universe value is listed at \$3,250—only one coin is graded finer, a 67+ and it has never been in auction, making this among the best that you will be able to own.

PCGS # 4690 | EST: \$2,700+

LOT 153

10C 1844 PCGS PR65 CAC

Ex Eliasberg Simpson Collections. Let that sink in for a second. This tied for finest known Proof Orphan Annie dime has been a part of two of the most famous cabinets EVER assembled. The quality is very high end too!

Surprisingly deep mirrors beam from all over. They are glass like with amazing clarity and bold reflectivity. Even using a strong glass you will not find any imperfections. A wonderful and totally original blanket of pale olive/champagne/pale lilac colors are spread around both sides. Miss Liberty and the details are fully struck and have thick frost. The eye appeal is superb.

ONLY about a dozen pieces were ever minted. PCGS 2, NGC 0, CAC 3 (we think this coin is 2X). The other coin (which is a mottled toned deeper blue sold for \$44,063.00 October 2014). This coin offered here had been off the market for many years residing in the Simpson collection. No question this piece has it all: quality, rarity, and pedigree. You want to put a coin like this away right now.

PCGS # 4731 | EST: \$45,000+

10C 1893-O PCGS MS67 CAC EX ELIASBERG/SIMPSON

The mirrors on this flashy, fully prooflike coin are deep and clean, with only a few wispy toning dots to be found. Both sides are lightly dusky and have a pale golden brown color. Miss Liberty and the details are thickly frosted and have a full, remarkable strike. The eye appeal is exceptional!

PCGS 3, NGC 1, CAC 3. Legend Numismatics placed this coin in the original Law Collection back in 1998. When we sold the Simpson Collection of MS Barber 10C, this coin brought \$9,988. This coin clearly ranks among the very finest 1893Os that exist. The opportunity for any MS Barber or O Mint collector is off the charts here.

PCGS # 4801 | EST: \$9,000+

LOT 156

10C 1894 PCGS MS68 EX SIMPSON

This is one of the finest MS Barber Dimes in existence! It should be noted, for the Type there are only 3 MS68's (the other 2 coins are locked up in major collections)

The flawless surfaces are covered by deep semi-prooflike mirrors and don't reveal even a single line. A full booming radiance beams from all over, while wild, original neon blue/green/lime/olive colors swirl vividly all over. Mass Liberty and the details are thickly frosted and fully struck. The eye appeal is mesmerizing!

PCGS 1, NGC 0. PCGS has graded only two MS67's. The last time this coin sold in auction was when we sold the #1 Law, Simpson Collection back in 2014. This marvelous SUPERB GEM realized \$20,562.50. Legend Numismatics placed this coin in the Law Collection back in 2000. Good luck.

LOT 157

10C 1905-S PCGS MS67 CAC EX SIMPSON

From our December 2014 Regency Auction, where it was described

"The extreme rarity of these high grade MS Barber Dimes is clear. The prices are way off the mark from where they should be. Quality wise, this coin is all there and then some. Pristine surfaces are highly lustrous. Even using a strong glass, you find NO problems. A pretty mix of original green/pewter/pale purple colors swirls all over. Miss Liberty and the details are frosty and have crisp sharp strikes. The eye appeal is fabulous!

PCGS 3, NGC 1, CAC 3. It's hard to believe that a gorgeous coin like this is only valued at \$6,750.00, especially since no PCGS MS67 has been to auction since 2000, when one brought \$8,225.00."

Since that time, the pops have changed to PCGS 4, NGC 2, CAC 4. This coin sold for \$6,756 in our sale and today, we think it could bring more. There are NONE FINER, so if you are building a high end set this coin is for you!

LOT 158

10C 1906-O PCGS MS67 CAC EX SIMPSON

Among the finest graded. This SUPERB GEM 06-O dime last sold in our October 2015 Regency Auction XIV, where it was described as follows:

Dusky gold and charcoal toning in areas blend with iridescent shades of green, blue and crimson. A formidable strike is noted, along with outstanding surfaces as expected for this lofty grade.

Don't miss out if you are building a high-end set as these New Orleans pieces are downright rare when found at the superb level.

PCGS 9, NGC 7, CAC 10. This coin last sold in October 2015 in our Regency Auction XIV, where it sold for \$4,583—one sold earlier in 2015 for \$7,050. The current PCGS Price Guide value is listed at \$4,750. There are NONE graded finer at PCGS. An ultimate example of this date and from the famed Simpson collection.

LOT 159

10C 1911-S PCGS MS67+ CAC EX SIMPSON

A magnificent SUPERB GEM that was last offered as lot 122 in our December 2014 Regency Auction, where it was described as:

"One microscopic planchet divot is all that holds this coin back from a killer MS68 designation! This coin has flawless, bold satiny surfaces and an exceptional luster that shows off gorgeous, light, original shades of gold/pale green. Miss Liberty and the details are frosty and have crisp strikes. The eye appeal is delightful!"

PCGS 10, NGC 5, CAC 7. This is still the SOLE FINEST graded at PCGS. It realized \$5,523 in December 2014 and today, we think that that level could be surpassed. Barber specialists should rejoice at the opportunity to own this Superb Gem!

PCGS # 4859 | EST: \$5,000+

LOT 160

10C 1914 PCGS MS67 CAC EX SIMPSON

Aside from one tiny tick on the face this coin is the poster child for perfection. Super clean, satiny surfaces are loaded with a strong luster that enhances original pale gold/golden brown/soft creamy white colors. Miss Liberty and the details are sharply struck. The eye appeal is wonderful.

PCGS 6, NGC 1, CAC 3. This coin sold for \$3,995 in our December 2014 Regency Auction. None are finer, and this one has the distinction of being Ex. Bob Simpson's Barber Dime Set.

PCGS # 4865 | EST: \$3,000+

LOT 161

10C 1915 PCGS MS66+ CAC EX SIMPSON

From our historic offering of the Bob Simpson Collection of Mint State Barber Dimes, December 2014, lot 131 where we described it as: It's hard to believe but this stunner is possibly tied for finest graded at PCGS. This high-end near miss MS67 is only held back by some light frost breaks on the face, but as you would expect, the surfaces are remarkably clean and smooth. A full booming luster shows off frosty white surfaces. Miss Liberty and the details are sharply struck and stand out nicely. The eye appeal is fabulous!

The technical quality is still all there, but the populations have changed some. Currently PCGS 32, NGC 17, CAC 17. There are 7 in MS66+ and only three finer (all MS67). This coin realized \$2,115 in our sale of the Simpson Collection. Good luck!

PCGS # 4868 | EST: \$1,600+

LOT 162

10C 1915-S PCGS MS67 CAC EX SIMPSON

From our December 2014 Regency Auction, where it was described as:

"The technical aspect of this coin are full MS68 quality and we're unsure as to sure why PCGS did not designate this coin MS68. The flawless surfaces have a slightly satiny texture and a full booming luster shows off the light, original pearl gray/pale gold colors. This is not a dull or crusty coin. Miss Liberty and the details are frosty and needle sharp. The eye appeal is sensational!"

PCGS 1, NGC 5, CAC 3. Mr. Simpson acquired this coin in January 2006 for \$9,775, and it realized \$11,750 in our auction of the Simpson Collection. What a rare opportunity to be able to bid on the FINEST 1915 S dime graded by PCGS, destined for any great set

25C 1818/5 PCGS AU55 CAC

A lovely GEM AU B-1, the only 1818 overdate variety. Only a hint of light friction disturbs the satiny lustrous surfaces that are dusted with a pearly-golden silver patination

PCGS 8, NGC 5, CAC 2. According to PCGS CoinFacts, there has never been a PCGS-AU55 to ever sell in auction, meaning that the example in the 2009 Pre-FLN auction was "bought back" and does not represent an actual sale. While available in "any grade desired" (Tompkins, 2008), in PCGS-graded AU grades, they are rarely offered in auction. The current Collector's Universe value is listed at \$3,750. A great coin for any bust collector, or someone building an AU set of silver type coins!

PCGS # 5323 | EST: \$3,200+

LOT 165

25C 1825/4/(2) BROWNING 2. PCGS MS65 CAC EX POGUE

This is the famed GEM Eliasberg-Pogue B-2. Described in the first part of the D. Brent Pogue sale as follows:

Bright powder blue peripheral toning is present on both obverse and reverse, the obverse center chiefly brilliant with a blend of deeper silver gray and faint rose, while the reverse is a warmer combination of rose and gold. Both sides are thoroughly lustrous, showing strong cartwheels and soundly struck, with fine details from center to rim. Some light abrasions are noted on Liberty's cheek, and some light milky encrustation is hidden among the reverse legend and denticles at MERICA. An important specimen of this die variety, struck from the perfect state of the dies."

The full pedigree is listed as: Louis E. Eliasberg, Sr. Collection, Bowers and Merena's sale of the Louis E. Eliasberg, Sr. Collection, April 1997, lot 1389; Heritage's sale of September 1997, lot 7016; Dr. Juan XII. Soros Collection, Superior Galleries's sale of the Dr. Juan XII. Soros Collection, February 1999, lot 140; Bowers and Merena's sale of the Flannagan, Hinckley, and Wong Collections, November 2001, lot 6208, purchased privately from Karl and Sarah Hirtzinger at the Midwinter American Numismatic Association Convention in Jacksonville, Florida, by sale, March 9, 2002.

D. Brent Pogue Collection, Stack's Bowers Galleries/Sotheby's, May 2015, lot 1075, which realized \$32,900.

PCGS 2, NGC 4, CAC 2. There are two examples graded MS66 finer at PCGS. This is a very rare opportunity for any advanced collector to have a second chance to purchase a Pogue coin. In the after market, it is a known fact that the vast majority of the coins in the Pogue collection sold to Collectors. It may well be a long time until you have another chance to own a GEM Pogue quarter.

VERY high end and super sexy quality. There is nothing not to like about this GEM!

Incredibly lustrous surfaces have a few trivial ticks and giggles—nothing stands out or affects the grade. In fact, you need a glass to see them. We marvel at the luster so much we can't stop twirling this coin! A light mix of ORIGINAL golden brown/pale sea green/deep champagne colors all beam from both sides. Miss Liberty and the details are frosty and have sharp strikes. The eye appeal is tremendous!

PCGS 10, NGC 11, CAC 8. This is the ONLY PCGS MS65+ graded. PCGS has only graded 2 coins higher. Collector's Universe has a value of \$35,500—which seems cheap as 65's traded at that level, for ever. You definitely don't see these offered with any frequency!

25C 1844 PCGS MS64+ CAC

What a great and ORIGINAL higher end GEM this piece is!

Remarkable smooth and super clean surfaces are a joy to behold. They do have a satiny like texture. A moderate luster enlivens the splashes of pale golden brown/olive/champagne/pewter colors that splash across the obverse. The reverse is a light and even pewter color. Miss Liberty and the details are sharply struck and does stand out. The eye appeal is neat!

PCGS 5, NGC 4, CAC 5. PCGS has graded 2 in MS64+ and only 2 in MS65 with NONE higher. We think this coin is too cheap. Recently we sold the other example for over \$5,000. In MS65, the last one to hit the market was the Gardner coin which brought \$15,275 in June 2014. In today's market, we KNOW this coin offers exceptional value; 173 years old and only 2 in this condition and only 2 finer? Good luck!

25C 1853 ARROWS AND RAYS. PCGS MS66 CAC

A wonderfully original and eye appealing GEM example of this important one year type coin. A razor sharp strike brings all the details of Ms. Liberty's face, hair, drapery, and all of the other intricate devices are fully defined. Boldly accented by the extraordinary underlying mint bloom, olive tan, and gold toning really comes to the forefront of the viewer's attention.

While common in most grades thanks to a generous mintage of over 15 million, in ultra high grade like this, the number of survivors are in the n the single digits. The Arrows and Rays type came about under the terms of the 1853 Coinage Act which reduced the weights of silver coins. This was in response to the wholesale export and melting as the silver content was worth more than face. To make these new standard coins differentiated from earlier issues, arrows were placed next to the date, and a burst of rays above the eagle. Due to striking issues, the rays were removed in 1854.

PCGS 9, NGC 7, CAC 2. This remarkable coin was sold in July 2005 for \$32,200. Purchased by noted Seated coinage collector, Gene Gardner, this coin was more recently resold in the June 2014 sale of the Gardner Collection for \$35,250. This is the only CAC approved example in this grade to ever sell in auction. Only two coins are graded finer at PCGS, both MS67. The most recent example to sell in January 2005 for \$56,350. For type set purposes, or any amazing set of Seated Liberty quarters, this is not a coin to pass up!

25C 1873-S ARROWS. PCGS MS65

Lustrous and pleasingly toned, this GEM is among the finest certified examples of this important condition rarity. Radiating mint brilliance bursts through shades of blue and lilac with hints of gold and rose. The devices are very sharp and fully embossed throughout. The eye appeal is original and superb.

PCGS 3, NGC 3. This is the ex-NGC Gene Gardner duplicate. The only other PCGS graded coin to have sold in auction was the Stellar-Gardner PCGS/CAC MS65 which sold for \$18,800. This coin has great look and provenance, and should bring a similar price in today's market.

A good looking example of this Civil War era issue. Watery reflective mirrors shows a light dusty tan/gold patina on the obverse and rich toning accents on the reverse rim. The devices are frosty and well struck. We do note some obverse hairlines, which account for the grade.

PCGS 22, NGC 12. The most recent PCGS graded example to sell in auction realized \$1,998 back in November 2013. These just do not appear in auction with real frequency. The current PCGS value is listed at \$2,500.

Especially high end in both technical and aesthetic qualities. Flawless watery mirrors beckon through rings of aqua blue with apricot-rose toning in the centers. Even under strong magnification the surfaces prove flawless.

PCGS 4, NGC 3. The last one to sell brought a weak \$9,400 in January 2017 (NOT this coin). The last one before that sold in November 2005, bringing \$18,400. The finest graded is the Newman-Gardner NGC PR68+ that most recently brought \$21,150 in May 2015. With this coin's awe-inspiring look, we think it should easily bring within our estimate range. The CL value is \$18,500. Good luck!

25C 1885 PCGS PR67+ CAC

Tied for finest non-CAM example of this date--and among the finest numerically graded 1885 proof quarters. Richly watery mirrors are bold, and are especially shimmering on the obverse. Frosty, silver-white tone fades to deeper lilac-olive iridescent hues, offer subtle contrast between the different shades. Well struck and expertly preserved, lovingly cared for and unmolested since its purchase from the mint in 1885.

Only 930 proofs were struck. PCGS 4, NGC 12, CAC 3. There are a pair reported at the PR67+ level, this being one, and NONE are finer in the designation. Neither has sold in auction. The most recent PCGS PR67 to sell in auction was the Blue Moon coin, which was not CAC, which sold for a cheap \$3,290. Before that, the last PCGS-graded coin to sell in auction was back in August 2004! The only CAC approved PR67 was the NGC certified Gene Gardner coin, that brought \$4,700 in October 2015 and later offered as a PCGS PR67 CAM CAC sold for \$5,405 in a March 2016 auction sale. The present PCGS Price Guide Value is listed at \$8,950. Among the very finest, and should entice any advanced PR quarter collector!

25C 1911-S PCGS MS66+ CAC

While not one of the keys, the 11-S had a mintage of below one million and is rarely seen in such a lofty state of preservation. Wonderfully silkenuster glows from below a soft powder blue hue. The devices are exceptionally well struck and the surfaces throughout are sleek and clean.

PCGS 47, NGC 58, CAC 17. Keep in mind only six coins are graded MS66+ at PCGS, with a mere nine coins reported finer in the Population Report. The ONLY example to sell in auction realized \$3,738 back in July 2011. More recently a PCGS/CAC MS66 sold in our February 2016 Regency Auction for \$1,880 and a PCGS/CAC MS67 sold in our December 2016 Regency Auction for \$5,875. Clearly this coin should bring somewhere in the middle. The eye appeal is superb and this coin should fit into any superb Barber quarter set.

This is the exact type of coin our sister company Legend Numismatics HIGHLY recommends these days. These have been more than spanked by the market. Plus, this coin is a beautiful PR66 Cameo. Deep glittering mirrors beam from all over. They have bold clarity and are highly reflective. Only with a really strong glass can you find a minor contact tick or two (NOTHING detracts or lessens the grade). A pale blue of gold can be detected. Miss Liberty and the details are thickly frosted and have full strikes. The eye appeal is fabulous!

ONLY 972 were minted. PCGS 18, NGC 12, CAC 11. The last PCGS CAC piece to sell in auction brought \$2,241 in July 2016. The current Collector's Universe value is \$2,750. This date does not appear with any great frequency. Use this piece to start a set!

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you.

You need a pair of sunglasses to view this GLOWING boldly contrasted seductive SUPERB GEM

First the overall state of preservation is amazing. Completely clean and free of any hairlines or other distractions even under a strong glass, you do not see anything but a microscopic mint made die line. This coin's mirrors are deep and have a rich chrome like reflection. They are clean, smooth, and extremely icy. The devices have a razor sharp strike and snowy white frosty surfaces. A touch of clear gold patina at the extreme peripheries add depth and character to this visually stunning coin.

Only 762 proofs were struck and this date is often considered the APEX of the proof minting process. Looking at the high end survivors of all denominations in silver and gold, you can tell extra care was taken in preparing and striking proof coins for Collector's.

PCGS 7, NGC 9, CAC 5. Remarkably there is a single PCGS PR69 DCAM finer. The most recent PCGS PR68 DCAM CAC sold in \$17,625. The current PCGS Price Guide value is listed at \$18,500. The single PCGS PR69 DCAM, now put away in a major collection, sold for \$41,125 in our Regency Auction XIX in December 2016. 25C 1897 PCGS PR67+DCAM CAC

We are very pleased this FINEST graded PCGS PR67+ DCAM has been consigned to our auction. If there ever was a DCAM quarter that was Legend quality, this coin is it! Ultra deep (as ultra deep as you will ever see) mirrors nearly blind you from all over; they have ZERO imperfections of any size anywhere; they are so crystal clear that Lake Tahoe is jealous and the reflection is so binding you need a good set of Ray Bans to view this coin! Both sides are an icy black and white. If you twirl the coin you will be even more blown away. A smidgen of light blue appears at 100-300 on the right obverse rim area. Miss Liberty and every detail are needle sharp in strike. Mother Nature really planted a big kiss of thick iridescent white frost on all the details. The eye appeal just could not be any better—this coin was sent from heaven!

ONLY 731 were minted. PCGS 7, NGC 3, CAC 4. Of course, this piece has never been put up for sale before this Regency Auction and there is no current Collector's Universe Value. Our best estimate is based upon what we would pay if we saw it in an auction. If you are building an Ultra Cameo set or just LOVE sensational Ultra Cameo's—then this coin is for you! We doubt you will ever see a better 1897 DCAM. We expect this coin to end up with a record price, so be ready!

NOT A COMMON COIN! Brilliant and seductive mirrors shine from below a thick layer of totally original rich multicolored toning. A REAL gem!

Only 545 proofs were originally struck. PCGS 33, NGC 33. We are not sure why this coin did not CAC. It is totally original and very attractive. The last PCGS PR65 to sell was CAC approved, which sold back in March 2011 for \$2,585. Since then the market for proof Barber coinage has been battered, but we still think that a gem like this will sell for a strong price. The CU value is listed at \$1,500.

LOT 180

25C 1918/7-S PCGS MS64

The key to the series in any grade, surpassing the low mintage 1916 in terms of overall rarity, especially in mint state grades. VERY RARE in MS64 and excessively so in any finer.

Well struck devices show fully formed details in the folds of Ms. Liberty's drapery and in the shield including all but two brads. The head details are relatively sharp, showing slightly more than two of the leaves adorning Liberty's hair, but the ear and hairline is not complete. Lustrous and quite appealing with hints of clear gold. A tick or two on the reverse do not detract.

PCGS 25, NGC 13. The last one to sell realized \$43,475 in April 2015. That one had slightly stronger details in the head, but the rest of the obverse on this one has fuller, crisper details. The current PCGS value is listed at \$39,500. We think this coin does have a shot at a very strong price. Bound for a fine set of Standing Liberty quarters. Keep in mind that a 65 will cost more than double.

25C 1924-S PCGS MS67 CAC

A blazing superb 24-S quarter that is just a hint of weakness from a FH designation. Tied for FINEST graded at PCGS, with none numerically higher, and only one MS67 FH graded.

Overall the strike is very bold, with essentially full detail throughout the design, save for two brads on Liberty's shield and just a touch flat on Liberty's ear. The luster is brilliant overall with a touch of very clear gold coloration.

PCGS 8, NGC 2, CAC 5. The last one to sell in auction realized \$8,225 and another sold in the 2016 ANA auction realized just shy of \$10,000. The sole PCGS MS67 FH has not sold in auction since August 2004, and PCGS estimates that the current value would be \$50,000. This coin has a great look and should be a fine addition to any wonderful set of Standing Liberty Quarters.

Good luck.

This colorfully toned superb GEM is among the finest graded at either service. Dramatic and colorfully toned, likely imparted by mint set packaging, both sides show layers of crimson, rose, gold, and olive tones throughout. The surfaces beneath the toning are clean and lustrous which show off the wonderful color.

PCGS 3, NGC 33, CAC 4. There is a single NGC MS67+ on the population reports as the finest certified. There is a very wide range of APRs for NGC-graded pieces, the only CAC-approved example sold in the 2015 FUN auction for \$14,100, that one had the "**" designation for eye appeal. That one too had lovely color, although in a totally different kind of pattern. The current PCGS Price Guide value is listed at \$20,000, but no PCGS-graded coin has ever sold at auction. A very pretty O-101a, the more available marriage of this the RAREST silver type coin in all of American numismatics. This distinctive coin, will be the centerpiece of any advanced collection of U.S. coins. Only 2,984 half dollars were struck of the date, a total of fewer than 4,000 coins for the entire series total.

Rich and pleasing toning with accents of slate-blue and olive-russet toning.

Well struck and generally smooth quality planchet that must have been overweight at time of production as there are some deep adjustment marks in the central obverse. Struck from a later state of the dies, the reverse has a number of spidery die cracks.

As the rarest silver type, any Draped Bust, Small Eagle half dollar is a prized numismatic trophy in any and all grades, from damaged AG coins to the tiny number of mint state issues. In all grades there are about 200 survivors estimated to exist. A GEM XF like this is enticing for any collector, and presents a very important opportunity to add an important coin to any cabinet.

PCGS 5, NGC 3, CAC 2. The most recent PCGS, CAC coin to sell in auction realized \$138,000 in the January 2011 FUN auction. The current Collector's Universe price is \$135,000 and since there has not been an opportunity to buy one in this grade at auction in quite some time, it would not be unrealistic if this coin surpassed that level. 50C 1803 LARGE 3. O-101. PCGS MS63 CAC EX POGUE

Among the finest Large 3 1803 half dollars extant, a coin that is extremely rare in mint state

A bold luster shines at the peripheral details. Both sides display a blend of blues and orange-golden hues that are brought out nicely when the lustrous surfaces are viewed in a light. The eye appeal is superb, the overall quality is exceptionally high end. A few mint made clash marks and die cracks are noted, all artifacts of the manufacturing process. The design types are boldly struck with only light weakness in some of the obverse star centers.

PCGS 2, NGC 1, CAC 2. Concluding the description in the Pogue sale, the cataloger noted the following information: "There are not many of these in high grade. The finest is a single MS-64 (PCGS), apparently the piece sold as an NGC MS-64 in the July 2004 Heritage sale, no MS-64 now appears on the NGC Census. This example is tied right behind that one with the Eliasberg coin, which last sold in 2006 for \$115,000, and another that has not been traced. As noted by Ron Guth at PCGS CoinFacts, The 1803 Large 3 Half Dollar is extremely rare in Mint State, with only five examples certified thus far by PCGS (as of February 2012), a number that increased by one with the submission of this piece. When Russell Logan surveyed 25 major Draped Bust half collections in the mid 1990s, he found 67 1803 half dollars, but not one of them was graded Mint State." The Pogues acquired this fantastic CHOICE 1803 half from the Hain Family Collection sold in Stack's 2002 Americana Sale, lot 1220. In May 2015, this coin realized \$76,375. Since then, the other PCGS/CAC MS63, the above mentioned Eliasberg coin, sold for just shy of \$100,000 in July 2015. This is an important opportunity for anyone who missed the Pogue sale to be able to buy one after the fact: most of the coins went right into major collections, and will likely not be appearing on the market any time soon.

50C 1811 SMALL 8. PCGS MS65 CAC

A beautiful HIGH Condition Census Q-106. Brilliant mint luster swirls over clean and smooth surfaces when rotated in a light. The luster provides a back light to the wonderful deep blue, teal, violet, and gold iridescent toning. A strong glass reveals a tiny tick or two, but none distract. The strike is exceptionally bold with full definition of Ms. Liberty's hair, drapery and cap. Even the dentils which are characteristically weak on this variety are rather bold. Likewise the reverse is razor sharp in strike and free of any distracting marks.

PCGS 4, NGC 4, CAC 5. Remarkably, no PCGS MS65 has ever sold in auction. An NGC/CAC coin sold in August 2016 for \$18,212. A PCGS MS64+ CAC sold in February 2017 for \$14,100 and a PCGS MS66 CAC sold in May 2013 for \$49,938. We think this GEM should sell somewhere between those two levels as the PCGS Price Guide value is listed at \$27,500. 50C 1865 NGC MS67 CAC

The finest graded example at NGC, and tied for finest with a single PCGS coin. The boldly satiny and lustrous surfaces are flawless. Bathed in an attractive medium silver-gold, olive and iridescent lilac hues throughout. Every detail is sharply struck and razor sharp in definition. The eye appeal is unparalleled!

PCGS 1, NGC 1, CAC 1. This coin is ex Gene Gardner coin which realized \$32,900 in May 2015. This coin's exceptional eye appeal and quality will find itself at home in any great collection of Civil War era coins or Seated halves.

50C 1863 PCGS PR66

Among the highest graded 1863 Proof half dollars! Bold shimmering watery mirrors shine through a layer of golden amber, violet, and olive hues. In a light, the colors "float" on the mirrors the way oil floats in a puddle. Even with the aid of a strong glass, only the most minute, microscopic lines can be seen. The strike is boldly defined with crisply impressed details fully rendered and razor sharp.

Only 460 proofs were struck during this turning point year in the Civil War. PCGS 3, NGC 3. The last one to sell realized \$7,638 in October 2015 and the PCGS Price Guide value is \$8,750. None are graded numerically finer, although PCGS has graded 2 in PR66 CAM. A similarly toned example brought \$11,750 in November 2012 and darkly toned NGC PR67 sold for \$14,100 in January 2013, and we think that might be more in line value wise for this SUPERB coin.

Ex. Co. one E.H.R. Green-Eric P. Newman Collections

A marvelous near-GEM with bold contrast and brilliant mirrors. The central surfaces are untuned silver, while rings of dusky-cobalt and amber form a tight halo about the rims. The eye appeal is splendid, and both sides do display a classic look that specialists are keen on!

PCGS 12, NGC 4, CAC 5. This coin could be listed twice on the CAC population report, both as the original NGC and now PCGS. When first offered in November, 2013, this coin realized \$5,581. More recently it sold for \$3,995 in a soft period in the market. It should sell for more today.

50C 1867 PCGS PR66 CAM CAC EX. COL. GREEN/NEWMAN

WOW, is this a killer coin. You know it has been off the market and carefully stored by one of the greatest Collectors ever-Newman. Sure, there are neat looking GEM PR Seated Halves around, but few are like this. Electric deep mirrors blaze from all over. The clarity, cleanliness, and are reflection are all beyond powerful. If you twirl the coins, you need Ray Bans to shield you from the mirrors' blast. A stunning ring of totally original blue/lime/gold/violet frames the rims on both sides. Miss Liberty and every detail are sharply struck and just ooze with thick white frost. The eye appeal is so stunning, your jaw will drop and lock!

ONLY 625 were minted. This coin brought \$12,925 in November 2014 in the Newman Sale. It's also the only PCGS piece ever to sell in auction. We think with quality and looks like it has, it's worth much more. There certainly are NOT many halves that exist that are similar. The pedigree is a plus too!

LOT 200

50C 1876 PCGS PR65 CAM CAC

Bold and deep mirrors blaze from all over. The mirrors are exceedingly clear, clean and have lots of reflection. The silver centers are surrounded by vivid toning rings on both sides of totally original blue/pale purple, giving this cameo GEM a very classic look. Only a slight hint of striking softness on Liberty which is common on these proofs, as the polishing process sometimes flattened some of the details in the dies. The eye appeal is awesome.

PCGS 7, NGC 12, CAC 1. No PCGS-certified PR65 CAM has sold since August 2006, think about that, a DECADE ago before the creation of CAC. This makes figuring this GEM interesting, a PR64+ with no CAC sold for \$4,700 in October 2012 and a CAC-approved PR66 sold for \$7,931 in April 2015, intuitively this beauty should sell for somewhere between those levels, although the PCGS price is listed at \$4,450, but our consignor paid a substantially higher amount to acquire this GEM. This coin should sell for a very strong price based on its eye appeal.

50C 1878 PCGS PR66 CAM CAC EX STOKELY COLLECTION

A coin that was once a part of the Stokely Collection, which at the time of its sale (August 2006) was the #1 PCGS Registry Set of Proof Seated Half Dollars--today it is ranked as the #4 ALL TIME finest set. A halo of soft gold frames the rims adding further depth to the ultra deep mirrors. The mirrors are clean, problem free, and totally smooth like a freshly formed sheet of ice. The fully struck devices are totally frosty and contrast brilliantly against the smooth fields that surround them. The eye appeal reaches out of the encapsulation and grabs your gaze from across the room.

From an original mintage of only 800 pieces: PCGS 5, NGC 10, CAC 3. This coin realized \$5,750 in the August 2006 auction where it last appeared. Since then, only a single, non-CAC coin from the Gene Gardner Collection sold in auction, realizing \$4,935 in October 2015. With its CAC-approval, we think this one should bring more-- the current CU value is listed at \$7,750.

50C 1887 PCGS PR65 DCAM CAC

A very cool coin! While this date is seen with cameo contrast on a somewhat regular basis, 1887 halves with DCAM contrast are extremely rare. Frosted devices, showing essentially full strikes that contrast against icy smooth, crystalline, deep and beaming proof mirrors! The contrast is dramatic and clear. The rims on both sides display a very subtle touch of pale gold, which forms a lovely halo effect.

PCGS 1, NGC 2, CAC 1. Only two coins are graded finer at PCGS; both are graded PR66+ DCAM. No CAC approved PR65 DCAM, graded by PCGS or NGC has ever sold in auction. A PCGS PR64 DCAM CAC sold for \$6,463 in January 2015 and a PR66+ DCAM PCGS/CAC sold for \$21,150 in March 2013, thus we feel the current PCGS Price Guide value of \$6,000 is way too low. We will find out when this GEM crosses the block.

The present GEM boasts a vibrant satin mint bloom that shines around chiseled, sharp devices. Hints of golden-peach iridescent toning add dimension and eye appeal.

PCGS 2, NGC 3, CAC 3. It is indeed hard to believe that there are six coins graded finer at PCGS, since at the time of mintage, the collecting of coins by mintmark was in its infancy, so any of these superb coins exist by pure happenstance and luck than carefully preserved by some collector. This coin last sold for \$11,500 in July 2009, after realizing \$13,800 in April 2009. A superb coin, destined for another amazing collection of Barber halves.

No question this piece is a genuine HIGH END SUPERB GEM. It has NEVER been messed with and certainly is NOT over graded.

Sensational satiny surfaces are as clean and smooth as you will ever see. A strong luster shows off beautiful light golden brown toning that is scattered around. Some faint die lines (MINT MADE) are visible ONLY under a glass. Miss Liberty and the details are frosty and have crisp sharp strikes. The eye appeal is wonderful!

PCGS 4, NGC 1, CAC 2. PCGS has graded ONLY this coin MS66+. There are only 3 higher, including the MONSTER MS68 Legend placed in major collection last year. Of course this coin has never been sold in auction (it has been with a collector for many years). Good luck finding another high grade one today! The current Collector's Universe Value is \$12,500. An exceptionally high end and beautifully toned SUPERB GEM Barber half. Ultra deep mirrors are clean and supremely watery in texture. A copious amount of strong reflectivity shine from under uber sexy toning. The eye appeal is amazing. Blended shades of blue, gold, teal, copper-red, sunset orange, peach, rose, and original silver dance together in the light. The smooth, frosty reliefs are sharply defined and contrast boldly against the liquid like mirrors. While there are perhaps a few coins graded finer, it is highly doubtful there are many with THIS coin's sublime eye appeal.

PCGS 9, NGC 17, CAC 8. PCGS has graded just 4 coins in PR67+ CAM and there are a mere 2 coins in PR68 CAM finer. This sensational coin brought \$18,213 as a PR67 CAM in February 2017, today as a PR67+ CAM it should bring more! What a superb coin! Destined for only the finest cabinet of proof Barber halves.

50C 1921 PCGS MS65 CAC

A very High End and totally original TRJE GEM example of this important KEY date Walker. Always in demand from serious Collector's in all grades, high end gems like this are very rare indeed. Housed in an old green tag holder, this satiny lustrous coin has a pale pearly-golden hue throughout the satiny and smooth fields. Only 246,000 halves were struck, making it one of the key issues regardless of grade, seldom seen in GEM. Close inspection with a powerful glass does show a scattered tick or two, but nothing distracting.

PCGS 52, NGC 33, CAC 12. The presently offered GEM is ultra high end, as evidenced by the \$37,600 it realized in January 2017 (and that was without a CAC sticker) about double what the normal PCGS MS65 brings. The last PCGS/CAC coin sold in 2015 for about \$20,000 and in the 2013 ANA auction one sold for \$25,850, clearly PCGS/CAC pieces appear even less frequently! Only nine coins are finer, 5 in MS65+ and 4 in MS66 as finest. If you are building a world class Walker set, you owe it to yourself to bid liberally on this amazing gem.

Even if you are the pickiest Walker collector, this is a coin that WILL make you smile and want to add to your collection. Our sister company Legend Numismatics has submitted this coin 3X seeking a + for the collector who owns it. None of us have any idea what PCGS wants anymore. All of this coin's technical qualities are true to the grade and then some. The surfaces are super clean and smooth. Even the dreaded and typically hacked up right field is limited to a few thin lines you can only see with a glass. Both sides offer a full booming luster. There is no toning and the coin is frosty white. Miss Liberty and the details are very well struck. The eye appeal is phenomenal!

PCGS 43, NGC 23, CAC 21. The last PCGS CAC piece to sell in auction brought \$5,405 in December 2016. In our opinion, this coin is far superior to that and 95% of all other MS67's we have seen! Among the FINEST graded, and certainly one of the most visually appealing HIGH END examples of this date! The technical qualities are all there and then some!

First the devices are sharply struck, showing nearly some definition of Liberty's hand and nearly fully definition in the lines of the flag. The fields and devices are exceptionally clean, even using a strong glass you cannot find a single distracting mark, not even a stray line anywhere. Separating this from most other 42-S halves is the bold coppery-amber gold toning that graces about 50% of the obverse and along the right reverse rim. The eye appeal is SUPERB!

PCGS 7, NGC 11, CAC 2. There are two coins graded MS67+ at PCGS that count as finer (neither has ever sold in auction). The most recent MS67 to sell brought \$30,550 in September 2015 (a blast white PCGS/CAC coin). To the best of our knowledge, this coin never sold in auction. The surfaces stand up to intense scrutiny with a powerful glass, and we can find ZERO flaws. The eye appeal, as to be expected at this lofty grade, is exceptional!

PCGS 1, NGC 10. NONE ARE FINER in the CAM designation. Only a single NGC coin has sold in auction at the time of this coin's cataloging, realizing \$8,519 in June 2015 and there is no PCGS Price Guide value yet. Another prize in the JK's Mirror Collection and destined for one of the finest sets of Proof Franklins ever!

50C 1962 NGC PR69 ULTRA CAMEO

From JK's Mirror Collection. The ultimate grade for any Franklin half dollar. Precious few examples grade so fine! Deep mirrors are binding in the light and contrast against the highly frosted reliefs. The eye appeal is superb.

PCGS 18, NGC 35. The most recent NGC coin to sell in auction brought \$3,819 in a November 2014 auction. More recently a PCGS coin sold for \$8,225 in the 2017 FUN auction. We think this coin will see strong bidding from specialists! Good luck!

PCGS # 96703 | EST: \$3,500+

LOT 233

50C 1965 SMS. PCGS MS67 DCAM

From JK's Mirrors Collection. In 1965, the U.S. mint ceased production of mint sets and proof sets for Collector's, and instead issued Special Mint Sets, which had a finish finer than that of a regular circulation strike but shy of the brilliant finish of the proofs. While not rare overall, any 1965 example certified as DCAM is extremely scarce, with approximately 1 out of 90 receiving the designation at PCGS (per Ron Guth on PCGS CoinFacts). The presently offered SUPERB GEM is essentially FLAWLESS. The razor sharp devices are frosted and display

significant contrast against the deeply mirrored, quicksilver looking fields.

PCGS 13, NGC 35. NONE ARE GRADED FINER at PCGS and the most recent example to sell in auction realized \$5,405 in February 2017. One sold in the 2009 FUN Auction for \$9,200, and the record is \$12,650 in 2008. If you are building the finest sets of JFK half dollars, the 1965 SMS does not come any finer in DCAM! Good luck.

LOT 234

50C 1967 SMS. PCGS MS68 DCAM

A SUPERLATIVE coin! Ultra deep mirrors shine against the frosted devices. The SMS coins were a sort of hybrid between business strikes and proofs in an era when the mint was not producing proofs. This one, at first glance does look like a full proof!

PCGS 17, NGC 20. The most recent example brought \$4,700 in the 2017 FUN auction (it may represent a buy back, as these were bringing close to or more than double that level in 2016), and the CU value is listed at \$8,500. There are NONE graded finer in the DCAM designation. Good luck!

PCGS # 96847 | EST: \$5,000+

LOT 235

\$1 1795 SILVER PLUG. PCGS AU50

Silver plug dollars are a very interesting artifact of the early U.S. mint. In the earliest days, it was of the utmost importance to ensure the the weight and composition of precious metal coins met the letter of the law. Many early coins show file marks, known as adjustment marks appear on coins that were overweight, the planchets filed lightly to take the weight down to proper levels before striking. For underweight planchets, a small hole was drilled (generally in the center) and a heavier plug of silver was inserted before striking. It was easier to do this than to melt and re-roll the blanks. Of all the varieties of 1795 flowing hair dollars, the B-7, BB-18 is seen more frequently with a Silver Plug than any other die marriage.

The presently offered coin clearly shows a large plug right in the center of the planchet. Pleasing olive-russet, tan patina bathes both sides of this highly attractive AU coin. A couple of scattered light marks are accounted for but do not detract. The strike is very bold and pleasing. There is a small planchet flaw at the lower reverse, mint made.

PCGS 4, NGC 4. These do not come up for auction that often. There was one that sold in the 2014 FUN auction for \$41,125 and before in the 2009 CSNS one sold for \$54,625. The current PCGS Price Guide value is \$55,000. This is a very scarce issue and should bring more today. There are very few that are graded finer and these are highly prized by early dollar specialists. Good luck.

PCGS # 6854 | EST: \$40,000+

LOT 236

\$1 1797 9 X 7 STARS, LARGE LETTERS PCGS AU58 CAC

A highly lustrous, borderline mint state 1797 Small Eagle dollar. A bolduster shines on both sides, accenting the sharply struck devices. Essentially fully brilliant silver, there are whispers of faint gold hues. The only "blemish" is mint made--a patch of planchet adjustment marks at the center of the obverse.

The 1797 dollar has a low reported mintage, 7,776 dollars were reported struck for the year, and may have included some that were dated 1796. There are three major Red Book varieties for the date, each represented by a single die marriage, the 9X7 Stars obverse paired with the Large Letters reverse is the B-1, BB-73 variety, and this AU58 is clearly in the Condition Census.

PCGS 7, NGC 4, CAC 2. This coin most recently sold in auction for a robust \$47,000 in November 2013. The only other

CAC-AU58 has a spotch of toning at the center, obverse, this brilliantly silver coin has an overall better eye appeal. An exceptional coin worthy of any high end type set or Red Book variety set of early dollars.

PCGS # 5863 | EST: \$36,000+

LOT 237

\$1 1798 SMALL EAGLE, 15 STARS. PCGS AU58+ CAC

This is the real deal as far as being a near miss Mint State Bust dollar. Plus, this is a totally original unmessed with piece. That makes its true rarity off the charts!

Superior surfaces are exceedingly clean and smooth. A few old light lines are visible only when using a strong glass. Some light luster is visible. Both sides have totally original deep silver/with splashes of pale purple/light brown color. There is light toning on the high points. Miss Liberty and the details are extremely well struck. All wear is light and is even. This is NOT a dull or drab coin. For the date (which simply does NOT ever come in), the eye appeal is very pleasing.

PCGS 2, NGC 0, CAC 3. This is the ONLY AU58+ graded.

At most, PCGS has graded 3 coins finer (that is a powerful statement for how this date does NOT come). An NGC AU 58 sold for \$129,250 in November 2013. The piece offered here is one of the highest quality Small Eagle, 15 Stars dollar that exists, only the Stickney-Ostheimer-Miller and Eliasberg-Flannagan-Cardina Collection coins (both graded MS62+ by PCGS and CAC are finer (even the Pogue Collection lacked an example!)). Currently Bust Dollars seem to be lagging the market. You could not ask for a better time to buy a really rare coin like this! We do expect strong bidding here as these never appear in auction, let alone appear CAC'd!

PCGS # 6868 | EST: \$87,500+

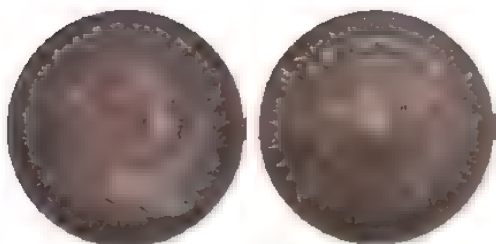

LOT 238

\$1 1798 LARGE EAGLE. PCGS VF35 CAC

B-25, BB-123 This coin is the ex Warren Miller coin, which was graded PCGS XF45. In our opinion, the grade currently assigned by PCGS is somewhat conservative. Richly toned in shades of slate, olive, and tan are brought to life by a surprising amount of surviving mint luster that clings to the decently struck details.

PCGS 269, NGC 93, CAC 21 This coin with its exceptional eye appeal should see spirited bidding from specialist Collector's. Only a single PCGS/CAC coin to sell in auction was sold in the 2016 FUN auction, realizing \$3,525. The presently offered coin has much more detail and boasts a very important pedigree.

PCGS # 6873 | EST: \$3,000+

LOT 239

\$1 1798 LARGE EAGLE. PCGS XF45 CAC

B-8, BB-125 A very popular grade for an early dollar and this one is generally very pleasing with medium pewter, tan, russet hues. Displaying strong detail in Liberty's hair curls, facial details, and throughout the eagle. Close inspection does reveal some tiny ticks from its time in early American commerce. The variety is identified by a die crack that passes through the L in LIBERTY and crack through the C in AMERICA. Numerous other die cracks extend around the reverse. A very attractive collector grade coin that will certainly find a nice home in any early federal type set.

PCGS 174, NGC 151, CAC 29 The last PCGS/CAC coin to sell was a later die state of the B-8, which realized \$5,463 in August 2011. The present coin, with its earlier state, has a better definition and overall better look than that coin. The current CL value is \$4,850.

PCGS # 6873 | EST: \$4,500+

LOT 240

\$1 1798 WIDE DATE. B-23, BB-105. PCGS AU55 CAC

A richly toned, totally original CHOICE AU early dollar. Ms. Liberty's hair and drapery, sharp stars, and the eagle details are strongly embossed. Mostly medium silver-gray patina with tan, russet, gold, and lilac accents. The planchet does have a tiny mint-made flaw at the rim at 7:00 on the obverse and corresponding spot on the reverse. For a dollar of this vintage, the eye appeal is clearly superior to what is normally seen for the grade.

PCGS 23, NGC 33, CAC 2 The other PCGS/CAC coin to sell in auction was the Hamilton Collection coin, sold in August 2016 for \$14,100. With its great look, historic nature, and superior quality, this AU55 should bring a strong realization.

PCGS # 40018 | EST: \$11,000+

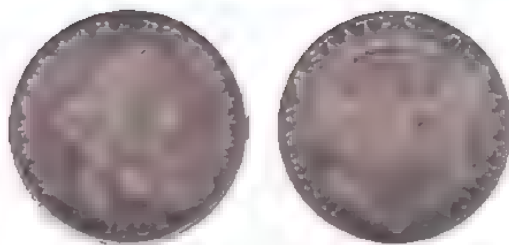

LOT 241

\$1 1798 LARGE EAGLE. PCGS AU58+ CAC EX FRIEND

A notable example of the "banded stars reverse" variety, BB-123, B-25 (late die state listed as B-25b). Very well struck from a shattered obverse die. A plethora of die cracks envelope the obverse with one that forms a complete circle around all the stars, LIBERTY, and through 1798. Secondary cracks form from the dentils between star 7 and L, one that comes from the dentils up through the 1 in the date. A strong glow from the original luster brings sparkle and life to the rich, antique patina. Nicely struck with bold definition, even in the central devices. Only the slightest evidence of friction on the highest points of the design keeps this GEM AU from a Mint State designation. Dave Bowers' condition census goes from MS60 to XF45, so this one is certainly among the finest for the variety—indeed, this one is listed as the "Good Harbour Collection" coin, CC#2.

PCGS 24, NGC 43, CAC 5. Only two coins are graded as AU58+ at PCGS for the entire 1798 Large Eagle type. There are numerous MS coins graded, but very few are CAC quality, and as the ultimate "Everyman" grade, this amazing Bust dollar is going to find itself in a superb type set. Only one CAC-approved AU58, an NGC coin, has ever sold in auction. We can see this GEM AU bringing a run away price! Good luck!

\$1 1802 PCGS XF40 CAC

B-9, BB-235: A lovely and originally toned XF coin. Clearly a coin that sat for years in an old kraft envelope. Quality surfaces show only problem-free wear. The details are very well struck and the eye appeal is strong for a coin of this grade.

PCGS 77, NGC 35, CAC 5: Finer than the other CAC approved coin that sold in auction, which realized \$4,700 in October 2016. A great looking example for any collector.

PCGS # 40087 | EST: \$4,200+

LOT 243

\$1 1844 PCGS MS63 CAC

One look and you will see this coin is super high end. As you know, we know our MS Seated Dollars. Having built the all-time #1 Hall of Fame set for our partner, we know everything there is to know about MS Seated (especially what does and does not exist). We are not sure what PCGS sees to call this coin only an MS63. Plus, this is a very fresh coin to the market.

Surprisingly immaculate surfaces reveal no flaws. Even if you use a strong glass the worst you will find are a few light and scattered pinpoint ticks. The luster is really strong and you can even see slight semi-proof-like mirrors spread around. Both sides are splashed in wonderful and totally original colors of moderate pearl green/blue/gold/rose/pale pewter/champagne. Miss Liberty and the details are gently frosted and have above-average strikes. There is no wear or discolorations on the high points. The eye appeal is exceptional!

PCGS 11, NGC 2, CAC 4: The only PCGS MS63 CAC piece to ever sell in auction brought \$12,925 in August 2012. The current Collector's Universe Value is \$13,000, which we think is a bit too low. Keep in mind, PCGS has only graded 3 coins finer after 30+ years of operations. We cannot stress enough how rare it is not only to find an 1844, but to find one this HIGH-END and so good looking!

PCGS # 6930 | EST: \$10,000+

LOT 244

\$1 1850 PCGS MS63 CAC

A beautifully preserved, fully CHO CE 1850 dollar. This is a significant rarity in the series, only 7,500 were struck, and as gold continued to flow from the river beds and mines in and around San Francisco, the ratio of gold to silver in commerce shifted, making silver expensive in relation to gold. As such, many silver dollars were exported and melted as bullion, as their intrinsic value exceeded their face value. The presently offered coin has a stunning, fully prooflike flash under a dusting of golden-copper, amber, and apricot rose shades. Ms. Liberty and all the other design elements are fully struck in crisp relief. While we do note some lines and ticks that limit the grade to the current MS63 level, the eye appeal is far superior to anything we have seen in this grade! Truly a special coin for any type or dollar collector.

PCGS 9, NGC 9, CAC 6. In a March 2016 auction, another PCGS/CAC coin, displaying a particularly deep mottled toning pattern realized \$19,975. The current PCGS value is listed at \$16,500 and we think this coin will exceed that level. Good luck.

PCGS # 6937 | EST: \$16,000+

LOT 245

\$1 1869 PCGS MS60 CAC

A real mint state example. Ample mint luster can be found in the fields around the decently struck devices. Original olive-gold lilac toning is found throughout the surfaces. Some light scuffs and scratches can be seen but are perfectly acceptable for the assigned grade.

PCGS 3, NGC 2, CAC 1. This coin is also one of the NGC graded coins, as we crossed it over for our consignor. No PCGS MS60 coin has ever sold in auction, but an NGC coin sold for \$1,955 in September 2012. More recently a PCGS AU58 sold for \$1,538 (not CAC) and a non-CAC MS61 PCGS sold for \$2,820. The current PCGS value in MS60 is listed at \$2,500. A neat type coin in a rarely offered grade.

PCGS # 6962 | EST: \$1,500+

LOT 246

\$1 1870-CC PCGS MS62 EX ELIASBERG

A very important offering in the present sale. A mint state example of the first mintage of silver dollars at the always popular Carson City mint, and bearing one of the most important pedigrees in all of American numismatics, Louis Eliasberg. A low mintage issue, only 11,758 silver dollars were struck, and this MS62 is within the condition census for the date.

Described in lot 2242 in the April 1997 sale of the Eliasberg Collection as: MS 62, prooflike. A splendid specimen struck from a highly polished obverse die; the reverse die less so, but still prooflike. Delicate golden toning on the obverse and reverse; the latter with a splash of lilac and gray. One of the nicest we have seen of this extremely popular issue. High aesthetic appeal plus a high end Mint State numerical grade combine to make this one of the finest known. At the time of the auction, this wonderful survivor opened for bidding at \$4,000 and closed at \$22,550 (inclusive of the buyer's fee).

Today, the eye appeal is just as strong as the day it was when sold in the Eliasberg sale. No earlier pedigree is listed in the description, but it is very possible that it came from the Cappon estate, purchased en bloc by Eliasberg in 1942.

PCGS 8, NGC 2. It is possible that there is some duplication at PCGS in this grade, and only seven coins are graded finer, with a single MS64 being the finest known. The most recent PCGS MS62 to sell was CAC approved and sold for a whopping \$70,500 in the 2014 FUN auction. The L.K. Rudolf-Legend-Simpson coin, a PCGS MS63 sold for \$35,250 in a weak sale—the 2016 FUN auction. The current PCGS Price Guide value is listed at \$35,000. Since then, we have seen several new players in the Seated dollar market pop up, and we think with its great PL eye appeal and ultimate pedigree, this one should bring a very strong price in today's market.

Only 460 Proofs were struck. PCGS 13, NGC 14, CAC 11. We matched this coin to the one that sold in the 2014 FJN sale with realized \$8,813. A great coin for any Civil War or Proof Seated dollar collector. We expect it to see fierce bidding activity.

T\$1 1873 TRADE. PCGS MS65

A lustrous and well-struck GEM example of this first year of issue of the Trade dollar series. A pearlescent satiny luster glows in the fields and amplifies all the razor sharp devices. Every detail in Liberty's drapery, facial details, hay bale, wheat bunch, water lines, stars, dentils, letters, and the eagle on the reverse show FULL definition. Light pewter, gold, russet tan, and periwinkle toning add to the visual allure.

PCGS 12, NGC 6. A condition rarity in the series, there are only a handful graded finer at PCGS. The current PCGS Price Guide values \$10,250 and there are APRs in the \$10,000-\$11,000 range. Keep in mind that nothing finer than MS65+ PCGS has ever sold in auction. A great coin for a first year type set or to kick off a set of GEM Trade dollars.

PCGS 277, NGC 167, CAC 23. The last two examples have sold for \$1,880 (March 2017 and February 2014). A neat coin that should appeal to type and dollar Collector's alike.

Pleasing, wholesome original—these are the adjectives that come to mind as soon as you look at this moderately circulated example of the final year of Trade Dollars struck at the Carson City mint. Nicely struck and nicely preserved after being removed from circulation.

PCGS 17, NGC 8, CAC 4. Only a single (non-CAC) PCGS coin has ever sold in auction in VF35, a likely lightly cleaned coin that sold for \$2,820 in August 2014. In a July 2016 sale, an NGC coin, also probably lightly cleaned, sold for \$3,290. A key issue that is clearly not always available in these popular mid-range collector grades.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you.

TS1 1878-CC TRADE. PCGS MS64 CAC

We come back to the market! This coin has been away for a minimum of 20+ years. It is from the estate of a major Trade Dollar collector. This coin's quality is great.

Outstanding super satiny smooth surfaces are visible all over. Even using a strong glass you will find hardly any scrapes or ticks. A moderate luster greatly enhances the totally original colors. A thick band of navy opens into deep champagne centers. There are no spots or discolorations. Miss Liberty and the details are sharply struck and are way above average. We assure you, this is not your typical 1878 CC Trade Dollar. The overall eye appeal is very pleasing!

PCGS 8, NGC 5, CAC 4. The last PCGS MS64 CAC piece to sell in auction brought \$69,000 in August 2012. We paid \$54,050 for a NGC MS63+ CAC in June 2016. The current Collector's Universe Value is \$79,000. PCGS has graded only 2 coins higher (the MS65 last sold for \$143,750 back in January 2007). The extreme rarity of this date and grade are undeniable. We know this will be a great fit in any choice CC or MS Trade Dollar set. We expect strong bidding here!

First year of issue, the 1873 Proof trade dollar is surprisingly scarce in CAMEO. The watery deep mirrors contrast brilliantly against the crispy struck, neatly frosted devices. Close inspection with a very strong glass reveals some light old hairlines on the reverse. Tinges of clear gold are noted on both sides and the visual effect is quite nice and high end.

Only 835 proofs were struck. PCGS 13, NGC 12, CAC 9. There are only two coins graded PR64+ CAM. Nothing finer than PR64 CAM has ever sold at auction among PCGS-graded coins. The current PCGS Price Guide lists a value of \$9,250. We think this coin will sell for a level close to that. Good luck!

Deep beaming mirrors capture the viewer's gaze from across the room! The mirrors are sleek, smooth, and ultra clear, which appear black when contrasted against the well struck and fully frosted white reliefs. Both sides are PQ with dramatically untuned flashy surfaces. There are some tiny marks and a few lines that do not hinder the dramatic eye appeal. In any way, and account for the assigned grade level.

Only 510 proofs were struck. PCGS 6, NGC 6, CAC 5. Wow, these really are RARE, and underrated. NO CAC approved example has ever sold in auction in any DCAM grade! No PR64 DCAM graded by PCGS has sold since February 2009--that is eight years ago! The current Collector's Universe price is \$7,000 and given that none have traded in so long, that level is likely on the low end! Building a DCAM Proof type set--this coin would be a great addition.

The reverse is a bit more deeply toned and highly desirable. The devices are razor sharp in striking depth and the mirrors are exceptionally clean on both sides.

PCGS 25, NGC 16. The last NGC example sold in January 2015 realizing \$3,290. That coin was likely dipped and had nowhere close to the outstanding eye appeal of this lovely coin.

THE NORTHERN LIGHTS COLLECTION PART V

Welcome to the final installment of the Northern Lights Collection. Our sister firm, Legend Numismatics was proud to be the source for virtually all of the coins contained in the collection. The Northern Lights collector's request was a simple one: to find the very best, out of this world toners. He demanded high end coins that were CAC approved, and we were on overdrive scouring the bourse floor and countless auctions (and private collections) for the finest coins for his collection.

When the time came to sell, and it only made sense for our customer to consign the coins to Legend Rare Coin Auctions, knowing that Laura and her team would do some very special marketing of the coins. We produced a poster of all the coins in the set, their gorgeous colors all together. Realizing how special these coins were, LRCA received two offers from Collector's

wanting to buy the set intact. At every convention the coins were displayed, jaws dropped and you needed a mop to clean up the drool. Mother Nature clearly did her best magic on so many of these coins. Northern Lights has become synonymous with "the best of the best!"

While there are several other great collections of GEM toned Morgan dollars out there, nothing to the scope of Northern Lights has ever been brought to market. The record breaking prices realized more than prove that! In each of the previous four installments, we were astonished at the huge record prices and number of new players that emerged! Obtaining any of the coins from the Northern Lights Collection really is a once-in-a-lifetime opportunity. The Northern Lights Collector is so grateful that every coin has found a great new home.

We have saved the very best for last, the 1880 \$1 PCGS MS68+ CAC Ex-Sunnywood-Simpson Northern Lights Along with the 1882 \$1 NGC MS6+ GOLD CAC EX FLANNAGAN that we sold for a record price of \$20,563 in September 2016. In our opinion these are absolutely tied for best ever toned dollars! It will be fun to watch the bidding and see where the FINEST toned Morgan will go.

All of us at Legend have a tear in our eyes as these coins are sold. Congratulations not only to the Northern Lights owner, but to every collector who was able to buy a treasure from this collection. We wish all the bidders in this final session good luck-we expect many record prices!

We can stare at this coin all day (as with most of the Northern Lights coins). Just the normal quality of the coin, the design and slightly semi-irregular surfaces make the colors explode out of a fire-making machine. Magical colors: violet/gold, pearl green, amber, reddish violet/royal blue are clearly visible all over the surface. We think the colors are so bright and so perfect. The eye appeal is just totally mind boggling!

It is a very rare coin, one of the most beautiful coins in the collection. We can't wait to see it here—good luck!

...the obverse Over the Rainbow toned Morgan dollar. This is a striking example of an otherwise common date; this is a heavily toned obverse with blues, pinks, and true gold, and a typically banded rainbow toning on the reverse. The obverse toning corresponds perfectly directionally, indicating that the coin was stored in the same manner during decades of Mint bag storage. The obverse shows no progression than the reverse, showing that the air flow was different for the two sides. Perhaps the reverse lay facing up in the bag, thus allowing limited air flow across the reverse, and its appearance when it was sold at auction in 1983. The coin was sold naturally over a long period. Ex RARCOA, December 1983, #23 years; ANR, New York Connoisseur's Collection. The coin was represented Sunnywood on this acquisition, and paid \$104.00. The coin was sold to me on the incredible coin. You simply have to see it. Good luck!

...to have the coin. We can tell you that waiting for this sale got to be a little bit tedious, just like Sunnywood instructed Legend, the Northern Plains dealer, to say. He paid \$35,250.00. "MAGENTA MAYHEM"

We are proud to offer MAGENTA MAYHEM in the 3rd Edition of the Northern Lights Collection. The buyer decided to select color 1, good thing it was in the color selection that was available. The buyer was a collector and a fan of the racing team. OEM this coin is! It even has proof for the Northern Lights Collector wanted only the best in color. We rank this coin a 9+ on our 10 color scale. It's the best!

Quantity of this beakers all there, the Yeager color has been a reading rainbow pattern is sideways this time and covers 3/4 of the coin.

Totally original shades of blue bag for 30, magenta/pearl green/violet/blue/gold really jump out on the obverse. The reverse just has a small touch of gold/blue by the rims. The colors will work better on you than any Taser! Yes, it is that eye appealing! This is one of those coins you will stare at all day every day!

THE A.W. COLLECTION

THE A.W. COLLECTION

A true labor of love, the A.W. Collection is a complete set of Morgan dollars, mostly in Mint State. Assembled over many years, our consignor selected nicely and originally toned coins and there are many old friends in his collection, including coins from our previous offerings of the Sunnywood-Simpson, Bob Simpson duplicates, David Hall, and Northern Lights Collections. Once the set was completed, he began to upgrade certain pieces. A true gentleman and friend to Legend Rare Coin Auctions and Legend Numismatics, we were saddened by his passing earlier this year. While pleased to offer his collection, we wish it was under different circumstances.

LOT 285

\$1 1878 8 TAIL FEATHERS. PCGS MS64 CAC

From the A.W. Collection. What a great way to begin this collection. A brilliantuster swirls under a blanket of rich orange toning that blends with accents of teal, magenta, and gold. We would rate the color as an 8+ on our 1-10 point color scale. The reverse is mostly untoned with a band of rainbow toning at the lower rim. Ms. Liberty and the details are nearly complete with only slight weakness in her hair curls. The eye appeal is superb! Throw away the pricing guides, this is an especially difficult issue to find with such awe-inspiring toning. What a great coin for any toning specialist to add to their set!

LOT 286

\$1 1878 7 TAIL FEATHERS, REV. OF '78 PCGS MS65 CAC

From the A.W. Collection. Ex Sunnywood-Simpson. Last offered in our September 2016 Regency auction, described as follows:

"Very pretty classic rainbow bag toning highlighted by emerald hues graces this example of the 1878 dollar with the second adopted reverse, known to Collector's as the "Reverse of '78." A full spectrum rainbow dominates about 50% of the obverse before mellowing to a lovely silver-peach patina at the lower right portion of the obverse. The reverse is mostly untoned, with a hint of apricot gold at the rims. This reverse design features Seven Tail Feathers: an ornithologically inaccurate account. The second reverse also features a flat to concave eagle's breast, and parallel arrow feathers on the adjacent fletches. This was the first of many coins in the Sunnywood Collection to have been acquired from or through the late dealer Mike DeFalco. DeFalco knew both wild color and DMPLs, but he definitely knew that Sunnywood would never accept an average piece. We assure you, this 7TF beats the majority certified for the grade. This coin was lot 125 in our October 2014 Regency 9 sale of the Simpson-Sunnywood Collection, where it brought \$2,585."

\$1 1878-CC PCGS MS64 CAC

From the A.W. Collection. Arching bands of bold toning frame the top 65% of the obverse, leaving an untoned area roughly in a triangle pattern, seemingly pointing at the colors. Intermingling shades of red, green, gold, and orange. Bold, rolling cartwheel luster combines with the crisply struck devices. The eye appeal is superb for a coin of this date. Popular as the first year of CC Morgan dollars and with such a great look, worthy of a premium bid to be sure!

LOT 291

\$1 1879 PCGS MS63+ CAC

From the A.W. Collection. Ex Northern Lights Collection, Part I I, January 2017, lot 216, where it was described as "THE UNEXPECTED"

You look at the obverse and say this coin has pretty colors, then you flip to the reverse and you are wowed! All that PLUS, the coin is really high end quality! Only a small group of tiny ticks can be found on the left obverse if you look hard. Overall, this coin is very clean and lustrous. The obverse has a moderate mix of totally original gold/amber/reddish violet/green colors that all swirl around. We rank those colors an 8+. Then the reverse puts on a show. Stunning totally original swaths of evergreen/deep violet/magenta/gold float all over. We rank those colors a full 9 on our 1-10 color scale (10 is the best). Miss Liberty and the details are well struck. The eye appeal is wonderful!

We assure you, 1879's do not come with much color. This coin has all over!" This wonderful toner realized \$3,642.50 on a \$3,000+ estimate. A rare second chance to own this GEM!

LOT 293

\$1 1879-O PCGS MS63 CAC

From the A.W. Collection. A double sided toner in shades of apricot, gold, and violet hues on the obverse and mostly apricot-olive hues. Satiny and nicely struck. Here is another coin you can toss out the price guides and prepare to bid liberally!

PCGS # 7090 | EST: \$700+

LOT 292

\$1 1879-CC CAPPED DIE. PCGS MS63 CAC

From the A.W. Collection. This is an issue that rarely comes with any kind of color, and when it does, it has a dull, dusty gray look. This coin is a great exception, with wonderful multi-hued toning on both sides, possibly imparted from long term storage in an ancient collector envelope. The toning on the reverse does display more vivacity, with multiple shades of blue, gold, teal, and amber. The obverse display the same colors in a more dappled pattern. Overall, we would rank the colors as an 8 on our 10 point scale. The eye appeal is exceptional for the modest grade assigned.

PCGS 383, NGC 274, CAC 48. The last PCGS/CAC example to sell in auction realized \$7,050 in April 2015, and that coin had the typical look. The current PCGS Price Guide value is listed at \$7,000 and we would not be surprised if this pretty toned example brought a significant premium.

\$1 1879-S PCGS MS65+ CAC

From the A.W. Collection. A glorious coin! Bold cartwheel luster swirls under the rich violet, teal, magenta, gold, cobalt, and emerald toning. Nearly on par with coins in the Northern Lights Collection, we do rank the colors a 9 on our 10 point scale. The reverse is semi-PL with ample reflective characteristics in the luster.

This coin sold in the 2015 FUN auction realizing \$1,821.50, and we think today, this GEM could indeed bring more! A great opportunity!

THE A.W. COLLECTION

LOT 295

\$1 1880 PCGS MS65 CAC

From the A.W. Collection. Another two sided toner. The obverse is bathed in a vibrant champagne-peach with rich orange accents. Flip the coin over, and the reverse has a rich toning that does display some azure, gold, and amber color in a tie-dye pattern. Satiny luster on the obverse and the reverse is more of a vibrant cartwheel. Better than you normally see for this date. Good luck.

LOT 296

\$1 1880-CC PCGS MS66 CAC

From the A.W. Collection. Vibrant satiny luster brings life to the rich double-sided toning. Kaleidoscopic blues, greens, and golds blend together over silky smooth surfaces, particularly on the reverse. If the obverse had the same look as the reverse, we would unhesitatingly rate the colors an 8.5+.

PCGS 838, NGC 589, CAC 163. Our consignor bought this premium GEM from the September 2010 Long Beach auction, paying \$2,415. A great looking coin that should see spirited bidding!

PCGS # 7100 | EST: \$2,000+

LOT 297

\$1 1880-O PCGS MS64+ CAC

From the A.W. Collection. Purchased from our Regency Auction XV II, September 2016, lot 20 where it was described as:

A satiny near-gem example with strong details imparted from a sharp strike. Russet and olive hues blend with hints of azure and gold to present a very pretty coin. Clean surface quality adds to the appeal.

PCGS 1555, NGC 986, CAC 181. Of the 1555 examples at PCGS, 137 have been graded as a "+". This is a classic condition rarity in the Morgan series, with only 40 examples receiving a higher grade. As such, the populations are likely highly inflated by the same coin being submitted many times in hopes of receiving a higher grade. The most recent PCGS MS64+ CAC realized \$3,760 in July 2016. The Collector's Universe Price Guide lists a value of \$4,100. Keep in mind that the last PCGS MS65 realized \$22,325 in April 2016. A great opportunity for the advanced collector!

PCGS # 7130 | EST: \$600+

LOT 302

\$1 1881-O PCGS MS64 CAC

From the A.W. Collection. Originally from our Regency Auction V lot 202 where it was described as, "A wild, high end, kaleidoscope of colors that will impress any long time color buyer. The technical qualities are all there, with clean surfaces and an unusually bold luster for an 1881-O. Miss Liberty and the details are frosty and have full strikes. The obverse has a jaw dropping mix of emerald green/amber/violet/blue/fiery gold bag colors. The eye appeal is just incredible! This coin's value is based on its color and we expect strong bidding."

To this we would add that we rank the colors an 8.5+ on our 10 point scale. It sold for \$1,880 on a \$500+ estimate, and we think today it could sell for even more!

THE A.W. COLLECTION

LOT 303

\$1 1882-CC PCGS MS65 CAC

From the A.W. Collection. Radiant cartwheel luster. The toning is quite pleasing with baby blue, teal, and gold on the obverse and brilliant silver centers with rainbow toning that frames the reverse. The toning is quite nice for a date that generally does not come with color.

PCGS # 7132 | EST: \$450+

LOT 304

\$1 1882-CC PCGS MS65 CAC

From the A.W. Collection. A GEM 82-CC that is deeply toned on both sides. Cherry, eggplant, and dark green patina are brought out by a vibrant mint luster. This is about as deep a tone as you can get! Good luck.

THE A.W. COLLECTION

LOT 307

\$1 1883 PCGS MS62 CAC

From the A.W. Collection. There is nothing modest about this modestly graded 83 Morgan! The minor scuff at the neck and short scratch at the cheek can be overlooked when your eyes are caught by amazing color that we rank as a 9 on our 1-10 point scale. Blueberry and eggplant hues dominate, with accents of gold, magenta, and teal. Even though this coin is "only" a 62, it will certainly bring moon money!

PCGS # 7142 | EST: \$300+

LOT 308

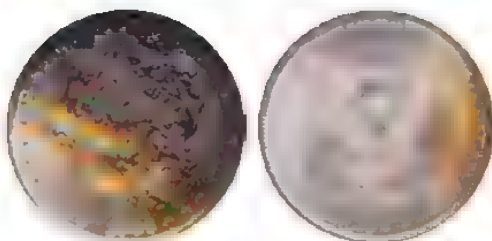

\$1 1883-CC PCGS MS66+ CAC

From the A.W. Collection. Earlier ex-Sunnywood, Simpson, and RSD Collections. Last sold in our October 2015 Regency Auction with the following description:

"Another classic rainbow coin from the GSA hoard, this '83-CC features full rainbow toning covering 100% of the obverse. Like many toned GSA coins, the luster is somewhat muted underneath the color, but the coin is unusually attractive nonetheless. We assure you, it's impossible to find toned Carson City Morgans like this! With all the resources and time that Sunnywood put into building this great set, this was the best toned 1883-CC he could find and we rank the color a 9 on our toning scale. This coin realized a more than reasonable \$3,172.50 in our October 2014 Sunnywood sale and will be a star in its next home!"

It realized \$3,172.50 on a \$2,750+ estimate. Good luck as coins like this often disappear into serious collections for many years and the opportunity to add this coin to your toned collection should not be missed.

PCGS # 7144 | EST: \$2,600+

LOT 309

\$1 1883-O PCGS MS65 CAC

From the A.W. Collection. This is NOT your typical 83-O! Well struck with a vibrant luster already separates this gem from others. However, it is the deep brick red, aubergine, and gold toning that dominates approximately 75% of the obverse that really defines this high end gem. On the reverse, there is a touch of color over AMERICA, and the luster does have some PL reflection. The eye appeal is exceptional.

LOT 312

\$1 1884-CC PCGS MS65 CAC

From the A.W. Collection. A coin likely from the original GSA hoard. Boldly lustrous surfaces show brilliant centers with rich multi-colored toning on both sides that accentuate really smooth issue-free surfaces and sharply rendered devices. Certainly worthy of a premium bid.

PCGS # 7152 | EST: \$400+

LOT 313

\$1 1884-O PCGS MS66 CAC

From the A.W. Collection. Ex. Sunnywood, Simpson, David Hall Collections. Wow! what a great pedigree! Clearly this coin is one that would be fitting for the finest of toned Morgan dollar collections!

In our October 2014 Auction, we described it as follows: "Both sides exhibit a nearly blinding, booming luster. The reverse has some light gold, but the obverse impresses with bands of original neon magenta/pearl green/gold/amber. If you love color, this is the most eye appealing 1884-O you may ever see! Miss Liberty and the details are frosty and sharp y struck. This would truly be a superstar in any other collection!" It brought \$2,937.50 on a \$2,500+ estimate. It then sold for \$4,112.50 in our February 2015 offering of David Hall's toners! We still LOVE this exceptional coin and it should still bring a strong price today! Good luck!

PCGS # 7154 | EST: \$3,200+

LOT 314

\$1 1884-S PCGS AU58 CAC

From the A.W. Collection. An important condition rarity in Mint State, which puts a ton of demand from Collector's for NCE AU58s. A nearly full brilliant luster shines with lovely peripheral toning on both sides. For the assigned grade, the eye appeal is better than normally seen!

PCGS 1277, NGC 1735, CAC 152. Clearly the population reports for PCGS and NGC are inflated with duplicate submissions in hopes of receiving a mint state grade. The last PCGS/CAC AU58 to sell in auction realized \$2,585. Remember that any mint state coin is at least \$8,000. This one is certainly worthy of a strong bid!

LOT 315

\$1 1885-CC PCGS MS64 CAC

From the A.W. Collection. Brilliant in blue! An effulgent luster beams from below variegated blue/violet/green hues on the obverse. The surfaces are exceptionally high end for the grade and housed in an OGH, this cataloger does believe the coin is deserving of at least a +, but we make no guarantees. The color ranks as a 9 on our 10-point color scale, and worthy of a serious bid from the specialist!

LOT 316

\$1 1885-CC PCGS MS64 CAC

From the A.W. Collection. Rich multicolored toning blankets the entire obverse. Eggplant purple toning dominates with accents of lighter blue-green and golden amber hues toward the rims. The underlying luster on the obverse is bold and the reverse is totally untuned and lustrous.

PCGS # 7160 | EST: \$700+

LOT 317

\$1 1885-O PCGS MS65+ CAC

From the A.W. Collection. WOW! Stunning rainbow toning arches up from along the lower obverse rim. A stately cartwheel luster arouses the color and adds to this coin's exceptionally high end eye appeal. The reverse has a more subtle pastel blue and orange-rose patination. Atypical for an 85-O, the strike is bold and the luster vibrant. We rank the colors an 8.5+ on the obverse and this GEM is truly worthy of a strong bid! Not an easy task finding this date with real sexy color! Let the bidding war commence.

PCGS # 7162 | EST: \$1,200+

LOT 318

\$1 1885-S PCGS MS64 CAC

From the A.W. Collection. While overshadowed by the 84-S, the 85-S is a scarce date in mint state and finding one with any toning is not always easy. Totally original, this coin displays classic collector envelope toning pattern that is brought out by a vibrant cartwheel luster.

THE A.W. COLLECTION

LOT 319

\$1 1886 PCGS MS65 CAC

From the A.W. Collection. Neat bag toning dominates the obverse. As you rotate the coin in a light the luster brings out the bold and seductive colors. Under close inspection we can see the fabric pattern from the canvas mint bag. The obverse is fully toned and we rate the color an 8+ on our color scale. The reverse is mostly silver white with a band of rainbow color at the lower reverse rim. A coin that is worthy of a premium bid from any toned dollar specialist.

PCGS # 7166 | EST: \$1,000+

LOT 320

\$1 1886-O PCGS MS62

From the A.W. Collection. Another date that is scarce even in lower mint state grades. It is also a date that typically lack luster and this one is a great exception with bold luster and hints of champagne gold iridescence.

PCGS 815, NGC 524. These typically bring in the \$1,400-\$1,900 and the current PCGS value is \$2,250. A nice BU coin for the collector on a budget.

LOT 321

\$1 1886-S PCGS MS64 CAC

From the A.W. Collection. Another near-GEM from this collection that has a class c, old time toning pattern on both sides. A nice luster really brings out the iridescent toning. Really attractive and original blues, greens, and gold tones grace both sides although the color is more dominant on the obverse. Scarce any finer!

PCGS # 7170 | EST: \$700+

LOT 322

\$1 1887 PCGS MS66 CAC

From the A.W. Collection. A PQ gem with nice end roll toning on the obverse. Variegated blues mingle with shades of pink and gold on the obverse. The reverse has a halo of gold at the extreme periphery. Very attractive and pleasing to the eye.

PCGS # 7172 | EST: \$650+

THE A.W. COLLECTION

LOT 323

\$1 1887-O PCGS MS64 CAC

From the A.W. Collection. A brilliant mint luster blooms from below a layer of iridescent seafoam green, gold, rose, and olive toning. Well struck and exceptionally eye appealing for the assigned grade. The toning is certainly a unique tone, one that we have rarely, if ever seen with such vivacity. Worthy of a premium bid from the collector who appreciates unique toning. Scarce in higher grades.

PCGS # 7176 | EST: \$500+

LOT 324

\$1 1887-S PCGS MS64 CAC

LOT 325

\$1 1888-O PCGS MS65 CAC

From the A.W. Collection. Pastel iridescent toning in a sort of bulls-eye pattern from long term envelope storage. Shades of blue, rose gold, and amber blend together over very pleasing lustrous surfaces. A boldly struck example with better than usually seen. Superior eye appeal for the date and grade.

PCGS # 7182 | EST: \$250+

LOT 326

\$1 1888-O PCGS MS65 CAC

From the A.W. Collection. Here is another date that you rarely see with attractive toning. Swirling cartwheel luster brings life to the pale blue toning in the central areas with rich amber-gold toning at the peripheries. Under close inspection we do see an ancient fingerprint on the obverse, visible only at certain angles. What a great looking GEM! Trying to complete a toned set—this is a tough date to find with color. Good luck!

THE A.W. COLLECTION

LOT 327

\$1 1888-S PCGS MS65 CAC

From the A.W. Collection. A scarce date in GEM and rare with toning. Like lots of the coins in this collection, this one displays a dual-sided toning scheme, likely imparted from long term storage in a collector envelope. The bold luster amplifies the lovely autumnal hues on both sides. The eye appeal is really nice for the date.

PCGS 354, NGC 99, CAC 30. The last one to sell realized \$3,525 in April 2016, and one sold for \$3,760 in January 2016. Certainly worth a premium bid from the collector putting together a complete set of toned Morgans.

PCGS # 7186 | EST: \$3,000+

LOT 328

\$1 1889 PCGS MS64 CAC

From the A.W. Collection. A vibrant and bold cartwheel luster makes the iridescent hues of pink, rose, gold, and powder blue burst off the obverse surfaces. Well struck and exceptionally high end quality for the MS64 grade assigned. We can see this coin selling for more than our estimated value.

PCGS # 7188 | EST: \$300+

LOT 329

\$1 1889-CC PCGS XF40 CAC

From the A.W. Collection. Although not a mint state piece, this KEY DATE Morgan has a very pleasing ORIGINAL look! Rich dove toning blends with some gold and lilac, particularly on the reverse. The eye appeal is exceptional for the assigned grade. The original mintage of 350,000 went right into circulation, where they remained for decades. Most known examples are in XF or lower grades, and due to its key status, in demand in all levels of preservation. The currently offered XF grade is about as high a grade that most Collector's can afford, and this one is PQ.

PCGS 673, NGC 309, CAC 39. The most recent example to sell in auction realized \$3,055 in the 2017 FUN auction and the current C/J value is listed at \$3,300. We predict strong bidding competition for this one.

\$1 1889-O PCGS MS64+ CAC

From the A.W. Collection. This deeply toned essentially GEM dollar is again of a date that rarely comes nicely toned. Both sides are nicely toned in shades of electric blue, aqua, amber, violet, and gold hues are a delight for the connoisseur of toned Morgans. Not only is this coin scarce with such fine eye appeal, but becomes quite scarce any finer. This coin brought \$3,055 in November 2012. It could bring more.

THE A.W. COLLECTION

LOT 331

\$1 1889-S PCGS MS65 CAC

From the A.W. Collection. Distinctly prooflike luster reflects back through lovely iridescent toning on both sides. Dappled and polychromatic toning displaying shades of golden amber, violet, olive, and rust. The strike is bold with full definition on Ms. Liberty and the eagle, which are frosty and smooth. When you view the surfaces on both sides under a light, the colors pop and sparkle, creating an imposing visual allure that will captivate the eye.

PCGS 730, NGC 240, CAC 71. CAC approved, PCGS graded MS65 pieces sell generally sell for \$1,600 to \$2,000 though we can find a few APRs in excess of \$2,000. With just a touch more flash, this coin would have likely garnered a PL designation and currently there are only five coins graded MS65PL at PCGS, the most recent selling for over \$3,500. We think that this GEM, with its vivacity and awesome look, will bring a strong price when the dust settles.

PCGS # 7194 | EST: \$1,600+

LOT 333

\$1 1890-CC PCGS MS64 CAC

From the A.W. Collection. Clearly a coin that was tucked away in an old cardboard holder, where the obverse was allowed to acquire vivid golds and blues which really come to life when the luster rolls on both sides. The reverse is more subtle and dappled with the color relegated to the rims. A really neat looking coin for the collector of toned CC dollars. Scarce any finer.

PCGS # 7198 | EST: \$1,500+

LOT 332

PCGS # 7196 | EST: \$250+

LOT 334

\$1 1890-O PCGS MS65 CAC

From the A.W. Collection. Another cool double-sided toner on a date that you generally do not see with vivid color. Both sides show rich aubergine and blue bands leave frosty silver centers on both sides. The central devices show a typical softness but the overall eye appeal of this this GEM comes from the distinguished toning.

Our consignor purchased this coin out of the 2014 FUN auction for \$2,115. This GEM did bring \$3,290 in the 2013 FUN auction. Very rare any finer!

PCGS # 7200 | EST: \$2,000+

THE A.W. COLLECTION

LOT 335

\$1 1890-S PCGS MS65 CAC

From the A.W. Collection. A soft mint frost comes from below a layer of light patina on both sides, another coin that was probably stored in an ancient envelope. A neat looking GEM.

This coin has not appeared in auction since July 2002. While not a monster toned coin, the 90-S rarely comes with any color at all, so if you are building a toned set, here is a chance to own a neat, totally original GEM. Scarce in MS65 and rare any finer.

PCGS # 7202 | EST: \$1,000+

LOT 336

\$1 1891 PCGS MS64 CAC

From the A.W. Collection. Rich original toning covers both sides. Likely stored in an old album as there are concentric circles of toning at the rims which then fade to a sunset orange and amber gold toward the center of the obverse and teal at the center of the reverse. Not rare in MS64, but becomes very scarce in MS65. A very attractive example, one that is housed in an OGH.

PCGS # 7204 | EST: \$600+

LOT 337

\$1 1891-CC PCGS MS64 PL CAC

From the A.W. Collection. Really neat PL surfaces do really do reflect and refract the light through the icy teal and impressive gold toning. The strike is very sharp and the eye appearance is superb.

PCGS 115, NGC 64, CAC 9. Only a stone white untoned MS64 PL with CAC approval ever sold in auction, realizing \$1,265 in December 2011. The last PCGS MS64 PL to sell brought nearly \$2,000 in November 2015. With its exceptional eye appearance, we think this coin should bring more! A beautiful PL CC toner!

PCGS # 7207 | EST: \$1,750+

LOT 338

\$1 1891-O PCGS MS64+ CAC

From the A.W. Collection. A really cool double-sided album toner. Gorgeous electric-blue, crimson, and gold hues grace both sides, the color bolder toward the rims. Not only is the toning really nice, but the technical quality is all there, with just a minor wispy mark or two from a full GEM classification. For the date, the striking was bold, with only some slight weakness in the central portions of the design. The satiny luster acts as a backlight making Ms. Liberty glow! A condition scarcity in MS65 and none are graded finer than MS66+. Our consignor purchased this beauty from a January 2013 auction sale for \$2,585. Good luck!

LOT 339

\$1 1891-S PCGS MS65 CAC

From the A.W. Collection. Housed in an old green tag style holder. Neat original toning on both sides. Tan, olive, russet, and gold hues are brought out when the subtly reflective luster catches a light. The eye appeal is totally neat!

PCGS 530, NGC 229, CAC 80. In general, these bring between \$1,400 and \$2,000. This coin's most recent auction appearance was in 2007. A neat coin with tons of originality!

PCGS # 7210 | EST: \$1,200+

LOT 340

\$1 1892 PCGS MS63+ CAC

From the A.W. Collection. Another neat coin from this collection with a distinguished reflective "flash" to the luster, but just shy of the full PL designation. Traces of toning frame the upper port on of the obverse and for the assigned grade the surfaces are quite decent, bordering on a full MS64 grade. The current CU value is \$675, and with just a touch more flash, this coin would be worth \$1,000+.

PCGS # 7212 | EST: \$500+

LOT 341

\$1 1892-CC PCGS MS64+ CAC

From the A.W. Collection. Fabulous toning graces the obverse. Intersecting bands of neon aqua are divided by really attractive orange gold and rose accents. Its unique pattern can either be from end roll status or from sitting at the top of a treasury bag from the GSA hoard, where the top of the bag was sealed. The luster is frosty and vibrant on both sides, accenting a great strike. The eye appeal is tremendous! This date not only becomes scarce in MS64+, but rarely do they come with this kind of color. The current PCGS Price Guide value is listed at \$4,600 and it jumps to \$7,850 in MS65. This is a truly unique 92-CC and we think we will see spirited bidding on auction day!

THE A.W. COLLECTION

LOT 343

\$1 1892-S PCGS AU53 CAC

From the A.W. Collection. One of the MAJOR condition rarities in the series, which is VERY RARE in any mint state grade. Because of this, any high end AU coin will see strong demand. In AU53, these generally come washed out and lack luster, this is not your typical coin! Rich silver color does show hints of light toning at the obverse rims. An ample amount of surviving underlying mint frost adds to the exceptional eye appeal. The devices are well struck and display a wealth of strong detail.

PCGS 348, NGC 323, CAC 24. Really let that sink in! The last one sold for \$2,233 in April 2016 and keep in mind that with each grade point finer, the price goes exponentially higher. This coin will see fierce bidding for this important coin.

PCGS # 7218 | EST: \$1,800+

LOT 345

\$1 1893-CC PCGS XF45 CAC

From the A.W. Collection. A surprising amount of underlying original luster for a coin that saw this amount of circulation. Both sides show attractive golden-grey tones. The light wear is problem free, and a very nice example of the final Carson City mint. Worthy of a premium bid, the CU value is listed at \$1,750. A PQ coin for the grade.

PCGS # 7222 | EST: \$1,200+

LOT 344

\$1 1893 PCGS MS64

From the A.W. Collection. Phosphorescent plum, magenta, cobalt, rose, gold, and amber toning beam from the smooth and lustrous obverse surfaces. A respectable looking coin with a lovely toning pattern. The reverse is satiny with a touch of clear gold. A low mintage issue with 378,000 struck. Very scarce finer. Our consignor purchased this coin in November 2011 for \$3,738. We think its unique look should attract many bids. Good luck.

PCGS 346, NGC 392, CAC 34. The current CJ value is \$1,900 and the most recent example sold in January 2017 for \$1,763. A marginally finer low end mint state coin will cost \$4,000+ making this a great coin for a collector who wants a PQ example without buying a MS coin.

PCGS # 7224 | EST: \$1,750+

THE A.W. COLLECTION

LOT 347

\$1 1893-S PCGS F15

From the A.W. Collection. The KEY date to the series, in demand from Collector's in all grades, from problematic and low grade to GEM mint state. Only 100,000 were struck and most of those went right into circulation, where they would remain for many years. Light silver gray in color, this circulated coin was perhaps wiped long ago leaving some lines and glossy texture on the high points.

PCGS 498, NGC 205. The last PCGS graded coin to sell brought \$3,525 in a September 2016 auction and the current PCGS Price Guide value is listed at \$4,300. A popular issue that always meets strong demand.

PCGS # 7226 | EST: \$2,800+

LOT 349

\$1 1894-O PCGS MS63

From the A.W. Collection. Another seductive and original dual-sided toner. Shades of blue, coral, rose, and amber all are brought out by a pleasing underlying mint luster. The devices are boldly struck and surfaces are very clean for the grade.

PCGS 326, NGC 173. The last one to sell realized \$3,995 in February 2017 and the current PCGS Price Guide value is \$5,450. Really neat toning and exceptional eye appeal will make this one bring a strong price.

PCGS # 7230 | EST: \$4,000+

LOT 348

\$1 1894 PCGS AU58 CAC

From the A.W. Collection. Housed in an OGH. A scarce, semi-key issue, only 110,000 were struck for circulation. Only a hint of friction can be seen in the fields and on the high points. Boldly lustrous and well struck.

PCGS 526, NGC 486, CAC 36. The most recent AU58 graded by PCGS to sell realized \$2,585 in March 2017, the most recent PCGS/CAC coin to sell in auction brought \$1,645 in November 2016. The current PCGS value is listed at \$2,400 and the price does go up dramatically in Mint State.

PCGS # 7228 | EST: \$1,500+

LOT 350

\$1 1894-S PCGS MS65 CAC

From the A.W. Collection. Ex Sunnywood/Simpson Collections.

This 1894-S sports a diverse palette of subtle pastel colors on the obverse—certainly a rare find for this date. Further, the coin is a true to grade full gem. This incredibly high end coin has an intense booming luster and almost no ticks to be found, even through a strong glass. The autumn forest color mixes anything but subtle, which we rate as an 8+ on our scale. Before being a part of the Sunnywood Collection, this was another wonderful coin from Jack Kelly's Toned Dollar Collection. We can't stress enough how rare any gem 1894-S is—even without color. This is a special coin worthy of any gem Morgan Collection!

PCGS 156, NGC 40, CAC 31. This GEM realized \$8,225 in our offering of the Sunnywood/Simpson Collection in Regency Auction IX. This is a rare opportunity that one of these colorful GEMS are reappearing in auction be prepared for strong bidding!

From the A.W. Collection. Satin mint luster shows light friction in the fields. Well struck and pleasing with hints of gold tone.

PCGS 594, NGC 526, CAC 23. CAC approved coins do bring a strong premium to those not beamed. The last one to sell realized \$1,528 in August 2016 and the current CU value is listed at \$1.250.

PCGS # 7236 | EST: \$1,100+

LOT 352

\$1 1895-S PCGS AU53 CAC

From the A.W. Collection. Lightly circulated with only a hint of friction in both the high points and fields. Prior to its stay in commerce, this coin was likely a fully PL specimen, with the surviving luster showing richly reflective characteristics around the devices. Like all the dates from 1892 to 1895 struck in circulation, these are very hard to find nice. Additional demand is put on 1895 dated dollars, given the rarity of the proof only Philly mint issue.

PCGS 153, NGC 100, CAC 12. The only CAC AU53 to sell in auction realized \$1,840 back in the 2012 FUN auction. This is an important opportunity for any collector needing a high end for the grade example for their set.

\$1 1896-S PCGS MS63

From the A.W. Collection. A very scarce coin in Choice Mint State grade. Pleasingly lustrous with touch of pale tone. For the date, this coin has a good strike with only some weakness in the central devices. The eye appeal is very bold.

PCGS 557, NGC 211. The most recent example to sell realized \$3,643 in the recent 2017 FUN auction and the current PCGS Price Guide value is listed at \$4,250. These become quite rare any finer.

PCGS # 7244 | EST: \$3,200+

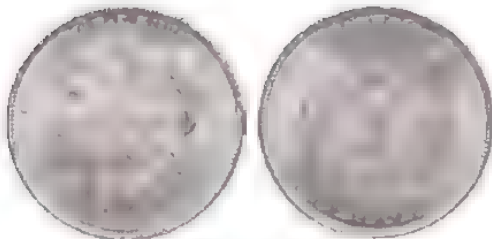

LOT 356

\$1 1897 PCGS MS65 CAC

From the A.W. Collection. The collector clearly liked this two-sided type of toned dollar. Rich blues mingle with soft green and amber-gold hues. The totally original swirling luster with distinctive hints of PL texture enlivens all the colors. The strike is bold and complete. The eye appeal is quite nice! Our consignor paid \$805 for this GEM in August 2011.

PCGS # 7246 | EST: \$650+

PCGS 320, NGC 113, CAC 70. This is another date that rarely comes with toning, and when they do they are usually mottled. This one is certainly more eye appealing than what is generally seen. PCGS/CAC coins sell in the \$1,300-1,700 range generally, and this one with its bold appeal should bring that or more!

LOT 359

\$1 1898 PCGS MS64+ CAC

From the A.W. Collection. An exceptional borderline GEM! Bold toning on both sides. Sultry reds and deep purples are accented by wisps of teal, orange, and gold. An area that does remain untuned on both sides creates a neat contrasting focal point. The eye appeal really is superb, and we do rank the colors an 8.5+ on our 10 point scale. Our consignor paid \$4,113 for this coin in the 2013 ANA auction where it was offered as part of the "Gilman New Heart" Collection. Take a good look at this dollar if you are a specialist in neatly toned Morgans!

\$1 1903-O PCGS MS65+ CAC

From the A.W. Collection, ex Sunnywood, Simpson Collections.

A superb looking GEM with exceptional swirling luster that brings out really neat peripheral toning. Accents of magenta, gold, amber, teal, and deep aubergine blend with subtle rose and orange hues. Well struck with only the slightest marks keeping this coin from an even higher grade.

The 1903-O has a great story behind it. Until 1962, this was the rarest Morgan dollars in Mint State, then hundreds of thousands were released in 1962-1964 when original mint bags were discovered in Treasury Department vaults. Today, in mint state these are just type coins. However, they are still quite scarce with the exceptional type of toning as seen on the presently offered Sunnywood-Simpson-A.W. coin.

\$1 1878-S PCGS MS64 DMPL CAC

VERY high-end quality. This is NOT your typical 78-S! At the very least it should be a +. PCGS is really tough sometimes.

Amazing deep 8+ mirrors beam from all over. You can bring the Space Shuttle home using their intense reflection. The mirrors are also exceptionally crystal clear. There are just a few trivial ticks scattered about nothing serious. We grade the reverse a full 65 DMPL. Miss Liberty and the details are fully struck and have amazing iridescent thick what frost. The eye appeal is completely heart pounding!

PCGS 84, NGC 123, CAC 17. We'd bet this coin has been resubmitted a few times. The current Collector's Universe Value is \$2,500. Flat out this coin is worth much more. You do NOT ever see 1878-S looking like this! 10" mirrors on anything are rare!

\$1 1879-CC PCGS MS64+ CAC

The first of two MS64+ examples of the "Clear" or "Normal" CC 1879-CCs offered in this consignment. This one displays a boldly reflective, semi-P. luster contrasts against the well frosted devices. The luster cartwheels on both sides. A few bagmarks and scuffs are noted and account for the grade, and are amplified due to the texture of the luster and strike, including on the cheek. Mostly untinted with a touch of gold at the reverse rim, the eye appeal is quite nice overall.

PCGS 822, NGC 509, CAC 126. Only 50 of the PCGS coins are graded as MS64+. We do believe there is a number of resubmissions of the same coin in hopes of receiving a full MS65 grade. The last one to sell brought \$12,925 in March 2017 and have sold for as much as \$16,450. The PCGS value is currently listed at \$13,500. With strong eye appeal, this coin represents a great value for any collector who does not want to spend \$25,000 or more for a PCGS/CAC MS65. Good luck.

PCGS # 7086 | EST: \$10,000+

LOT 386

\$1 1879-CC PCGS MS64+ CAC

The second example in MS64+ CAC from this consignment and the luster on this one is bold and frosty, with a strong cartwheel, which is different than the coin in the previous lot. Some pearly-silver-gold iridescent accents can be seen, especially on the reverse can be seen in a light. The fields do show some minor bag marks which account for the assigned grade. The 1879-CC is a very popular and scarce Carson City mint dollar, particularly so in grades approaching gem. This coin has a bold eye appeal and is very close to full gem quality.

PCGS 822, NGC 509, CAC 126. Only 50 of the PCGS coins are graded as MS64+. We do believe there is a number of resubmissions of the same coin in hopes of receiving a full MS65 grade. The last one to sell brought \$12,925 in March 2017--and have sold for as much as \$16,450. The PCGS value is currently listed at \$13,500. With strong eye appeal, this coin represents a great value for any collector who does not want to spend \$25,000 or more for a PCGS/CAC MS65. Good luck!

PCGS # 7086 | EST: \$10,000+

LOT 387

\$1 1879-CC CAPPED DIE. PCGS MS64+ CAC

A borderline GEM of this ever popular key date CC Morgan dollar. A strong underlying luster brings out the impressive clear gold toning that gracefully dusts the obverse. Well struck and minimally marked, the frosty surfaces are very eye appealing; the eye appeal is exemplary for the assigned grade.

PCGS 375, NGC 186, CAC 48. The PCGS population includes 26 graded as MS64+. Keep in mind the finest graded is MS65+, so this is very close to the top of the populations. The most recent example to sell in auction was a PCGS/CAC coin that sold in our September 2016, Regency Auction, which brought \$12,338 and the current PCGS Price Guide value is listed at \$14,000. Remember that a PCGS MS65 will cost \$35,000+! A great coin for any advanced set.

PCGS # 7088 | EST: \$10,000+

LOT 388

\$1 1879-O PCGS MS65 CAC

A very visually impressive GEM with full rolling cartwheel luster that accents a crisp, sharp strike and exceptional, PQ surface quality. The eye appeal is tremendous for the grade.

PCGS 422, NGC 139, CAC 74. Five PCGS/CAC coins sold in auction last year, ranging from \$3,995 to \$4,583 (the latter sold in our September 2016 auction). This coin has a great look and should bring a very strong price. We wish you good luck in bidding, keeping in mind that a 66 will cost over \$15,000.

PCGS # 7090 | EST: \$3,500+

LOT 389

\$1 1880-O PCGS MS64+ CAC

A near GEM example of this conditionally rare early O-mint Morgan dollar. Brilliant silver luster shines on both sides, which are totally untoned and the devices are sharply struck. The cheek is clean and the lustrous fields show a few teeny ticks.

PCGS 1575, NGC 958, CAC 191. Only 136 are graded MS64+ and 45 coins are graded finer. The last PCGS MS64+ CAC sold in our September 2016 Regency Auction for \$3,173 and the CU value is listed at \$3,750. Keep in mind that the next grade up will cost into the five figure price range. This coin presents a great opportunity to acquire an essentially GEM coin at a fraction of the price.

PCGS # 7114 | EST: \$3,000+

LOT 390

\$1 1880-O. 80/79. PCGS MS64+ PL CAC

Among the finest PL-certified examples of this issue. Rich watery mirrors are a full 4+ in clarity with bold, frosty design elements. Both sides display a crispness and freshness typically associated with coins struck in San Francisco. The eye appeal is exceptional, and is perhaps only a tiny tick away from a full GEM grade.

PCGS 22, NGC 6, CAC 5. There are five examples at MS64+ PL and only one has sold in auction, realizing \$7,052 three years ago (July 2014). Keep in mind there is a single MS65 PL finer, which has never sold in auction, but PCGS suggests a value of \$35,000. A very important opportunity for any advanced Morgan dollar collector. DO NOT let it slip you by.

PCGS # 7117 | EST: \$6,000+

LOT 391

\$1 1880-O 80 OVER 79. PCGS MS64+ DMPL CAC

A very rare Morgan issue in DMPL, there is only a single coin graded finer, and this is the sole MS64+ DMPL. Brilliant and blazing reflective luster has smooth, ultra deep, smooth mirrors that provide dramatic contrast with the highly frosted, crisply struck devices. Under intense scrutiny we do note a few microscopic ticks that are outside the prime focal areas and do not detract from the overall and highly impressive eye appeal.

PCGS 9, NGC 3, CAC 2 This is the sole MS64+ DMPL graded and only one MS65 DMPL is graded finer at either service. This coin last sold in November 2016 realizing \$21,150. There are NO OTHER comparable APRs. However, if you are building a top tier DMPL collection this coin is an amazing piece for your set. We do expect record bidding.

PCGS # 97117 | EST: \$18,000+

LOT 392

\$1 1880-S PCGS MS67 CAC

An impressive Superb GEM that is well struck and highly lustrous with a very light dusting of pale, clear gold tone. Housed in an OGH.

PCGS # 7118 | EST: \$800+

LOT 393

\$1 1880-S PCGS MS68 CAC

An exemplary SUPERB GEM Morgan dollar. If you seek a sleek, lustrous, well struck, and amazing high end coin for your set, look no further.

The radial cartwheel luster is distinctly prooflike. The Ms Liberty and all the devices are sharply struck and fully frosted, creating a beautiful contrast between the reliefs and fields. A touch of toning seen at UNUM is fantastic, adding to the eye appeal. The cheek and fields are exceptionally clean, free of any distracting marks or ticks.

PCGS 211, NGC 307, CAC 158. There is a wide range of APRs from \$3,900-\$8,000+, but most sell in the \$4,000-\$5,000, and the current CU value is listed at \$5,000. This coin's eye appeal is exceptional and we would not be surprised if it brought a price in excess of our high estimate.

PCGS # 7118 | EST: \$4,500+

LOT 394

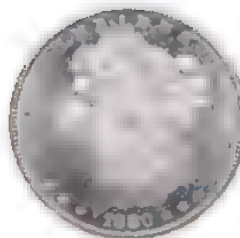

\$1 1880-S PCGS MS68+ CAC

This is one heck of a Morgan! It's hard to imagine how it survived for 136 years in this lofty state of preservation!

Flawless surfaces are silky smooth. There are light traces of semi-proof like mirrors. A velvety luster beams all over and brings to life a beautiful ring of auburn/blue that frames the rims. Majesty and the details enjoy thick frosting and full strikes. The eye appeal is phenomenal!

PCGS has graded only 24 pieces in MS68+! The last one to sell in auction brought \$21,150 in May 2016 and one sold for \$15,275 in April 2016. This coin should easily command that figure!

PCGS # 7118 | EST: \$15,000+

LOT 395

\$1 1880-S PCGS MS67 PL

A nicely reflective superb GEM offering full 4" + mirror reflectivity on both sides. Boldly lustrous and genuinely eye appealing. The reliefs are well struck and frosty.

PCGS 129, NGC 155. The last two examples to sell in auction realized \$1,528 and the current PCGS price is \$1,600. A lovely coin well suited for an advanced cabinet of Morgan dollars.

PCGS # 7119 | EST: \$1,100+

LOT 396

\$1 1880-S PCGS MS65 DMPL CAC

Superior to most MS65 DMPLs seen. Boldly reflective and deep mirrors contrast against highly frosted and well struck devices. The cheek is frosty and the very clean and high end quality.

PCGS 620, NGC 415, CAC 41. Clearly CAC has very tight standards for DMPLs. Rarely available in auction and the current CL value is listed at \$1,100. A very high end example and should see spirited bidding.

PCGS #97119 | EST: \$900+

LOT 397

\$1 1881 PCGS MS66 CAC EX SUNNYWOOD-SIMPSON

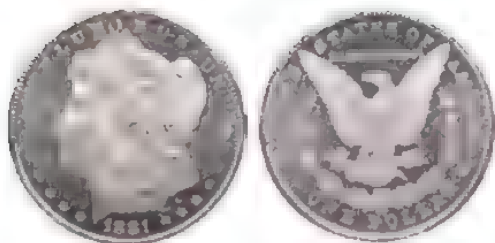

Sold as lot 140 in our historic offering of the Sunnywood-Simpson Toned Dollar set, where it was described as

"A beautiful, album-toned piece from Sanders Trading Co. which was graded MS66* by NGC. We agree with the MS66 designation, and feel that PCGS and NGC were a bit conservative. The pewter-toning break in the left obverse field is a hallmark of authenticity, and does not detract from the beauty of this piece."

This coin has terrific quality, with no problems of any kind and a strong luster that really adds to the already dynamic eye appeal. This is another date you rarely ever see with any real color."

It realized \$2,937.50 on a \$2,500-\$2,750 estimate

PCGS # 7124 | EST: \$2,500+

LOT 399

\$1 1881-CC PCGS MS65 DMPL

Boldly reflective, deep mirrors contrast wonderfully against the well-struck and frosty white devices. The vivacity to the luster and the mirrors do exaggerate the few tiny ticks seen on both sides, none of them are individually distracting.

PCGS 207 / NGC 92. The current PCGS Price Guide value is \$3,300 and the most recent example sold in auction for \$2,585. A nice coin for the DMPL collector or advanced CC dollar collector.

PCGS # 97127 | EST: \$2,300+

LOT 398

\$1 1881-CC PCGS MS64 DMPL

Any seriously picky DMPL Collector WILL love this GEM

Superior mirrors are a full 8-9" deep and beam boldly from all over. Only a few very tiny ticks are scattered about both sides. Nothing is major or stands out. The contrast is super, super strong. Miss Liberty and the details are fully struck and are thickly frosted. This is also a rare 1881CC DMPL that does not have the grease dot on the cheek. The eye appeal is tremendous!

PCGS 475 / 282, CAC 8. The last PCGS CAC piece to sell in auction brought \$2,585. We think once you see this coin you will more than agree it's worth it. This certainly is not a DMPL you have to imagine it to be what is described.

PCGS # 97127 | EST: \$1,750+

LOT 400

\$1 1881-S PCGS MS64 CAC

Richly toned with soft rose, hints of teal, bold eggplant-purple, accents of gold and cobalt blend together on the highly lustrous surfaces. A few ticks do appear under magnification, but the overall eye appeal is superb for the assigned grade. You know that in order for LRCA to offer this coin in a Regency Auction, the color really has to be special, and we rate the colors as a 9+ on our 10-point scale.

PCGS # 7130 | EST: \$600+

LOT 401

\$1 1881-S PCGS MS66+ CAC

Clearly a Northern Lights wannabe! This coin could have been in the set if it had been offered when we were building it.

Technically this coin is all there and then some. The obverse is remarkably clean, while the reverse (using a strong glass) does have a few tiny ticks. A full booming luster makes the iridescent colors really pop. A sensational rainbow of gold/honey/baby blue/violet/deep pearl green/royal blue form a memorable pattern on the obverse. We unhesitatingly rank the colors a full 9+ on our 1-10 color scale (10 is the finest). Miss Liberty and the details are all sharply struck. The eye appeal is phenomenal.

If this had been in Northern Lights, it probably would bring \$4-5,000.00 in a massive bidding war. Yes, it is that kind of color! Good luck!

PCGS # 7130 | EST: \$2,250+

LOT 402

\$1 1881-S PCGS MS66+ CAC

WOW! Even after five sessions of the Northern Lights Collect on, this amazing toner really captivates us. In fact, if we were still adding coins to that world class cab net, we would unhesitatingly have added this marvelous coin to it. First technically this superb gem is all there in terms of quality. A bold cartwheel luster shines on both sides, the surfaces are clean and free of any significant marks, and the strike is complete and very sharp. What sets this coin apart is its Yuletide toning. One look at the deep pine-green, emerald, teal, magenta, rose, and crimson hues, and you are transported to December 25th. You can see the textile toning pattern on Liberty's cheek where the canvas bag was in direct contact with the coin. The reverse is mostly untoned, and nearly fully PL. We rate the color a 9+ on our 10 point color scale.

The eye appeal is marvelous! If you are building a world class collection of MONSTER toned Morgans be prepared for a full out bidding war! We can see this superb coin bringing a runaway price. Good luck!

PCGS # 7130 | EST: \$9,500+

LOT 403

\$1 1881-S PCGS MS67

Brilliant, semi-PL. Lustrous fields are accented by a band of rainbow toning at the lower obverse that covers about 20% of that side. A more subtle arch of rainbow pastel descent hues are seen about the periphery. The eye appeal is quite nice!

PCGS # 7130 | EST: \$1,200+

LOT 404

\$1 1881-S PCGS MS67+ CAC

If this coin had been around when we were building Northern Lights, we would have included it. Besides the stunning colors, this coin really is SUPER HIGH-END!

Immaculate surfaces are sleek and smooth. A full dripping wet luster really makes the coin dazzle. A full rainbow of cascading original colors of gold/baby blue/violet/pearl green/violet covers about 1/3 of the obverse. We rank the colors a full 9 on our 1-10 color scale (10 is the best). Miss Liberty and every detail are fully struck. Her cheek is beyond amazingly clean too. The eye appeal is sensational!

This coin should be valuable on BOTH the SUPER HIGH-END quality (and we mean SUPER HIGH-END) and the colors. We can see frenzied bidding here. Good luck!

PCGS # 7130 | EST: \$2,000+

LOT 405

\$1 1881-S PCGS MS67+ CAC

Exceptionally lustrous and blemish free, this coin's remarkable quality is finer than some MS68s we have encountered. Untoned, the eye appeal is superb indeed.

PCGS has graded 222 coins in MS67+ and the most recent PCGS/CAC example brought \$1,469 in February 2017. Keep in mind that a PCGS MS68 will cost about \$5,000+. What a looker!

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you.

LOT 406

\$1 1881-S PCGS MS68+ CAC

We have sold a few 1880-S in MS68+, but we have not seen any 1881 S PCGS MS68+ CAC ever offered. This coin is a real MS68+ and is spectacular!

Bold semi prooflike (nearly fully PL) surfaces are just about near full perfection. Even using a strong glass there really is nothing to see. The mirrors easily a good 4" +. The mirrors also are just about perfection in terms of cleanliness and clarity. The reflection is tremendous. Miss Liberty and the details are thickly struck and old time creamy white and are fully struck. The eye appeal will make your jaw drop and lock. You just can't find a finer 1881S!

PCGS 151, NGC 262, CAC 112. PCGS has graded 14 MS68+ pieces. The last one to sell in auction brought \$18,213 in January 2017. The current Collector's Universe value is \$21,500. We think this coin will easily bust through that number. This is a Morgan that has it all!

PCGS # 7130 | EST: \$18,000+

LOT 407

\$1 1882-O/S STRONG. PCGS MS64

A conditionally rare and popular mintmark variant in the Morgan dollar series. MS64 is the highest obtainable grade for most Collectors as it is EXCESSIVELY RARE in MS65. A pleasing mint luster blooms across both sides of this nicely struck MS64. Hints of color appear when rotated in a light. The quality is rather decent.

PCGS 324, NGC 187. Generally bringing between \$1,100 and \$1,500 the current CU value is listed at \$1,750. Keep in mind that there are 21 in MS64+ and 2 in MS65 finer and that is it! Most Collectors will have to settle for a MS64 and this one is certainly quite nice.

PCGS # 7138 | EST: \$1,100+

LOT 408

\$1 1883-O PCGS MS66 DMPL

This is truly a spectacular DMPL Morgan. Exceptional black and white cameo-like contrast between the blazing reflective fields and essentially snow white cheek. The surfaces are generally very clean. The strike is razor sharp for the issue, with all of Ms Liberty's hair details, eagle's feathers fully and crisply struck up. We do note two parallel lines that blend in with Liberty's lower hair curls that are mint made. We have had some discussion whether it is die grease or planchet sag but either way it is part of the manufacturing process and does not affect the grade.

A very low population, in 66 DMPL, and there are none graded higher. Our consignor says that this one is fresh to the market, and we have not been able to locate this specimen in any recent auction. This is the current PCGS CoinFacts plate coin.

PCGS 21, NGC 3. There are NONE FINEER in the DMPL designation at either service. The more recent examples to sell in auction did not have the stunning eye appeal of this GEM. The most recent example was in June 2016, which realized a very cheap \$3,995. The other two sold since 2008 sold for \$4,583 and \$4,935. The current PCGS Price Guide value is listed at \$5,500 and it is possible that this coin will surpass that level.

PCGS # 97147 | EST: \$4,500+

LOT 409

\$1 1884 PCGS MS65 DMPL

Another very scarce GEM grade DMPL. A light silver white tone dusts over the deeply reflective mirrored fields. The devices are well struck and very frosty, and they have decent contrast against the watery fields. The luster is superb and the eye appeal is strong.

PCGS 33, NGC 14. The most recent example to sell in auction brought \$3,995 in the 2017 FJN auction. Most examples sell in the \$3,000-\$3,500 range and the current PCGS value is listed at \$4,200. Only 9 are graded finer. Another DMPL opportunity that should not be missed.

PCGS # 97151 | EST: \$2,800+

LOT 411

\$1 1884-CC PCGS MS65 DMPL CAC

WOW! Not only is this coin high end, it is a monster as well.

The mirrors are a MINIMUM of 10" deep. This coin will make an Ultra Cameo Proof Morgan look dull! Of course, there are just a few scattered ticks visible-NONE are serious or are detracting. Our sister company, Legend Numismatics, tried for 2 shows to buy this coin and now the owner relents and puts it in our safe unreserved. We will not compete with our customers for it (we are bummed). Miss Liberty and every detail are fully struck and have intense thick frost. The eye appeal is jaw dropping!

PCGS 650, NGC 292, CAC 82. It really does not matter that the last 84-CC MS65 DMPL to sell in auction brought \$1,880 in January 2017. This coin blows 99% of all others away! Seeing is believing. We love this coin and we believe you will too. We expect really strong bidding here.

PCGS # 97153 | EST: \$1,750+

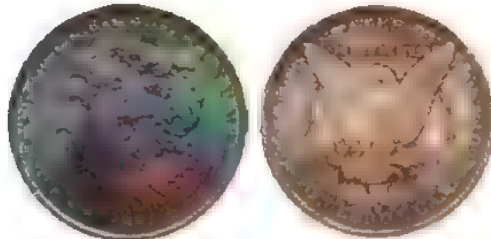

LOT 410

\$1 1884-CC PCGS MS66+ CAC

A very cool, originally toned GEM 84-CC! Splashes of earthy, autumnal toning grace the obverse which are quite vivid when the bold luster catches a light. The reverse is untoned. Save for a small cheek mark that is hidden by the toning, the coin is nearly full superb quality.

PCGS 2165, NGC 1852, CAC 584. Of those graded by PCGS, 269 have graded 66+. Keep in mind that the populations do drop off dramatically in finer grades. The current PCGS Price Guide value is listed at \$1,450 and most examples that appear in auction do not have attractive toning like this one.

PCGS # 7152 | EST: \$1,400+

LOT 412

\$1 1884-O PCGS MS64+ CAC

This coin clearly flirts with "monster" recognition. The grade is certainly accurate. Using a strong glass, you can see a tiny tick or two scattered around. A strong luster makes the awesome totally original colors of emerald green/magenta/blue on the obverse stand out. We rank the colors a full 9 on our 1-10 color scale (10 is the best). The reverse has a cool "old time" toning look. Miss Liberty and the details are fully struck. Her cheek is clean and rotates with the colors. The eye appeal is great. We do expect strong bidding here.

PCGS # 7154 | EST: \$1,500+

LOT 413

\$1 1884-O PCGS MS66 DMPL CAC

Highly reflective, deep mirrored fields contrast against the well struck and fully frosted devices. The mirrors reflect at a full 8°, and are free of all but the tiniest ticks. The eye appeal is exceptional.

PCGS 58, NGC 11, CAC 9. Only two coins are graded finer at PCGS, a 66+ and an unbelievable MS68 DMPL. The most recent PCGS MS66 DMPL CAC sold for \$3,878 in August 2016 and the current PCGS Price Guide lists a value of \$4,350. What a wonderful coin for any GEM DMPL collector!

PCGS # 97155 | EST: \$3,750+

LOT 414

\$1 1885 PCGS MS65 CAC

Another Northern Lights wannabe. This piece easily would have made the set.

Why PCGS did NOT designate this coin an MS66+ is a mystery. The technical quality is all there. Even when using a strong glass, you only find a scattered tick or two. A full booming luster makes Mother Nature's artwork really appear in 3-D like form. Outrageous colors of gold/violet/navy/deep green all swirl all over the obverse. We rank the colors a full 9+ on our 1-10 scale (10 is the best). If this were a painting, you'd proudly hang it on the wall and make sure to view it every day. You can't beat this coin's eye appeal.

PCGS # 7158 | EST: \$2,500+

LOT 415

\$1 1885 PCGS MS66 DMPL

Razor sharp in strike, the highly frosted and fully defined devices contrast against deep, chrome-like mirrored fields. The mirrors are clear, free of any singularly distracting marks or lines, the frosty cheek is clean and smooth. The eye appeal this GEM is superb.

PCGS 90, NGC 52. Non-CAC DMPLs have been consistent in auction, with several of the most recent examples bringing \$2,585 and the current PCGS value is listed at \$3,700. Only four coins are graded finer. We think you will like the quality.

PCGS # 97159 | EST: \$2,300+

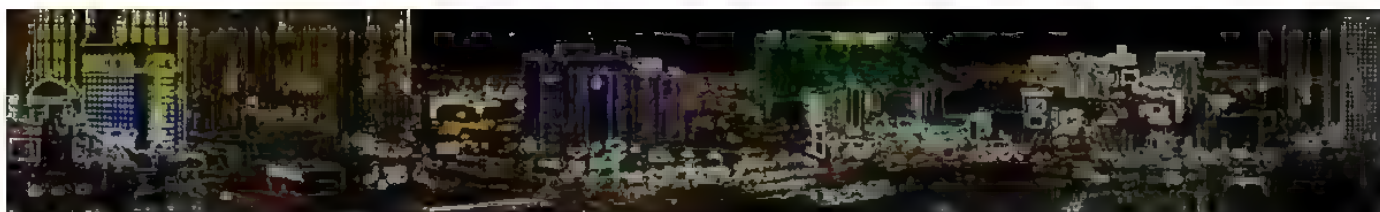

LOT 416

\$1 1885-CC PCGS MS66 CAC

A PQ gem with full frosty luster and a decent strike. The surfaces are free and clear of any marks or scuffs of any size.

PCGS 1185, NGC 1037, CAC 274. The PCGS Price Guide value is listed at \$2,200 and the most recent example to sell in auction brought \$2,056 in September 2016.

PCGS # 7160 | EST: \$1,800+

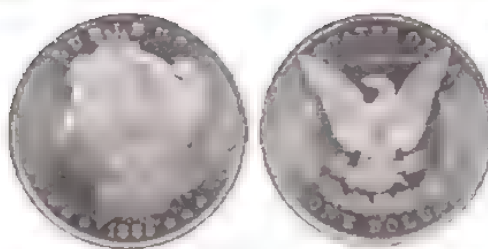

LOT 417

\$1 1885-O PCGS MS65 CAC

Entrancing angular bands of untuned silver contrast against neat autumnal toning with accents of blue, rose, teal, and magenta. This coin is the definition of end roll toning, with a completely untuned reverse and original silver where the paper folds did not touch the surfaces of the obverse.

PCGS # 7162 | EST: \$1,800+

LOT 418

\$1 1885-O PCGS MS65 DMPL CAC

A nice DMPL dollar, better than is often seen for this date, as evidenced by the CAC bean. Untuned, blazing silver luster shows smooth clean surfaces and deep mirrors. Ms. Liberty's portrait and all the details are fully struck and frosty white, which contrast wonderfully against the reflective fields.

PCGS 216, NGC 142, CAC 28. The populations drop off dramatically from here. The only PCGS/CAC coin to sell in auction sold in the 2016 ANA Auction, selling for \$940. The current PCGS value is listed at \$1,100.

PCGS # 97163 | EST: \$850+

LOT 419

\$1 1885-O PCGS MS66 DMPL

Deeply mirrored fields show some light silver white toning. The sharply struck devices are bright frosty white and they contrast against the watery mirrors. Aside from a tiny mark, the cheek is very clean.

PCGS 50, NGC 20. There is a wide range of APRs for those that have appeared in auction, from \$2,115 to \$5,175. The current PCGS Price Guide value is listed at \$3,950. There are only three coins finer in the DMPL designation. A highly desirable DMPL and a coin that should see spirited bidding.

PCGS # 97163 | EST: \$2,000+

LOT 420

\$1 1885-O PCGS MS66+ DMPL CAC

Deeply mirrored fields and frosty white devices are remarkably free of any distracting marks or lines that would distract the eye. While the 85-O is a very common date in Mint State, and only moderately scarce in DMPL grades through MS65 DMPL, it is VERY rare in MS66 DMPL or finer. This remarkable GEM is tied for second finest certified at PCGS, with only a single coin finer.

PCGS 52, NGC 20, CAC 11. There are two coins graded MS66+ DMPL at PCGS, and one finer. This coin is from the 2017 CSNS auction, where it realized \$6,483 and the current CU value is listed at \$6,250. The eye appeal of this wonder coin is superb and should bring more in our offering!

PCGS # 97163 | EST: \$6,000+

LOT 421

\$1 1885-S PCGS MS64 PL

A very scarce and infrequently traded S mint Morgan in PL. Brilliant, reflective mirrors shine in the light and they do have nice contrast against the well struck and frosty devices. Ms Liberty and the eagle are exceptionally crisp in definition. Intense scrutiny with a strong glass does reveal a few teeny marks, but none are singularly distracting. Scarce in this grade, and RARE any finer within the PL designation.

PCGS 56, NGC 99. The last MS64 PL graded by PCGS sold for \$3,055 in the April 2014 CSNS auction. The current PCGS Price Guide lists it at \$3,000. Only 13 are graded finer, with MS65 PLs being worth \$8,000+. Good luck.

PCGS # 7165 | EST: \$2,500+

LOT 422

\$1 1886-O PCGS MS64+

A classic Morgan dollar condition rarity, there are only 3 coins graded higher at PCGS than the presently offered 64+, that is out of a mintage of well over 10 million! For the date the presently offered 86 O has a strong strike with most of Liberty's hair detail and eagle's feathers well defined. A rich satiny mint bloom with pearly silver accents shines in the light on both sides, and the surfaces are clean—free of any serious marks or scuffs, even on Liberty's cheek.

PCGS 23, NGC 2. There are three coins graded finer, two in MS65 and a single 66+. The last MS64+ sold in June 2014 (three years ago) for \$15,275. Keep in mind that CAC approved examples were selling for \$21,150 to \$38,188 going back to 2010; the current PCGS Price Guide value is \$22,500. In MS65 if you could even find one, would cost in excess of \$150,000. This MS64+ represents the highest grade that the majority of Collector's can ever hope to own. We expect strong bidding activity when this one crosses the auction block.

\$1 1888-S PCGS MS64+ CAC EX SIMPSON

Last sold in our Regency IX Auction, described as: "At first glance, this looks like an 82-S, not an 88-S and we actually believe the colors on this piece are more exciting than the ones on the 88-S in the main Sunnywood Collection! Both sides are graced with a full booming luster, and there are slight hints of semi-proof-like mirrors, which reveal only a few very tiny scattered ticks. The obverse is a swirling mix of vibrant, original forest green/gold/violet/pale navy/aqua green, while the reverse has a blush by the rims only. This coin is a true MS64+, but the colors are definitely an MS68. If you're looking for a wild 88-S this is it! We are pleased to offer this date and grade with such dramatic eye appeal!"

Conditionally scarce any finer, making this coin a great value. It realized 1,351.25 in our sale of the Sunnywood Simpson Collection. We think today, it could bring that or more. Good luck.

LOT 426

\$1 1888-S PCGS MS66 CAC EX SUNNYWOOD-SIMPSON

Sold in our October 2014 offering of the Sunnywood-Simpson Collection where it was described as

"The 1888-S dollar, like the other "S" mints from 1885 through 1891, becomes quite scarce at the MS66 level. With a PCGS pop of only 18 at this level (and 2 higher), the chances of finding one with an attractive colorful obverse becomes very small. For that reason, a coin like this is actually a rare treasure for the Sunnywood Collection. We also really loved the MS64 that was replaced by this coin; that beautiful coin can still be seen in our duplicates set on the Registry. From the Morris Silverman Collection, Heritage, (4/27/02 4210), Jimmy G. Collection, Heritage, Long Beach (2/14/08 1288); Heritage, FLN (1/9/09 4618).

You'll find few imperfections on this high end piece, even with a strong glass. Both sides are highly lustrous and quite colorful."

You really have to see this coin in hand to appreciate it. The surfaces are amazingly clean and emit a surprisingly strong luster. The eye appeal is great!"

Finding a really GEM 91CC DMPL like this is much harder than finding a needle in a haystack

Remarkable FULL 8" mirrors explode with flash from all over. Only a few very tiny and scattered ticks can be seen. NONE are big or hurt the coin's grade or eye appeal. The mirrors remind you of the kind you see on a Proof: they are crystal clear and also have no haze. Both sides are untoned. Miss Liberty and every detail are above average in strike. The contrast is really vivid. All of the devices are covered on a thick frost. The eye appeal is great!

PCSG 4, NGC 1, CAC 1. There are NONE graded higher. NO PCGS MS 65 DMPLs have ever been sold at auction. The current Collector's Universe Value is \$49,000. How do you value something there is no record of it ever trading? We can NOT overstate this coin's quality and rarity. We value it \$50-\$60,000.00. Remember: it took 30+ years for this coin to surface and make it the 4th graded. That is nothing! This is a serious opportunity for the advanced DMPL collector to add a trophy coin to their set. Good luck!

LOT 430

\$1 1892-S PCGS AU58

An important condition rarity in the perennially popular Morgan dollar series. While the mintage of 1,200,000 is not high or low for the series, the vast majority of these were delivered into commerce where they remained for many years. The typical example seen grades in VF to AU50 grades. The presently offered slider offers bold reflective luster in the fields that contrast nicely against the well struck, frosty reliefs on the obverse and a full, rolling cartwheel luster on the reverse. There's a hint of friction on the high points and in the fields which defines the assigned grade. The eye appeal is certainly finer than many seen at this grade.

PCGS 127, NGC 134. We think there is duplication and multiple resubmissions of the same coin hoping for a coveted Mint State grade. We sold a PCGS AU58 in our Regency XX Auction in January 2017 for \$11,750 and two sold in March 2017 for about \$10,000 each. This coin is more eye-catching than those. The current Collector's Universe price is \$14,500. Keep in mind that a marginally finer MS60 would cost \$35,000-\$40,000 and would likely have many marring contact marks.

LOT 431

\$1 1892-S PCGS MS64 CAC

The grand highlight of our magnificent offering of Morgan dollars, this coin was consigned to us after being off the market for many years. The older holder proves that the quality of this piece is actually VERY high end. You can tell it sat totally undisturbed for many years.

Remarkable surfaces are insanely clean and smooth. We used a strong glass and found absolutely no problems of any size, anywhere. A moderate luster can be seen. We think all that keeps this coin from grading higher is its the "old time" totally original toning. The toning clearly is topical and is a mix of deep original white/faded golden brown color. This coin will fit into an all-white set. Miss Liberty and the details are sharply struck and do stand out. The eye appeal is excellent.

PCGS 8, NGC 5, CAC 4 (with only 2 CAC coins higher). The last PCGS CAC MS64 1892s to sell at auction brought \$94,875 in August 2012 (FIVE years ago). The only one we have seen in the last few years was an MS64+ we bought last year for \$142,500 (it too had original toning). We cannot say we have ever seen a frosty white piece. We expect serious and strong bidding from Morgan Collectors. Once this coin is sold, its back to the typical retread MS61-62 coins that can be found. Opportunity knocks loud here!

A dramatic looking, superb gem that is bordering on sheer perfection! Deep mirrors have a rich watery texture that really flashes in a light. The devices are deeply and sharply struck up from an exacting and precise strike. The reliefs are highly frosted, which contrast against the highly polished fields. A bluish toning, relegated to the peripheral areas are original and highly attractive. The Philadelphia mint really got the right combination of frosting the reliefs and polishing the fields in the years 1894 to 1898 with these dates showing extreme contrast and ultra eye appeal.

Only 762 proofs were struck. PCGS 2, NGC 6, CAC 3. The other PCGS coin sold for \$35,250 and it did not have the same eye appeal as the presently offered ultra GEM. 50C 1838 J-72. NGC PR67 EX NEWMAN COLLECTION

William Kneass's draped bust of Liberty wearing a diadem and ribbon inscribed LIBERTY on her head, and Christian Gobrecht's standing eagle with arrows and olive branch in its talons. Struck in silver with a reeded edge on a planchet of post 1853 weight (12.4 grams per NGC insert) suggesting a restrike status. Restrikes are regarded as R-5, and were produced sometime after 1858. The J-72 and the J-73 that follows are a personal favorite of the cataloger (GC).

Exceptional quality, full beaming mirrors sparkle below rich toning in with coppery orange in the centers and blue and purple at the rims. A full and complete strike compliment the awe inspiring surface quality. Close examination of the surfaces show an early state of the reverse die suggesting that this was an early restrike, before the die clashed, cracked and had to be lapped to remove those issues.

PCGS 0, NGC 2. This one, was in Eric P. Newman's collection for generations before being sold in the first group of selections sold in April 2013, realizing \$24,675. The other is a CAMEO, which has not been sold in auction since 2006. If you are an advanced pattern collector looking for the absolute FINEST grade coins, or looking to expand a collection of early half dollars, this stunner is for you. Always a popular issue, and should bring a strong price today.

LOT 441

50C 1838 J-73. NGC PR66 CAC EX ERIC NEWMAN

William Kneass's Draped Bust design on the obverse combined with Christian Gobrecht's interpretation of Titan Peale's upward flying eagle on the reverse. A restrike struck in silver with a reeded edge, considered to be R-6. This is an issue that both the "originals" and "restrikes" are struck from a shattered reverse die. With its weight and medal turn die alignment, this one is considered a restrike.

The quality of this coin is quite remarkable. First sold in April 2013 as part of a small selection of Eric Newman's coins, this coin had been off the market for many, many years. The exceptionally struck devices stand out boldly from the superior quality water-like mirrored fields. Long term storage in Eric's collector envelope (not included), imparted amber waves in the centers with rich cobalt blue at the peripheries. The reverse die shattered early on, and even originals struck in 1838 display them. By the time the restrikes were produced, likely in the mid-late 1850s (or later), the die cracks continued to grow. The present GEM has a great eye appeal, better than most known examples. Here is another early pattern issue that has great "cross over" appeal with Bust Half Nuts, half dollar Collectors and pattern specialists. It is also a generally available design, making it a great pattern type coin.

PCGS 2, NGC 2, CAC 2. As mentioned above, this coin appeared in a small selection of Eric Newman's collection, sold in the 2013 CSNS sale, realizing \$11,750. The only other CAC approved PR66 to sell was a PCGS coin that sold in the 2017 FLN auction for \$12,925. The presently offered coin, with its excellent provenance has a better eye appeal overall, and would fit into any special cabinet of coins! The present cataloger (GC) has always loved this pattern, and based on its potential appeal to so many different types of Collectors, at today's level it just seems too undervalued!

50C 1863 J-338. PCGS PR65 CAC

One of the so-called "transitional" patterns, featuring the regular issue obverse and a reverse similar to the With Motto type, 1866-1891, save for the motto is spelled out GOD OUR TRUST in the ribbon. Struck in silver with a reeded edge, this pattern is listed as R-5.

Rich watery, silver mirrors shimmer in a light from below a layer of dappled earthen hued patina with accents of cobalt, olive, and gold. The fields show some minor hairlines which mix with swirling die polish lines. Regardless, the eye appeal is superb.

PCGS 1, NGC 2, CAC 2. None are graded finer. This used to be the NGC-graded coin sold in the January 2009 Queller-Lemus Collection. There are no other records for this Judd number, and it realized a record \$4,888 in that January sale. It has not been offered at auction since. We think today, with some of the new pattern Collector's today, this should sell for more today!

The mint struck sets of copper die trials to Collector's, in 1867, about a half dozen or so such coins from each denomination are estimated to survive. These were all struck using regular proof dies on copper planchets. One such set was in the T. Harrison Garrett Collection, which passed to John Work Garrett and donated to Johns Hopkins University. In 1976 a selection of these coins were auctioned by Stack's, where this coin was offered as part of lot 677.

A wealth of original brilliant RED mirrors glow in a light. Accents of fuchsia, pale violet, and stunning deep brick blend over the GEM quality surfaces. There are a couple of tiny flecks that will forever identify this GEM as the Garrett coin.

PCGS 2, NGC 3, CAC 1. This is arguably the finest known examples of this rare Judd number. Rated as an R7+, this GEM will be a centerpiece in any advanced collection of pattern coinage. Good luck!

A beautiful example of William Barber's Seated Liberty type, struck in silver with a reeded edge, this coin is rated R-7- (with approximately 7-12 examples known). Boldly mirrored fields have a lovely watery texture. Under the lovely multicolored iridescent toning, the mirrors are clean, clear, and visible from across the room. A halo of rainbow color hugs the periphery of both the obverse and reverse with a light dusting of clear, reddish-gold patina in the centers. The details on both sides are FULLY struck and the overall eye appeal of this GEM is superb.

PCGS 2, NGC 2, CAC 2. This coin is likely counted twice in the Population reports. The last time a PCGS graded J-933 to sell in auction was back in October 2015, where one sold for \$12,075. More recently an NGC/CAC coin sold for \$5,750 in a September 2013 auction. PCGS has a value of \$8,500 currently listed in their Price Guide. OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collectors can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you.

\$1 1871 J-1148. PCGS PR66 RB CAC

R-7+ 4-6 Mnted. Struck in copper with a plain edge

Too bad this design never made it into coinage. It is beautiful. The obverse features Longacre's Seated Indian figure of Liberty and the reverse is the standard proof die for the year. This coin is extremely high end. We see no reason why it is not a +; its owner has tried and is frustrated.

Outstanding deep mirrors vividly beam from all over. Copper coins rarely offer powerful mirrors like this: totally clean and clear. A kaleidoscope of totally original almost neon-like colors blazes from both sides. The colors include bold brown/crazy violet/blue/gold/purple that vividly swirl all over. Very similar surfaces to bronzed copper medals produced at the mint. There are NO spots or discolorations. Miss Liberty and every detail is sharply struck and does have thick frost. The eye appeal is awesome!

PCGS 3, NGC 0, CAC 3 (we think years ago this coin was resubmitted). You can't top the electricity of the colors and the flash of the mirrors here. This is a supreme example of a tough Longacre design that was a near miss to become a regular US coin design. This will be a stunning fit in any one's superb pattern collection.

50C 1877 J-1515. PCGS PR66 BN CAC

A true prize for any collector—a GEM Morgan pattern half dollar. These very rare patterns have an appeal outside of the specialty, sometimes collected alongside advanced sets of Morgan dollars. Morgan's Liberty facing left is framed by a beaded border and E PLURIBUS UNUM and stars around. The reverse shows a standing eagle, wings outstretched a cartouche with IN GOD WE TRUST and arrows and olive branch in his talons. Struck in copper with a reeded edge, this exceptionally rare pattern is rated as R-7+ (fewer than half a dozen estimated to be known).

Richly toned copper surfaces are deeply reflective and show varying shades of brown, gold, and green hues. The obverse is razor sharp; some of the highest points of the central reverse devices are mostly complete with only slight weakness in the breast feathers. The eye appeal is exceptional.

PCGS 1, NGC 0, CAC 1. There are no records for this coin in auction. An NGC PR65 BN sold in October 2010 for \$23,000 and a coin in ANR's June 2005 auction graded PR67 BN by NGC sold for a whopping \$80,500, a coin that is now ensconced in the Bob Simpson Collection. This coin is the second finest example. There is a current value of \$37,500 in C.J., and the 10th edition of Judd lists a \$42,000 value in PR65. This is a very important issue for any advanced collector and should sell for a strong price. Good luck!

\$1 1879 J-1615. PCGS PR67+ CAM CAC

A spectacular Morgan dollar pattern that is rarely seen, and this one is clearly one of the **FINEST** that exists!

A regular issue proof obverse die was paired with a reverse of an eagle perched on an olive branch and arrows designed by William Barber. Struck in silver with a reeded edge, it is considered R-6-, with about 21-30 known in all states of preservation. This design was a proposal to replace the reverse on the then current Morgan dollar in response to criticism that the reverse eagle was too "scrawny."

The presently offered **SUPERB GEM** has bold cameo contrast between frosted reliefs and deep, watery mirrored fields. A classic blend of gold, violet, green, and blue hues fail to hide the impressive reflection of the flawless mirrors; the toning is especially impressive on the reverse. Only a slight weakness of strike which is seen on all known examples appears on the highest central portions of the design.

PCGS 1, NGC 0, CAC 1. PCGS does list two coins as PR68 CAM, but we think that it represents only one coin, the Wayne Miller Bob Simpson coin, which is also the Plate Coin in the Judd reference. This impressive coin was NGC PR68 CAM, a coin that our sister company handled many years ago. These Morgan dollar patterns are a great side specialty for advanced Morgan dollar Collectors who want to add something sexy to their sets. The presently offered GEM J-1615 certainly offers a **TON** of appeal and is bound for a world class cabinet!

Excess vely rare pattern Pan-Pac half dollar struck in copper without the S mintmark. These were struck at the Philadelphia mint prior to the dies being sent to San Francisco for striking. Rated as Rarity-8 in the 10th Edition of the Judd reference, there are perhaps 3-4 examples currently known. Pleasing bronzed red/brown patination with some old minor flecks noted under close inspection. Well struck and extremely eye appealing. Congress authorized an ambitious commemorative program celebrating the opening of the Panama Canal which was distributed by enterprising numismatist Farran Zerbe at the Panama Pacific Expo. The set contained a half dollar, gold dollar, a gold quarter eagle, and two \$50 gold pieces. As the dies were finished, some impressions were made in copper prior to the addition of the mintmark. Some believe that this was done for the benefit of Treasury Secretary William McAdoo who was a coin collector himself.

PCGS 1, NGC 0. This is the absolute finest graded by either grading service, indeed NGC does not show a single listing in their Census. The stunning Newman Collection coin is now in the Simpson collection of pattern coinage, and will be off the market for a long time. We expect that when this coin crosses the block, there will be much bidding activity coming from both advanced commemorative collectors, students of pattern coinage, and simply connoisseurs of rarity. The Newman coin, graded NGC MS66+ RB, which had most of its original mint red, intact realized nearly \$200,000 in April 2013.

\$5 1849 MOFFAT. PCGS AU53

K-5. A popular territorial issue, struck by John Moffat's operation. According to testimonials, Moffat's assaying abilities compared favorably to those at the U.S. and British Royal mints as well as an endorsement from Secretary of the Treasury, R.J. Walker. First issuing ingots, by July 1849, these \$5 and \$10 coins, struck using similar motifs as the federal issues were designed by George Kuner.

The presently offered example shows some light wear and a pleasing light gold coloration. A few scattered marks do attest to honest work in good rush commerce.

PCGS 8, NGC 9. No PCGS AU53 has ever sold in auction, and the last NGC example sold over eight years ago, rendering that record obsolete. The PCGS Price Guide value is listed at \$7,600 and we think that this coin could sell for that, as it has good eye appeal.

LOT 454

25C 1883 HAWAII. PCGS PR67 CAM CAC

We unhesitatingly call this amazing SUPERB GEM the FINEST KNOWN Hawaiian Quarter in Proof! It is a wonder that this coin survives in such a wonderful condition! Only 26 proofs were struck for VIPs at the time.

Deep, watery mirrors beam from all over. The fields are icy smooth and remarkably clean, free of any hairlines, regardless of how microscopic. A wonderful halo of blue and amber patina frames the obverse's brilliant silver centers. The reverse is draped in a dramatic cobalt and crimson toning throughout, and a swirl in the light reveals teal, gold, and violet hues that clearly sparkle. The sharply struck devices are extremely frosted and contrast against the heavily mirrored fields.

The Kingdom of Hawaii did not become an official territory of the United States until 1898, but in 1883, King Kalakaua I commissioned the U.S. mint to strike a series of silver coins. Designed by William Barber, the obverse displays a portrait of the king facing left; the reverse shows the kingdom's Arms. This series has multiple levels of appeal, including advanced U.S. type collector's, Territorial collector's, and since Hawaii was technically a separate kingdom, world coin collector's.

PCGS 1, NGC 0, CAC. The only comparable example to ever sell in auction was the glorious NGC PR66* JCAM that was part of an original proof set sold in Stack's November 2008 auction that sold for \$43,125 (listed as a record price by PCGS CoinFacts). The presently offered coin IS NOT that coin! There is NO value listed in the PCGS Price Guide. Prepare to bid liberally to win this amazing superb proof Hawaiian quarter. This coin has no peers!

LOT 455

1858 PROOF SET PCGS PR65-67 EX SIMPSON

This is one of the most amazing intact original proof sets we have ever seen or handled. It is from an original group of proof sets that had been in a family since they picked each coin directly from the Mint in 1858! The quality and eye appeal of this set are incredible. After studying each coin you'll be able to tell that they've been stored together since 1858. These are not your average worn/partially problem or hazed up coins you see offered in most Proof Sets today.

We don't think this is a common set by any stretch, especially since we haven't seen any 1858 sets offered over the last few years. And the few that have surfaced are far lesser grades. This set is clearly a once in a lifetime opportunity for any collector. The current total Collector's Universe Value is \$170,250. When we last sold this set it realized \$170,375 back in July 2014. Today, we strongly believe this set is worth much more. This is a wicked cool keepsake set.

1C SMALL LETTERS. PCGS PR66 CAC

We suspect a lot of copper Collector's would kill for this incredibly high end coin if it weren't in the set. The mirrors are surprisingly deep, clear, clean, and have real reflectivity, without a single imperfection to be found. A natural layer of golden brown toning evenly blankets both sides. Every detail is needed sharp in strike and has strong frost. We could see this coin selling for a record price if it were on its own, so this is one heck of a 1C to anchor a Proof Set with!

3CS PCGS PR67 CAC

Aside from one tiny planchet chip and a few light die polishing lines, this coin is basically problem free. Overall the mirrors are clean, deep, clear, and have bold reflectivity, while the colors are the same pale champagne/gold/blue as the others. Every detail is pinpoint sharp and has thick frost. This is definitely a special 3CS Proof!

H10C PCGS PR65+ CAC

This glittering gem has a small line in the left obverse field, but is otherwise free of issues. The mirrors are deep, clear, and have strong reflectivity while the matched toning is a little thicker on all surfaces. Miss Liberty and the details are frosted and have sharp strikes. This is a pleasing coin!

10C PCGS PR66 CAC

We see little reason why this extremely high end piece is only a PR66. There are no real die polishing lines, and the mirrors are incredibly clean, clear, deep, and have bold reflectivity. The deep champagne/pale blue/pale purple toning is moderate and matches the rest of the set. Miss Liberty and the details are frosted and have full strikes. The eye appeal is great!

25C PCGS PR65 CAM CAC

A small lint mark can be seen in the right obverse field, but otherwise, the watery mirrors appear clean, clear, deep, and intensely reflective. The toning is a little lighter but still matches the rest of the set. Miss Liberty and the details are frosted and have full strikes. Finding true gem 1858 25C pieces is harder than most would realize. This is definitely a special coin.

50C PCGS PR66 CAC

Fabulous! Deep mirrors are crystal clear, clean, and exhibit powerful reflectivity. You can see a few scattered, Mint made die polishing lines through a strong glass, but this coin has never been altered in any way. The toning is more moderate with a little more purple toning. Miss Liberty and the details are thickly frosted and fully struck. This is a very nice coin.

\$1 PCGS PR65+ CAC

This may be the finest 1858 \$1 Proof in existence! We certainly can't imagine a better specimen. The mirrors are deep, with stunning clarity, cleanliness, and remarkably intense reflection. Because the toning is slightly irregular, it looks as though there are some lines when in fact it's merely the toning. Miss Liberty and the details are thickly frosted and have bold strikes. The eye appeal is incredible! We hope this set remains intact and isn't broken up in order to get at this magnificent coin!

LOT 456

1892 PROOF SET 1C-\$1 PCGS PR65-66

An extraordinary opportunity for the astute numismatist as original, matched Proof Sets from this period are extremely rare. Virtually all were broken up long ago. Here is one of the very few that survived intact and not only intact, but with each coin retaining the gem level of preservation.

1C PCGS PR65RB

Glorious and fiery golden red shades blend with violet hues on the devices. A few trivial specks are present but the eye appeal and colors are simply astounding.

5C PCGS PR66

Boldly reflective mirrors fall away from the frosty devices. A thin veil of original toning is present, a testament to the originality of this set. Free of any signs of contact and a delight to behold.

10C PCGS PR66

Glassy royal blue blends with tinges of green shimmering on both sides, of course this is the first year of issue of the new Barber series, and this gorgeous gem shows perfect striking matched with careful preservation.

25C PCGS PR66

Perfectly matched to the dime, and the other silver denominations in this set with an eye-catching blend of blue, green and gold that flashes with reflectivity when examined.

50C PCGS PR66

A mate to the other Barber coins in this set with deep watery fields that surround the frosted devices, bathed in flashy blue toning with a dash of lilac and russet to the centers. Incrédible surfaces continue with this half dollar.

\$1 PCGS PR66

Topping off this original set is the Morgan Dollar, again the toning is a rich blend of royal blue, lilac russet with tinges of bright gold. Watery reflectivity is apparent when examined and free of any detractors. The strike on this Morgan Dollar is absolute and precise.

It would be hard to imagine a more original and desirable 1892 Proof Set. These coins have obviously been held and stored together since the time of issue, acquiring exceptionally rich toning in the long journey on the silver pieces. What remains of considerable interest is the high quality of the set, which confirms these coins were carefully handled, if ever handled, with the greatest care to retain such exceptional quality. We doubt more than a handful of the 846 minted sets still exist! This is a dazzling set and an incredible opportunity. NOTE: This lot was sold in our Regency XIX Auction, December 2016 where it realized \$16,450. The buyer defaulted on the purchase and thus is being re-offered here.

What an amazing fully contrasted DMPL! At first glance, you will think it is a proof

When you twirl the coin, it is like looking at a glittering proof. Deep mirrors are virtually perfect with strong reflectivity and no haze. To prove it is Mint State, you can see a tiny die clash line or two. Both sides are a pure gold color. Miss Liberty and every detail are needle sharp in strike and are fully struck. For a small coin, it has an incredible amount of eye appeal that actually can see from across the room.

ONLY 7,100 were minted. PCGS 5, NGC 4, CAC 4. The last PCGS CAC 1866 to sell in auction brought \$25,850 in February 2014. This certainly is not a date or grade that you see ever offered. We think there will be strong bidding on this coin not only because of its rarity, but it has a killer contrast!

At first glance you think WOW, this is a proof! It clearly offers a cameo appearance. The quality is really VERY high end!

Superb surfaces have no eye sores or problems. Only with a strong glass can you find a pinpoint fleck (its dead and has NO PVC on it). The mirrors are super clean, have great clarity, and offer a bold reflection. The color is a totally original swirling yellow/orange gold color. There are NO discolorations or spots. Miss Liberty and the details are fully struck and thick frost. The eye appeal is exceptional!

ONLY 1,200 were ever struck. PCGS 4 NGC 3 CAC 4. This coin last sold in February 2016 for \$16,450. When it sold in the sale of Dr. Duckor's collection, this AMAZING coin sold for \$30,550. The collector who purchased it has since changed directions into another Gold series. The current Collector's Universe Value is \$20,000. PCGS 105, NGC 275 CAC 22. The most recent PCGS/CAC coin to sell in auction realized \$2,291 in the 2016 FUN auction and the current PCGS Price Guide value is listed at \$2,400. A neat looking type coin for any collector.

A truly wonderful and ORIGINAL Class of Head quarter eagle. Rich golden surfaces show a frosty luster that dazzle the viewer's eye and captivate your attention. A bold strike shows only a little weakness in the highest portions of the central devices of both the obverse and reverse. All that keeps this remarkable coin from a full GEM grade are some tiny little ticks that you need a strong glass to see.

PCGS 10, NGC 2, CAC 2. There is only one coin graded MS64+, and this coin last sold for \$14,100 in April 2016. There is an auction record from 2010 for one that sold for \$21,175, but we do not know if it is an earlier appearance of this coin or if it is now residing in a MS65 holder. None of the three MS65s have ever sold in auction, and the finest is the Bareford-Bass-Pogue coin that sold in September 2015 for \$61,688. \$2.50 1848-D NGC AU55

A crulsty, original Choice AJ coin with rich reddish-orange gold patina and some "dirt" that clings to the recesses around the well-struck devices. Very little wear is noted and we do see a few teeny marks from its very brief stay in commerce. Only 13,771 were struck, and while Dave Akers, Ron Guth, and Jeff Garrett say that it is one of the more common dates, that is only true in grades up to XF; they are very scarce in higher grade AU.

PCGS 25, NGC 30. The most recent 48-D quarter eagle to sell was an NGC coin that brought \$2,820 in January 2015. This original and very pleasing example should bring more.

\$2.50 1855-C NGC MS65

An exceptionally RARE Charlotte mint gold coin, the lowest mintage quarter eagle from that mint, with only 3,677 coins struck. This remarkable GEM is tied for FINEST graded for the date, the other being the Bass coin.

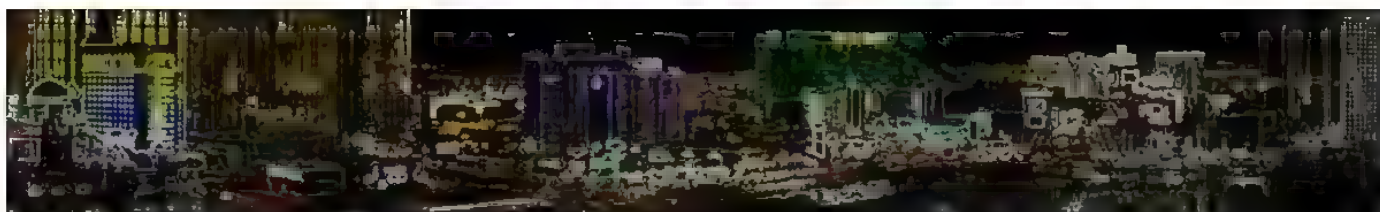

Flashy yellow gold luster accents a remarkable strike for a coin of this issue. Ms. Liberty and the eagle are both fully struck displaying crisp, fully embossed details on both sides. The fields show some tiny die lines and striations (and under intense magnification with a powerful loupe we find a hidden teeny mark or two). The color, luster, and overall eye appeal catches your attention from across the room!

David Akers noted that he knew of only one UNC in a Connecticut collection. That is interesting, as he must have known about Harry Bass's coin, which graded PCGS MS64 in October 1999.

PCGS 0, NGC 2. The other is the former PCGS MS64 Bass coin, which sold most recently for \$97,750 in the 2012 FUN auction. Nothing graded finer than MS63 is currently graded at PCGS (the MS64 on the population report is the aforementioned Bass Coin, now the other NGC MS65). We think this coin has a bit more flash to it, and the eye appeal is stronger. If you collect Southern Branch mint gold coins, this one is a TRUE TROPHY coin and a wonder that it survives in such an amazing state of preservation! GOOD LUCK!

Rich golden mirrors arrest the eye from across the room. A fully struck GEM that displays a lovely orange-gold coloration. The obverse shows a uniform reflective texture in the fields and the reliefs, while the reverse is a touch more contrasted. Lovingly cared for since issuance, there are no serious marks or lines anywhere.

The final proof Liberty quarter eagle, one of the longest series of proof gold coins struck by the U.S. mint. Only 154 coins were struck. Few exist today in such fine quality.

PCGS 10, NGC 11, CAC 2. Before this coin sold, the most recent 1907 \$2.50 in PCGS PR65 realized \$24,150 back in June 2006. Only 12 coins are graded finer in the designation, the finest being PR67. OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade. We have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collectors can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you.

\$2.50 1914 PCGS PR66+ CAC

A magnificent, SUPERB GEM 1914 matte proof quarter eagle, among the finest graded, and of exceptionally HIGH END quality!

Velvety smooth and exceptionally clean sandblast surfaces show a deep khaki and olive gold patina on both sides. The incuse struck devices are razor sharp. Using magnification, the individual facets of the sandblast surfaces catch the light and sparkle. The eye appeal is essentially unrivaled.

Only 117 proofs were struck. The matte proofs, which are so popular among Collectors today were not as well received at the time they were coined. Today, thanks to inflated population reports, PCGS and NGC have combined graded 134 examples, clearly the pops are FULL of duplicate submissions.

PCGS 7, NGC 9, CAC 4. Only two coins at PCGS are graded PR66+, and only 3 coins are graded PR67 finer. The most recent example to sell in auction brought \$43,475 in the 2016 ANA auction, a realization between the most recent PCGS PR66 CAC and PCGS PR67 CAC (\$38,775 and \$58,750 respectively). The current PCGS Price Guide value is listed at \$44,500. A coin that is as stunning as the presently offered coin should see very spirited bidding from advanced Collectors. Wonderful coins like this do not appear at auction all too often, and opportunities like this should NOT be taken lightly.

A vibrant satiny mint frost blooms in the light, radiating outward from the boldly struck central devices to the rims. The vibrance of the luster is suggestive of a full GEM grade, although under close inspection, we do note a tiny mint-made planchet flake and a light tick or two. The eye appeal is about as nice as you could hope for in a 64+ though.

PCGS 810, NGC 447, CAC 131. PCGS has graded only 45 of these in MS64+. A great coin for a gold type set. Last year's Central States auction had the last three PCGS MS64+ CAC coins that have sold in auction, realizing from \$4,700 to \$5,405. This coin has a bold look and should bring close to the top of that range. The CL value is \$5,950.

\$3 1885 PCGS MS64+ CAC

A superb, essentially fully GEM caliber surfaces with full, prooflike reflectivity in the fields and frosted crisply struck devices. The rich golden color is totally original and beautiful. Rotating this coin in a light, you do see orange peel texture in the fields, similar to that found on proofs of the era. The mintage of 801 pieces explains the bold prooflike allure of the presently offered \$3 gold, as it was struck before the initial die polishing was able to wear off the dies. The eye appeal is exceptional and is better than some seen in higher grades.

PCGS 29, NGC 16, CAC 9. Only three are graded MS64+, with 19 finer through MS67. No MS64+ has ever sold in auction. The most recent PCGS MS64 sold in August 2014 for \$27,025 and a PCGS MS65 CAC sold for \$22,913 in our May 2016 Regency Auction (this coin is flashier and just about as nice as that one). A satiny and richly toned early \$5. Pleasing orange-gold surfaces with amber accents show a wealth of original mint bloom that shows hints of reflectivity that boldly bring out the nicely struck design devices. With the aid of a high power glass a few light lines come into focus, but none distract the eye.

BD-4, considered to be R-4+ with approximately 80-100 examples known in all grades and the presently offered example is tied with perhaps as many as nine examples for second finest graded. The reverse die shows a number of cuts at the upper rim, typical for this later die state.

PCGS 10, NGC 7, CAC 5. Only a single CAC approved example has sold in auction, a BD-5 (which is slightly scarcer) which brought \$51,750 in August 2011. A non-CAC coin sold in the 2015 ANA auction for \$30,550 and that coin did not have the bold eye appeal of the presently offered coin. The PCGS Price Guide value is listed at \$45,000. This coin should see very spirited bidding when it crosses the block. It would definitely offer a true pride of ownership for its next collector owner.

Legend Rare Coin Auctions is proud to offer this VERY high-end classic early \$5 design. It's a Type our sister company (Legend Numismatics) has chased all their careers owning no more than 4-6 total (all grades, different dates). The quality and ORIGINALITY of this coin are indisputable!

To start, this BD-1 (rated R-4+) has a very clean and satiny look. Only with a strong glass can you find a few very light ticks and giggles (lines). A surprisingly strong luster (this coin does NOT glow like a later date) does show off pretty and totally ORIGINAL... deeper yellow gold colors. There are NO spots or discolorations. Miss Liberty and the details are frosty and have exceptional sharp strikes. The eye appeal is fantastic.

PCGS 5, NGC 3, CAC 3. This is the second MS63+ graded by PCGS. PCGS has graded only SIX coins higher after 30+ years of operations. It is critical to note that the last auction appearance was for a PCGS NON CAC MS63. That coin brought \$48,175 in April, 2015. We highly doubt the coin was of quality anywhere near this piece. The last MS64 to sell was back in 2014 and was also a NO CAC coin. The current Collector's Universe value is \$66,000. Yeah right-show us the PCGS CAC coins at that price (you won't find any)! We cannot stress enough how RARE and fairly priced this magnificent piece really is. Good luck!

A gorgeous essentially GEM Classic Head \$5! What a rare delight to be able to offer a stone bold original example of this type that usually does not come with any sort of eye appeal or in high grade. This coin has both! Brilliant golden orange coloration is enlivened by a bold original mint bloom. The devices are very well struck, showing full definition in Ms. Liberty's hairlines and in the details of the eagle's wing feathers. Aside from a stray line or two that you do need a strong loupe to see, there is nothing to mar the surfaces or distract the eye.

The Classic Head series is a transitional type. The old tenor types (struck prior to 1834) by this point contained more value in precious metal than was stamped on the coin leading many of these coins to be exported and melted for the specie. An act of Congress passed in 1834 changed that, reducing the weight to prevent the export. It was a short series, lasting only until 1839 when Christian Gobrecht's Coronet or Liberty Head series was introduced. It is a completable set, no one date is extremely rare (although some are condition rarities) and with patience can be completed--the challenge is to find coins that match this near-GEM's stunning originality and high end eye appeal.

PCGS 36, NGC 43, CAC 12. These do not appear in auction with any frequency; the last PCGS MS64 CAC to sell in auction was back in October 2011, where one sold for \$25,300. Even without CAC approval, the last PCGS coin sold in April 2013 for \$21,150. Only 10 coins are graded finer, and in MS65 and MS66, these are valued close to or over \$100,000. This gorgeous MS64 presents any collector a great value! Good luck!

How in the world does this coin even exist? 162 years old and it looks as good as new!

We think a teeny tick or two are all that keep this coin from a GEM MS65 designation. The surfaces are exceptionally smooth and are pretty clean looking overall. A bold glowing luster enhances the bright gold colors. There are NO spots or stains anywhere. Miss Liberty and the details are frosty and are well struck. The eye appeal is 'fabulous'!

PCGS 2, NGC 6, CAC 2. PCGS claims to have graded 3 in MS64+. No MS64+ have ever been sold at auction. PCGS and NGC have graded none finer. The current Collector's Universe Value is \$25,000. With none ever selling, we call that price low. Just to give an idea of how rare this issue is: in 1995 the Ed Milas coin, graded MS64 NGC sold for \$33,000! If you collect earlier \$5 pieces, then you know how rare this date and grade really are! Opportunity knocks loud here!

\$5 1862 PCGS AU55 CAC

A VERY RARE Civil War era \$5. Much surviving mint frost can be seen in the fields and among the devices. Light friction on the fields and on the high points. Medium gold color is pleasing and original--this coin is not the brightly dipped yellow gold so often seen on better date gold.

As the Civil War raged, silver and gold coins disappeared from circulation, as hoarders held onto specie for security. As such, only 4,430 1862 half eagles were coined. A pretty neat bell curve of the graded population shows the peak in the XF-AU range. Very few are graded finer. David Akers wrote "I have seen one AU example but never a specimen with a legitimate claim to mint state."

PCGS 8, NGC 9, CAC 2. This is the highest grade approved by CAC, although both PCGS and NGC have graded a few coins higher (The finest known is the PCGS MS62 Bass coin.) The most recent example to sell in auction was a NON-CAC coin in May 2013 for \$17,625. Before that coin appeared in auction, the last PCGS AU55 to sell in auction was back 1998! Clearly this is not a date or grade you will see with any frequency. A real prize for any Civil War era gold coin collector.

LOT 481

\$5 1863 PCGS AU55

An incredibly RARE Civil War half eagle. The Liberty Head \$5 series is one of the longest running series in American numismatics, and is full of scarce and rare dates. There are some coins that are common in low grades, and in higher mint state grades, become rare. This date is a major rarity in all grades. This is among the 10 most elusive coins in the entire series and PCGS estimates a survival of 30-40 out of 2,442 coins struck.

The fields display a bold, semi-PL reflective luster, and the devices are nice and frosty, creating a pleasing contrast. Well struck with full, crisp definition in all the details. As normally seen on PL gold, any little tick or mark is exaggerated. The high point rub or friction is very minor, and this exceptional coin is quite nice for the assigned grade. You are going to be hard pressed to find anything comparable in the current market.

PCGS 4, NGC 5. As you can tell from the population report, examples DO NOT appear at auction with any frequency. The last PCGS graded AU55 sold in June 2003, making that APR useless in figuring the current market value. In the 2017 FUN auction, an NGC coin brought a hair under \$20,000. Last year, a PCGS AU58 sold in September 2016 for \$35,250. A coin that will please any advanced gold or Civil War era specialist. An amazing opportunity not to be taken lightly!

A very scarce issue, the first bearing the national motto IN GOD WE TRUST. Only 34,920 were struck, and it is a MAJOR condition rarity. Only a single Mint State piece has been graded by PCGS and another at NGC. A choice AU coin like this does not appear in auction with any frequency. This coin was well struck at time of minting, showing nearly complete details that show only a hint of friction on the high points. The fields show a few minor marks and ticks acquired from honest wear in wild west commerce.

PCGS 2, NGC 4. The most recent one to sell in public auction brought \$7,475 in a February 2011 auction sale. The current PCGS Price Guide value is listed at \$7,500. This is such a RARE opportunity for any collector of better gold.

This is a numismatic masterpiece. Its far superior to the typical pre-1880's \$5 we typically see.

Superior surfaces are remarkably satiny, clean, and smooth. Only using a strong glass will you be able to see a light tick or two or a few frost breaks. A full booming luster shows of pale original two-tone gold colors. There is a light copper stain in the eagle's shield which more than proves the coin is totally original. Miss Liberty and the details are frosty and are fully struck. The eye appeal is great.

PCGS 5, NGC 5. CAC 1. The current Collector's Universe Value is \$16,500. Considering this is the only beamed 1878 in GEM (the 2 MS66's by PCGS are NOT CAC), we know the value is all there and then some on this coin. This will be a nice addition to ANY Type or better gold collection.

\$5 1908 INDIAN PCGS MS66

Gem Indian half eagles are rare as a general rule, although, as first year of issue, the 1908 seems to be the most available in GEM grade. However, in MS66 as offered here, even the 1908 is a rarity. Pleasing medium gold in a honey-wheat hue is accented by a lovely velvety mint frost that really shines in a light. The incuse devices are well struck, the intricate feather details in both the Indian's war bonnet and on the eagle are crisp and full. It takes a very strong loupe to find any marks or ticks. Overall, a very pleasing GEM.

PCGS 20, NGC 13. There are 5 coins graded higher at PCGS: 2 in 66+, 2 in 67, and a single MS67+. The last MS66 to sell was a PCGS/CAC coin that realized \$25,850 in May 2015. A non-CAC coin sold in the 2015 FUN auction for \$18,213. The current CU value is \$24,500. It is important to note that for all dates combined, PCGS has graded 67 examples in MS66 or MS66+, so if you are working on a MS66 gold type set, this is going to likely be the hardest type to get in 66, and this date is likely the one you will end up with. The presently offered coin is bound for a fine set.

As the final coin from the New Orleans mint and the only \$5 Indian from this mint, it would likely always be popular, even if the mintage was higher than the only 34,200 that were originally struck. Rare in mint state, most coins known are in the MS61 and 62 grades and exceptionally rare and very expensive any finer. The present, medium good example has a few teeny marks and lines which account for the assigned grade. The eye appeal is wonderful overall and should attract attention from any collector of 20th century gold or specialists in New Orleans mint issues.

PCGS 29, NGC 29. The last NGC-graded example to sell in auction realized \$56,400 in May 2013—that is four years ago. Clearly these do not appear in auction with any real frequency. There are only 16 coins graded finer at NGC and in 2015 an NGC MS62+ CAC sold for \$64,625, the finest is at NGC MS65. There are a number of condition rarities in the series but this one is scarce in all grades and rare this fine. Good luck!

A very rare and underrated \$10. Very nicely struck devices stand out against the semi-reflective satiny surfaces. Accents of coppery-orange can be seen on the reverse rim. Typical of \$10 gold from the era, the surfaces are lightly abraded from a brief stay in circulation. Both sides show some tiny scuffs but none detract from the overall eye appeal. Only 6,361 examples were originally struck, which is the second lowest mintage between 1839 and 1857. Perhaps 50-75 examples survive and both David Akers and Doug Winter

agree that in AU grades, this date is extremely rare, with the latter opining "I believe that there are fewer than ten properly graded AU examples known, with most in the AU50-53 range."

PCGS 3, NGC 6. PCGS has graded a single coin finer, an AU58. The most recent PCGS AU55 to sell in auction realized \$14,100 in September 2015; before that, this one sold in the in our May 2014 Regency Auction VII, where it realized \$19,975 on a \$15,000+ estimate. The current Collector's Universe price is \$18,000 and we think with its bold look, and exceptional rarity, it could well exceed that level today. Specialists take notice!

\$10 1846 NGC AU55 CAC EX S.S. REPUBLIC

In his major reference on U.S. Gold Coins, David Akers wrote: "the 1846 is a grossly underrated date... It is not easy to locate an 1846 Eagle in any condition, and almost all... are only VF or EF. In fact, I have seen only one that I graded AU." It was not until the recovery of the S.S. Republic that six AU examples were discovered. Today, these are still very rare coins, and the typically seen coin still grades EF or lower. Only 20,095 \$10s were struck and the vast majority of them

disappeared into commercial channels, and few were saved for posterity. Even the example in the Smithsonian's National Numismatic Collection is only an AU. The presently offered coin has a bold, FULL strike with matte-like luster from exposure to the salt water for all those years. The eye appeal is superb for a shipwreck coin, and clearly within the condition census for the date. Adding to its desirability is the coveted green bean from CAC, attesting to its quality.

PCGS 7, NGC 12, CAC 2. Thanks to grade inflation, some of those coins that Akers called EF are now in AU holders, and in efforts of obtaining a higher grade, coins have been submitted multiple times. A MAGNIFICENT SUPERB GEM Matte \$10. Representing the first Indian \$10 date that was struck for Collector's in proof, this amazingly well preserved coin ranks high in the condition census of known survivors from the original mintage of 116 originally produced.

Razor sharp devices and silky smooth surfaces show no imperfections of any kind to the aided eye. Deep orange-kah gold color with a finely sandblast textured surface shows a multitude of microscopic facets that sparkle in the light. A short toning line on the obverse serves as a pedigree marker, identifying this GEM for all posterity. The quality is amazing, as is the eye appeal.

PCGS 7, NGC 10, CAC 8. There are a mere five coins graded finer at PCGS, the finest being the PR67 we sold in our Regency Auction XXI, (which replaced this coin in our consignor's amazing collection). Brilliant mint bloom takes on a satiny texture that rolls smoothly over the nearly choice surfaces. Overall the eye appeal is superior to what you might expect for a mint state coin with such a modest assigned grade, but the surfaces are minimally marked. Under a light, some very insignificant lines can be detected with a powerful loupe. The surfaces are pleasing and the eye appeal is great for the assigned grade.

A very scarce CC-mint \$20, one that generally is only seen in VF or XF, in AU grades this coin becomes considerably more scarce than its 42,565 mintage would imply. While a few lower end mint state grade coins survive, many do not have the bold, original eye appeal of this wonderful 58+. Ample mint frost comes through the rich, crusty golden surfaces. A few stray marks and lines are noted on either side with sharply struck devices and on the most insignificant friction in the fields.

PCGS 72, NGC 126, CAC 13. There are only 3 graded AU58+ at PCGS, and 30 coins have graded in mint state grades to MS62. NONE of the three AU58+s have ever sold in auction. It should be noted that no MS60 graded by PCGS has sold in auction in over a decade. An NGC MS60 that did not have the eye appeal nor originality of this wonderful super slider sold for nearly \$26,000 in April 2016. Arguably the FINEST 1878 double eagle in existence! This coin is fresh from a client's collection, a coin we have not been able to track in our auction database--quite possibly making its first appearance at auction in this generation. This coin is high end and superb in every way!

First looking at both sides, you would think you were looking at a common 1900 or 1904 (indeed, if this coin was a common date, it might well be residing in a higher grade holder). The satiny gold luster swirls around very clean and remarkably smooth surfaces. All the devices are fully rendered by an exacting impression from the dies, all of James Longacre's intended design elements are beautifully embossed on the broad gold planchet. Rich original color shows soft honey-wheat gold with coppery accents in areas. The eye appeals jaw dropping for a \$20 of this vintage. We do not think a finer example exists.

PCGS 8, NGC 2, CAC 2. There are none graded finer at either service. The other CAC coin was the last PCGS-graded example to ever sell in auction--back in August 2011 (it had earlier been in an OGH PCGS MS63 holder selling in March 2011). Since these do not trade frequently (and this coin has been off the market for many years) and may be the only available example in the foreseeable future, the PCGS Price Guide and Coin World values are likely to not reflect the true value of this impressive gem in today's market. If you are an aficionado of the Liberty double eagle series, and are looking to add one of the finest examples for your set, do not let this opportunity pass you by!

Brilliant swirling satin mint bloom graces both sides of this impressive gem. Rich golden color takes on an awesome two tone look. Clean, matte-like textured surfaces show nothing but the most insignificant microscopic tick or two. The devices are fully detailed from an exacting strike.

PCGS 589, NGC 578, CAC 97. There are 19 coins graded MS66+ at PCGS, 20 at NGC. The last PCGS/CAC coin sold for \$7,050. Keep in mind, that in MS67, PCGS has graded 6 coins, the most recent of which was CAC approved and sold for a whopping \$80,500 in 2012. As such, this PQ coin offers a great value. A very important opportunity for the advanced 20th century gold collector--we anticipate strong bidding activity on this one!

PCGS # 9158 | EST: \$6,000+

LOT 510

\$2.50 1915-S PANAMA-PACIFIC. PCGS MS65+ CAC

Visually impressive with brilliant, satiny gold luster. The fields are very clean, indeed the only thing we see under close scrutiny with a strong glass are swirling mint made die lines. Crisply struck devices show full details on both sides. One of the most popular early commemoratives, which saw a mintage of only 6,749.

PCGS 611, NGC 505, CAC 133. Only 9 coins have graded MS65+ at PCGS and 10 at NGC. The most recent PCGS/CAC example in MS65+ to sell realized \$5,875 in May 2013 and the CL value is listed at \$7,450. A very pleasing GEM worthy of inclusion in any fine collection of commem gold.

PCGS # 7450 | EST: \$4,000+

LOT 511

50C 1936-S BAYBRIDGE. PCGS MS67 CAC

A beautifully toned, well struck, and lustrous SUPERB GEM example. One of the more popular issues thanks to a great reverse design.

PCGS 198, NGC 88, CAC 89. The last one to sell in auction, realizing \$1,058 in February 2017 did not have the great color of the presently offered example. The current PCGS Price Guide value is listed at \$1,150 and this coin could bring a price in excess of that.

PCGS # 9254 | EST: \$1,000+

LOT 512

50C 1936 BRIDGEPORT. PCGS MS67 CAC

A satiny and attractive superb gem Bridgeport, that has frosty silver centers framed by a touch of gold toning at the rims.

PCGS 90, NGC 39, CAC 29. There are seven coins graded finer at PCGS, all MS67+. The current PCGS Price Guide value is listed at \$1,000, but the most recent CAC approved example realized \$1,880 in July 2016.

PCGS # 9279 | EST: \$1,100+

LOT 513

50C 1935 CONNECTICUT. PCGS MS67 CAC

A well struck SUPERB GEM with bold accents of yellow gold that are brought to life by a vibrant satiny luster. The eye appeal is stronger than normally seen.

PCGS 90, NGC 99, CAC 45. PCGS has graded 11 coins finer 10 in 67+ and 1 in 68. The last two PCGS/CAC MS67 to sell in auction realized \$1,763 in October 2015. The current PCGS Price Guide value is listed at \$1,800. For the specialist collector, this Connecticut has a lot to offer.

PCGS # 9299 | EST: \$1,400+

LOT 514

50C 1915-S PANAMA-PACIFIC. PCGS MS67+ CAC

Deep, original iridescent toning graces both sides of this SUPERB GEM Pan Pac half. Flawless surfaces show off a brilliant satin luster that flows through the toning and in between the details of the fully struck devices.

PCGS 105, NGC 61, CAC 60. There are 17 graded MS67+ and only three finer. The most recent example to sell in auction realized \$7,638 in February this year. They have sold at the rate of one time per year since 2014, and they have sold from \$9,400 to \$14,100, and the current PCGS Price Guide value is listed at \$10,000. This coin should sell for a strong price when specialist Collector's duke it out!

PCGS # 9357 | EST: \$6,750+

LOT 515

50C 1927 VERMONT PCGS MS67 CAC

We have no idea why this ULTRA high end GEM is not an MS67+. You must see this coin in person!

Incredible surfaces are the ultimate in perfection. We used a strong glass and looked a lot over - we found NOTHING. A strong luster illuminates a light to moderate mix of original gold/pale green toning over silver surfaces. Every detail is sharply struck. The eye appeal is terrific!

PCGS 39, NGC 23, CAC 11. This coin last sold in September 2014 for \$7,543 to our sister company Legend. They resubmitted it multiple times, and they finally figured out PCGS will NOT + it. Their loss is your gain. The current Collector's Universe Value is \$4,500. This high end coin really will appeal to any serious commemorative half dollar collector.

PCGS # 9401 | EST: \$4,000+
